2.3 No Subrogation. Notwithstanding any payment made by any Guarantor hereunder or any set-off or application of funds of any Guarantor by the Lender, no Guarantor shall be entitled to be subrogated to any of the rights of the Lender against the Borrower or any other Guarantor or any collateral security or guaranty or right of offset held by the Lender for the payment of the Obligations, nor shall any Guarantor seek or be entitled to seek any contribution or reimbursement from the Borrower or any other Guarantor in respect of payments made by such Guarantor hereunder, until all amounts owing to the Lender by the Borrower on account of the Obligations are paid in full and the Loans have been repaid. If any amount shall be paid to any Guarantor on account of such subrogation rights at any time when all of the Obligations shall not have been paid in full, such amount shall be held by such Guarantor in trust for the Lender, segregated from other funds of such Guarantor, and shall, forthwith upon receipt by such Guarantor, be turned over to the Lender in the exact form received by such Guarantor (duly indorsed by such Guarantor to the Lender, if required), to be applied against the Obligations, whether matured or unmatured, in such order as the Lender may determine. Each Guarantor

hereby agrees that any intercompany debt (including any Intercompany Notes) and any amounts paid hereunder by such Guarantor shall be fully subordinated to the indefeasible payment in full in cash of the Obligations owing to the Lender.

2.4 Amendments, Etc. with Respect to the Obligations. Each Guarantor shall remain obligated hereunder notwithstanding that, without any reservation of rights against any Guarantor and without notice to or further assent by any Guarantor, any demand for payment of any of the Obligations made by the Lender may be rescinded and any of the Obligations continued, and the Obligations, or the liability of any other party upon or for any part thereof, or any collateral security or guaranty therefor or right of offset with respect thereto, may, from time to time, in whole or in part, be renewed, extended, amended, modified, accelerated, compromised, terminated, waived, surrendered or released by the Lender, and the Credit Agreement and any other documents executed and delivered in connection therewith may be amended, modified, supplemented or terminated, in whole or in part, as provided therein, and any collateral security, guaranty or right of offset at any time held by the Lender for the payment of the Obligations or the obligations of any Guarantor may be sold, exchanged, waived, surrendered or released. The Lender shall not have any obligation to protect, secure, perfect or insure any lien at any time held by it as security for the Obligations or for this Agreement or any property subject thereto. When making any demand hereunder against any Guarantor, the Lender may, but shall be under no obligation to, make a similar demand on the Borrower or any other Guarantor, and any failure by the Lender to make any such demand or to collect any payments from the Borrower or any such other Guarantor or any release of the Borrower or such other Guarantor shall not relieve any Guarantor of its obligations or liabilities hereunder, and shall not impair or affect the rights and remedies, express or implied, or as a matter of law, of the Lender against such Guarantor. For the purposes hereof "demand" shall include the commencement and continuance of any legal proceedings.

2.5 Guaranty Absolute and Unconditional. Each Guarantor understands and agrees that this Agreement shall be construed as a continuing, absolute and unconditional guaranty of the full and punctual payment and performance by the Borrower of the Obligations and not of collectibility only and is in no way conditioned upon any requirement that the Lender first attempt to collect any of the Obligations from the Borrower or any other Guarantor, without regard to (a) the validity, regularity or enforceability of the Credit Agreement or any other Loan Document, any of the Obligations or any other collateral security therefor or guaranty thereof or right of offset with respect thereto at any time or from time to time held by the Lender, (b) any defense, set-off, deduction, abatement, recoupment, reduction or counterclaim (other than a defense of payment or performance) that may at any time be available to or be asserted by the Borrower against the Lender or any other Guarantor, or (c) any other circumstance whatsoever (with or without notice to or knowledge of the Borrower or any Guarantor) which constitutes, or might be construed to constitute, an equitable or legal discharge or defense of a surety or guarantor or any other obligor on any obligation of the Borrower from the Obligations, or of any Guarantor from this Agreement, in bankruptcy or in any other instance. When pursuing its rights and remedies hereunder against any Guarantor, the Lender may, but shall be under no obligation to, pursue such rights, powers, privileges and remedies as it may have against the Borrower or

any other Person or against the Collateral or any other collateral security or guaranty for the Obligations or any right of offset with respect thereto, and any failure by the Lender to pursue such other rights or remedies or to collect any payments from the Borrower or any such other Person or to realize upon any such collateral security or guaranty or to exercise any such right of offset, or any release of the Borrower or any such other Person or any such collateral security, guaranty or right of offset, shall not relieve any Guarantor of any liability hereunder, and shall not impair or affect the rights, powers, privileges and remedies, whether express, implied or available as a matter of law or equity, of the Lender against the Guarantors. This Agreement shall remain in full force and effect and be binding in accordance with and to the extent of its terms upon the Guarantors and the successors and assigns thereof, and shall inure to the benefit of the Lender, and each of its permitted successors, indorsees, transferees and assigns, until all the Obligations permitted shall have been satisfied by performance and payment in full and the Credit Agreement and the other Loan Documents shall have been terminated, notwithstanding that from time to time during the term of the Credit Agreement the Borrower may be free from any Obligations.

2.6 Reinstatement. This Agreement shall continue to be effective, or be reinstated, as the case may be, if at any time payment, or any part thereof, of any of the Obligations is rescinded or must otherwise be restored or returned by the Lender upon the insolvency, bankruptcy, dissolution, liquidation or reorganization of the Borrower or any Guarantor, or upon or as a result of the appointment of a receiver, intervenor or conservator of, or trustee or similar officer for, the Borrower or any Guarantor or any substantial part of its property, or otherwise, all as though such payments had not been made.

2.7 Payments. Each Guarantor hereby guarantees that payments hereunder will be paid to the Lender, in Dollars, promptly after demand therefor and in accordance with the wiring instructions of the Lender.

The Lender may set-off cash, the proceeds of the liquidation of any Collateral and all other sums or obligations owed by the Lender to any Grantor against all of such Grantor's obligations to the Lender, whether under this Agreement or under any other agreement with such Grantor, or otherwise, whether or not such obligations are then due, without prejudice to the Lender's right to recover any deficiency. The rights of the Lender under this Section are in addition to other rights and remedies (including without limitation, other rights of set-off) which the Lender may have. Upon the occurrence of any Event of Default with respect to any Grantor, the Lender shall have the right to cause liquidation, termination or acceleration to the extent of any assets pledged by such Grantor to secure their Obligations hereunder or under any other Loan Document to which Section 3 applies.

Further, each Grantor agrees that if any Excluded Collateral should, at any time following the Effective Date, become Collateral on which the Lender is, in accordance with the terms of the Loan Documents, permitted to take a Lien, such Grantor shall so notify the Lender and cooperate with and shall take all steps as may be reasonably required by the Lender to enable and continue the perfection of the Lender's security interests therein. Without limiting the generality of the foregoing, such Grantors shall, upon the request of the Lender, execute and file such New York UCC financing or continuation statements, or amendments thereto or assignments thereof, Mortgages and such other instruments or notices, as may be necessary or appropriate or as the Lender may reasonably request with respect to the Collateral. SECTION 4.

MISCELLANEOUS

4.1 Lender's Appointment as Attorney-in-Fact. (a) Each Grantor hereby irrevocably constitutes and appoints the Lender and any officer or agent thereof, with full power of substitution, as its true and lawful attorney-in-fact with full irrevocable power and authority in the place and stead of such Grantor and in the name of such Grantor or in its own name, from time to time in the Lender's discretion, for the purpose of carrying out the terms of this Agreement to take any and all appropriate action and to execute any and all documents and instruments which may be necessary or desirable to accomplish the purposes of this Agreement, which such Grantor is required to do hereunder but has failed to do so within the time limits required, including without limitation, to protect, preserve and realize upon the Collateral, to file such financing statements relating to the Collateral as the Lender at its option deems appropriate, and, without limiting the generality of the foregoing, such Grantor hereby gives the Lender the power and right, on behalf of such Guarantor, without assent by, but with notice to, such Guarantor, if an Event of Default shall have occurred and be continuing, to do the following:

(b) Each Grantor hereby ratifies all that said attorneys shall lawfully do or cause to be done by virtue hereof. This power of attorney is a power coupled with an interest and shall be irrevocable.

(c) Each Grantor also authorizes the Lender, at any time and from time to time, to execute, in connection with any sale of Collateral provided for in Section 4.3, any endorsements, assignments or other instruments of conveyance or transfer with respect to the Collateral.

(d) The powers conferred on the Lender are solely to protect the Lender's interests in the Collateral and, except as required under Applicable Law, shall not impose any duty upon the Lender to exercise any such powers. The Lender shall be accountable only for amounts that it actually receives as a result of the exercise of such powers, and neither the Lender nor any of its respective officers, directors, agents or employees shall be responsible to such Grantor for any act or failure to act hereunder, except for its own gross negligence or willful misconduct.

4.2 Proceeds. If an Event of Default shall occur and be continuing, (a) all proceeds of Collateral received by such Grantor consisting of cash, checks and Cash Equivalents shall be held by such Grantor in trust for the Lender, segregated from other funds of such Grantor, and shall forthwith upon receipt by such Grantor be turned over to the Lender in the exact form received by such Grantor (duly endorsed by such Grantor to the Lender, if required), and (b) any and all such proceeds received by such Grantor will be applied by the Lender against the Obligations (whether matured or unmatured), such application to be in such order as the Lender shall elect. For purposes hereof, proceeds shall include, but not be limited to, all principal and interest payments, royalty payments, license fees, all prepayments and payoffs, all dividends and distributions, insurance claims, condemnation awards, sale proceeds, rents and any other income and all other amounts received with respect to the Collateral and upon the liquidation of any Collateral, all such proceeds received by the Lender will be distributed by the Lender in such order as the Lender shall elect. Any balance of such proceeds remaining after the Obligations shall have been paid in full and this Agreement shall have been terminated shall be promptly paid over to such Grantor or to whomsoever may be lawfully entitled to receive the same.

4.3 Remedies. If an Event of Default shall occur and be continuing, the Lender may exercise, in addition to all other rights and remedies granted to it in this Agreement and in any other instrument or agreement securing, evidencing or relating to the Obligations, all rights and remedies of a secured party under the New York UCC, at law and in equity. Without limiting the generality of the foregoing, the Lender, without demand of performance or other demand, presentment, protest, advertisement or notice of any kind (except any notice required by law referred to below) to or upon such Grantor or any other Person (all and each of which demands, defenses, presentments, protests, advertisements and notices are hereby waived), may in such circumstances forthwith collect, receive, appropriate and realize upon the Collateral, or any part thereof, and/or may forthwith sell, lease, assign, give option or options to purchase, or otherwise dispose of and deliver the Collateral or any part thereof (or contract to do any of the foregoing), in one or more parcels or as an entirety at public or private sale or sales, at any exchange, broker's board or office of the Lender or elsewhere upon such terms and conditions and at prices that are consistent with the prevailing market for similar collateral as it may deem advisable and at such prices as it may deem best, for cash or on credit or for future delivery without assumption of any credit risk. The Lender shall act in good faith to obtain the best execution possible under prevailing market conditions. The Lender shall have the right upon any such public sale or sales, and, to the extent permitted by law, upon any such private sale or sales, to purchase the whole or any part of the Collateral so sold, free of any right or equity of redemption in the related Grantor, which right or equity is hereby waived and released to the extent not prohibited by Applicable Law. Each Grantor further agrees, at the Lender's request, to assemble the Collateral and make it available to the Lender at places that the Lender shall reasonably select, whether at the related Grantor's premises or elsewhere. The Lender shall apply the net proceeds of any such collection, recovery, receipt, appropriation, realization or sale,

after deducting all reasonable costs and expenses of every kind incurred therein or incidental to the care or safekeeping of any of the Collateral or in any way relating to the Collateral or the rights of the Lender hereunder, including reasonable attorneys' fees and disbursements, to the payment in whole or in part of the Obligations, in such order as the Lender may elect, and only after such application and after the payment by the Lender of any other amount required or permitted by any provision of law, including Section 9-608(a)(1)(c) of the New York UCC, need the Lender account for the surplus, if any, to the related Grantor. To the extent permitted by Applicable Law, each Grantor waives all claims, damages and demands it may acquire against the Lender arising out of the exercise by the Lender of any of its rights hereunder. If any notice of a proposed sale or other Disposition of Collateral shall be required by Applicable Law, such notice shall be deemed reasonable and proper if given at least ten (10) days before such sale or other Disposition. Each Grantor shall remain liable for any deficiency (plus accrued interest thereon) if the proceeds of any sale or other disposition of the Collateral are insufficient to pay the Obligations and the reasonable fees and disbursements incurred by the Lender, including reasonable fees and expenses of any attorneys employed by the Lender to collect such deficiency. Because each Grantor recognizes that the Lender may not be able to purchase or sell all of the Collateral on a particular Business Day, or in a transaction with the same purchaser, or in the same manner because the market for such Collateral may not be liquid, each Grantor agrees that liquidation of the Collateral does not require a public purchase or sale and that a good faith private purchase or sale shall be deemed to have been made in a commercially reasonable manner. Accordingly, the Lender may elect, in its sole discretion, the time and manner of liquidating any Collateral and nothing contained herein shall (i) obligate the Lender to liquidate any Collateral on the occurrence of a Event of Default or to liquidate all Collateral in the same manner or on the same Business Day or (ii) constitute a waiver of any of the Lender's rights or remedies.

4.4 Continuing Liability of each Grantor. The security interests described above are granted as security only and shall not subject the Lender or any of its assigns to, or transfer or in any way affect or modify, any obligation, liability or indemnity of each Grantor with respect to, any of the Collateral or any transaction relating thereto. None of the Lender or its respective assigns shall be required or obligated in any manner to make any inquiry as to the nature or sufficiency of any payment received by it or the sufficiency of any performance by any party under any such obligation, or to make any payment or present or file any claim, or to take any action to collect or enforce any performance or the payment of any amount thereunder to which any such Person may be entitled at any time.

4.5 Limitation on Duties Regarding Preservation of Collateral. The Lender's duty with respect to the custody, safekeeping and physical preservation of the Collateral in its possession shall be in accordance with Section 9-207 of the New York UCC. Neither the Lender nor any of its respective directors, officers or employees shall be liable for failure to demand, collect or realize upon all or any part of the Collateral or for any delay in doing so or shall be under any obligation to sell or otherwise dispose of any Collateral upon the request of the related Grantor or otherwise.

4.6 Powers Coupled with an Interest. All authorizations and agencies herein contained with respect to the Collateral are irrevocable and powers coupled with an interest.

4.7 Release of Security Interest Upon Satisfaction of all Obligations. Upon termination of this Agreement and repayment to the Lender of all Obligations and the performance of all obligations under the Loan Documents, the Lender shall release its security interest in any remaining Collateral; provided that if any payment, or any part thereof, of any of the Obligations is rescinded or must otherwise be restored or returned by the Lender upon the insolvency, bankruptcy, dissolution, liquidation or reorganization of the related Grantor, or upon or as a result of the appointment of a receiver, intervenor or conservator of, or a trustee or similar officer for such Grantor or any substantial part of its Property, or otherwise, this Agreement, all rights hereunder and the Liens created hereby shall continue to be effective, or be reinstated, until such payments have been made.

4.8 Partial Release of Collateral. The Lender shall, in connection with any Disposition of Collateral permitted under the Credit Agreement, release from the Lien created hereby on such Collateral the portion of the Collateral Disposed of, upon the related Grantor's satisfaction of any applicable conditions set forth in the Credit Agreement. In connection therewith, the Lender, at the request and sole cost and expense of the Grantor, shall execute and deliver to the Grantor all releases or other documents including, without limitation, UCC termination statements reasonably necessary for the release of the Lien created hereby on such Collateral. For the avoidance of doubt, the Lien of the Lender on Collateral shall not be released in connection with the Disposition of Collateral between and among the Grantors.

4.9 Waiver of Rights. Except as otherwise expressly provided herein, each Grantor waives any and all notice of any kind including notice of the creation, renewal, extension or accrual of any of the Obligations, and notice of or proof of reliance by the Lender upon this Agreement or acceptance of this Agreement. All of the Obligations shall conclusively be deemed to have been created, contracted or incurred, or renewed, extended, amended or waived in reliance upon this Agreement and all dealings between the Grantors, on the one hand, and the Lender, on the other hand, likewise shall be conclusively presumed to have been had or consummated in reliance upon this Agreement. Each Grantor waives diligence, presentment, protest, demand for payment and notice of default or nonpayment to or upon the Borrower or the Guarantors with respect to the Obligations to the fullest extent permitted by law. In addition, each Guarantor waives any requirement that the Lender exhaust any right, power or remedy or proceed against the Borrower or any other Guarantor.

4.10 Notices. Except as otherwise expressly permitted by this Agreement, all notices, requests and other communications provided for herein (including any modifications of, or waivers, requests or consents under, this Agreement) shall be given or made in writing (including by telecopy or electronic transmission) delivered to the intended recipient at the "Address for Notices" specified on the signatures pages hereof, beneath each party's name; or, as to any party, at such other address as shall be designated by such party in a written notice to each other party. Except as otherwise provided in this Agreement, all such communications shall be deemed to have been duly given when transmitted by telecopier or electronic transmission or personally delivered or, in the case of a mailed notice, upon receipt, in each case given or addressed as aforesaid.

4.11 Severability. Any provision of this Agreement that is held to be prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating or rendering unenforceable the remaining provisions hereof, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction.

4.12 Integration. This Agreement and the other Loan Documents represent the entire agreement of the Grantors and the Lender with respect to the subject matter hereof and thereof, and there are no promises, undertakings, representations or warranties by the Lender relative to the subject matter hereof not expressly set forth or referred to herein or in the other Loan Documents.

4.13 Payment of Expenses. Each Grantor agrees to pay on demand by the Lender any and all reasonable out-of-pocket costs, fees and expenses (including reasonable legal fees and expenses) incurred by the Lender or its agents, representatives or advisors in enforcing any of its rights or remedies under this Agreement, in each case in accordance with Section 8.5 of the Credit Agreement.

4.14 Waiver; Amendment. None of the terms or provisions of this Agreement may be waived, amended, supplemented or otherwise modified except in accordance with Section 8.1 of the Credit Agreement.

4.15 No Waiver; Cumulative Remedies. No failure to exercise and no delay in exercising, on the part of the Lender, any right, remedy, power or privilege hereunder or under the other Loan Documents shall operate as a waiver thereof; nor shall any single or partial exercise of any right, remedy, power or privilege hereunder or thereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege. The rights, remedies, powers and privileges herein provided are cumulative and not exclusive of any rights, remedies, powers and privileges provided by law.

4.19 Submission to Jurisdiction; Waivers. FORM OF CONSENT AND WAIVER OF SENIOR EMPLOYEE TO BORROWER

In consideration for the benefits I will receive as a result of the participation of [NGMCO, Inc.] (together with its subsidiaries and affiliates, the “**Company**”) in the United States Department of the Treasury’s (“**Treasury**”) Automotive Industry Financing Program and/or any other economic stabilization program implemented by the Department of the Treasury under the Emergency Economic Stabilization Act of 2008 (as amended, supplemented, or otherwise modified, the “**EESA**”) or any other law or regulation in existence either prior to or subsequent to the date of this letter from me (any such program, including the Automotive Industry Financing Program, a “**Program**”), I hereby voluntarily consent to and waive any claim against any of the Company, the United States (and each of its departments and agencies), the Loan Parties (as defined in the \$[7,072,488,605] Secured Credit Agreement among the Company, the Treasury and others entered into on or about July [6], 2009) the Company’s Board of Directors (or similar governing body), any individual member of the Company’s Board of Directors (or similar governing body) and the Company’s officers, employees, representatives and agents for any failure to pay or accrue any bonus or incentive compensation or other compensation as a result of compliance with the executive compensation and corporate governance requirements of Section 111 of the EESA, as implemented by any guidance or related laws and regulations issued and/or to be issued thereunder (whether or not in existence as of the date hereof), including without limitation the provisions of the Capital Purchase Program and the TARP Standards for Compensation and Corporate Governance, as implemented by any guidance or regulation thereunder, including the rules set forth in 31 CFR Part 30, or any other guidance or regulations promulgated under the EESA and the requirements of the \$[7,072,488,605] Secured Credit Agreement among the Company, the Treasury and others entered into on or about July [6], 2009, as amended, restated, supplemented or otherwise modified (each of the foregoing, collectively, the “**Limitations**”).

I acknowledge that the aforementioned laws, regulations and Limitations may require modification of the compensation, bonus, incentive and other benefit plans, arrangements, policies and agreements (including, without limitation, so-called “golden parachute” agreements and tax “gross-up” arrangements), whether or not in writing, that I may have with the Company or in which I may participate as they relate to (i) the period the United States holds any equity or debt securities of the Company acquired through a Program, including without limitation the Automotive Industry Financing Program, or (ii) for any other period applicable under such Program or Limitations, as the case may be.

This waiver includes all claims I may have under the laws of the United States or any state (whether or not in existence as of the date hereof) related to the requirements imposed by the aforementioned laws, regulations and Limitations, including without limitation a claim for any compensation or other payments or benefits I would otherwise receive, any challenge to the process by which the aforementioned laws, regulations or Limitations are or were adopted and any tort or constitutional claim about the effect of these laws, regulations or Limitations on my employment relationship.

I agree that, in the event and to the extent that the Compensation Committee of the Board of Directors of the Company or similar governing body (the “**Committee**”) reasonably determines that any compensatory payment or benefit provided to me would cause the Company to fail to be in compliance with the terms and conditions of any laws, regulations or the Limitations (such payment or benefit, an “**Excess Payment**”), upon notification from the Company, I shall promptly repay such Excess Payment to the Company. In addition, I agree that the Company shall have the right to postpone any such payment or benefit for a reasonable period of time to enable the Committee to determine whether such payment or benefit would constitute an Excess Payment.

I understand that any determination by the Committee as to whether or not, including the manner in which, a payment or benefit needs to be modified, terminated or repaid in order for the Company to be in compliance with Section 111 of the EESA and/or the aforementioned laws, regulations or Limitations shall be final, conclusive and binding. I further understand that the Company is relying on this consent and waiver from me in connection with its participation in a Program.

We have acted as counsel to the Guarantors in connection with the preparation, authorization, execution and delivery of, and the consummation of the transactions contemplated by the \$7,072,488,605 Secured Credit Agreement, dated as of the date hereof (the “**Loan Agreement**”), among, *inter alios*, General Motors Company, a Delaware corporation (formerly known as NGMCO, Inc. and successor-in-interest to Vehicle Acquisition Holdings LLC) (the “**Borrower**”) and the United States Department of the Treasury, as the lender (the “**Lender**”). The individual signing this letter does so only in her role as an attorney member of GM’s Legal Staff, and on behalf of such Legal Staff. In so acting, we have examined and relied on originals or copies certified or otherwise identified to our satisfaction, of :

1. the Loan Agreement;

8. the Intercreditor Agreement, dated as of the date hereof, among, *inter alios*, the Borrower, the other Loan Parties and the Lender;
9. the Tranche B Assignment and Assumption Agreement, dated as of the date hereof, among, *inter alios*, the Borrower, the other Loan Parties and the Lender; and
10. the Post-Closing Letter Agreement, dated as of the date hereof between the Borrower and the Lender.

The agreements and instruments specified in paragraphs (1) through (10) above are collectively referred to as the “*Loan Documents*”.

In addition, we have examined and relied on originals or copies, certified or otherwise identified to our satisfaction, of such instruments and certificates of public officials, officers and representatives of the Loan Parties and such other persons, and such corporate and limited liability company records of the Loan Parties, and we have made such investigations of law, as we have deemed appropriate as a basis for the opinions expressed below. As to various questions of fact material to this opinion, we have relied with your permission and without independent verification upon the representations made in the Loan Documents and upon certificates of and discussions with officers and other representatives of the Loan Parties. In rendering the opinions herein set forth, we have assumed with your permission and without independent verification (i) the authenticity of all documents and instruments submitted to us as originals and the conformity to authentic original documents and instruments of all documents and instruments submitted to us as copies, (ii) the genuineness of all signatures (other than those Persons signing on behalf of the Delaware Guarantors), (iii) the power and authority of the parties to each Loan Document (other than the Delaware Guarantors) to execute, deliver and perform such Loan Document, (iv) that each Loan Document has been duly authorized, executed and delivered by each party thereto (other than the Delaware Guarantors) and is the legal, valid and binding obligation of each party thereto (other than the Delaware Guarantors), enforceable against each such other party in accordance with its terms, (v) that each party (other than the Delaware Guarantors) is in compliance with all applicable state and federal laws regulating lenders or the conduct of their business, and (vi) that all parties to the transactions contemplated by the Loan Agreement (other than the Delaware Guarantors) have acted and will continue to act in good faith. In rendering the opinions herein set forth we have also assumed, with your permission (x) that the law of the State of New York is the same as the law of the State of Michigan, and (y) the validity of the obligations of each Loan Party under the Loan Documents under the law of the State of New York.

Based on the foregoing, and subject to the qualifications stated herein, we are of the opinion that:

1. Each Delaware Guarantor (a) is a corporation or a limited liability company, as the case may be, duly organized, validly existing and in good standing under the laws of the State of Delaware; (b) has all requisite power and authority, and the legal right, to own, lease and operate its properties and to carry on its business as now being conducted and (c) is duly qualified as a foreign corporation or limited liability company, as applicable, and is in good standing under the laws of each jurisdiction where its ownership, lease or operation of property or the conduct of its business requires such qualification, except to the extent that all failures to be duly qualified and in good standing could not reasonably be expected to, in the aggregate, have a Material Adverse Effect.
2. Each Delaware Guarantor has all requisite corporate or limited liability company power and authority, as the case may be, and the legal right, to execute and deliver the Loan Documents to which such Delaware Guarantor is a party and to borrow and perform its obligations thereunder and to grant the security interests to be granted pursuant to the Loan Documents to which such Delaware Guarantor is a party. The execution, delivery and performance of the Loan Documents to which such Delaware Guarantor is a party by such Delaware Guarantor have been duly authorized by all necessary corporate or limited liability company action, as the case may be, on the part of such Delaware Guarantor. Each Loan Document has been duly and validly executed and delivered by each Delaware Guarantor party thereto.
3. The execution and delivery by each Guarantor of the Loan Documents to which such Guarantor is a party, its borrowings, if any, in accordance with the Loan Documents and the performance by such Guarantor of its obligations thereunder and the granting of the security interests to be granted by it pursuant to the Security Agreement, the Pledge Agreement, the Mortgages and the IP Security Agreements to which it is a party will not (i) conflict with, constitute a default under or violate, (A) any of the terms, conditions or provisions of the certificate of incorporation or bylaws, or the certificate of formation or limited liability company operating agreement, as the case may be, of such Guarantor, (B) any of the terms, conditions or provisions of any Contractual Obligation to which such Guarantor is a party or by which it is bound, or (C) any judgment, writ, injunction, decree, order or ruling of any court or governmental authority binding on such Guarantor; or (ii) result in, or require, the creation or imposition of any Lien on any of the properties or revenues of such Guarantor pursuant to any Contractual Obligation, except (x) for Liens contemplated by the Loan Documents and (y) to the extent that such conflicts, defaults, violations and creation or imposition of Liens could not reasonably be expected to, in the

aggregate, have a Material Adverse Effect. For purposes of this paragraph, “**Contractual Obligations**” means those material documents, agreements and other instruments of GM that have been filed as an exhibit to any Report on Form 8-K, 10-K or 10-Q of GM filed with the Securities and Exchange Commission (the “**SEC**”).

4. Except as set forth in any Report on Form 8-K, 10-K or 10-Q of GM filed with the SEC, there is no litigation, proceeding or governmental investigation pending or, to the best of our knowledge, threatened by or against the Guarantors or any of their respective Subsidiaries or against any of their respective properties or revenues with respect to (a) the Loan Agreement or any of the transactions contemplated by the Loan Documents or (b) which involves a probable risk of an adverse decision that would materially restrict the ability of any Guarantor to comply with its obligations under the Loan Documents.
5. The execution, delivery and performance of the Loan Agreement by any of the Guarantors, the borrowings thereunder and the use of proceeds thereof as contemplated in the Loan Agreement will not violate the federal laws of the United States of America (including, without limitation, Regulations U or X of the Board of Governors of the Federal Reserve System).
6. None of the Guarantors is an “*investment company*”, or a company “*controlled*” by an “*investment company*”, within the meaning of the Investment Company Act of 1940, as amended.

The opinions expressed above are subject to the following qualifications and limitations:

(a) The enforceability of any document, agreement or other instrument may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws relating to or affecting creditors’ rights generally (including, without limitation, preference and fraudulent conveyance or transfer laws).

(b) Rights of acceleration and the availability of equitable remedies may be limited by equitable principles of general applicability (regardless of whether enforcement is considered in a proceeding in equity or at law).

(c) We express no opinion as to whether the requirements in the Loan Agreement to impose restrictions on executive privileges and compensation may conflict with, constitute a default under or violate any Contractual Obligation.

The opinions expressed herein are subject to the qualification that we express no opinion as to any obligation of any of the Guarantors under the Loan Documents to the extent that such obligation might be deemed to be inconsistent with public policy.

The opinions expressed herein are limited to the law of the State of Delaware General Corporation Law, the Michigan Business Corporation Act and the federal law of the United States of America, which, in our experience, are normally applicable to general business corporations that are not engaged in regulated business activities and to transactions of the type contemplated by the Loan Documents (without having made any investigation as to any other laws), and we do not express any opinion herein concerning the laws of any other jurisdiction (including foreign jurisdictions) or any other laws.

The opinions expressed herein are limited to the specific issues addressed herein and are limited in all respects to documents, laws and facts existing on the date hereof. By rendering these opinions, we do not undertake to advise you of any changes in such documents, laws or facts that may occur after the date hereof.

The opinions expressed herein are rendered solely for your benefit in connection with the transactions described herein. Those opinions may not be used or relied upon by any other person, nor may this letter or any copies hereof be furnished to a third party, filed with a governmental agency quoted, cited or otherwise referred to without our prior written consent.

Very truly yours,
