GENERAL MOTORS COMPANY

Letter from the Chairman & Chief Executive Officer

Dear Fellow Shareholder:

I am pleased to invite you to attend the 2017 Annual Meeting of Shareholders (“Annual Meeting”) of General Motors Company. It will be held at [] Eastern Time on [], 2017, at the []. Please see “How can I attend the Annual Meeting?” on page 94 for further instructions.

Our Plan is Working

GM’s record performance during the last three years and strong 2017 outlook are the direct result of the ongoing actions we’re taking to transform your Company and enhance shareholder value. Building on that commitment, we recently announced a transaction under which our Opel/Vauxhall European operations and our GM Financial European operations will become part of PSA Group. This is the latest in a series of decisions to continue the deployment of capital to higher-return opportunities, including in advanced technologies driving the future, and unlock significant value for our shareholders. Every major decision we make is focused on building sustainable, long-term value for our shareholders. Under our disciplined capital allocation plan we will continue to reinvest in the business to achieve a 20% or greater return on invested capital; maintain a strong, investment-grade balance sheet with a target cash balance of \$18 billion (post-transaction); and return all remaining free cash flow to shareholders on an ongoing basis.

Key to Our Success

We place the customer at the center of everything we do and that guiding principle continued to drive our success in 2016. By designing a vehicle that met and exceeded customer demands in every essential category, the Chevrolet Bolt EV won North American Car of the Year and many other awards. As the transformation of our industry continues at an accelerating pace, the Bolt EV is breaking new ground, and we believe it is the beginning of a new phase of opportunity in electrification. The success of our winning portfolio of cars, trucks and crossovers is giving us the opportunity to invest in the initiatives that are enabling us to lead in the future of personal mobility. The convergence of connectivity, alternative propulsion, autonomous vehicles and the sharing economy is truly allowing us to stretch the boundaries of what is possible and develop vehicles that are safer, smarter, cleaner and more energy-efficient than ever before.

Corporate Social Responsibility

We strive to align environmental, social, and governance (“ESG”) issues to our purpose and values. As a transformative leader, GM delivers safer, simpler and better solutions for humanity to move forward and enhance life’s journey. Over the past year, I have worked with the Board to better position GM as forward-thinking and elevate our leadership profile and reputation among investors, policymakers and others as a leader in ESG best practices. We believe we have a unique opportunity to resolve important issues and contribute to decreasing pollution, congestion, and accidents, and do this while being transparent about the principles and policies that guide us forward.

Greenlight’s Proposal and Director Nominees

As we continue to navigate this period of extraordinary change, we received notice that a shareholder, Greenlight Capital, Inc. (“Greenlight”), intends to present at the Annual Meeting a proposal, which we have further described in this Proxy Statement in accordance with the materials we received from Greenlight. This proposal suggests that the current dividend on the Company’s existing common stock should cease and a new, additional class of common stock – so called “Dividend Shares” – should be distributed. These “Dividend Shares” would be exclusively entitled to a fixed dividend at the current amount in perpetuity, but would not share in future earnings upside and would have limited downside protection against negative risk. Dividends or share repurchases on our common shares could not occur before all dividends on the Dividend Shares, both past and current, had been paid, making the dividend payable on the Dividend Shares cumulative and significantly limiting our financial flexibility.

GM values the views of its owners and engaged directly with Greenlight on numerous occasions during the past seven months, including a meeting between Greenlight and members of your Board of Directors. After a thorough assessment, your Board of Directors unanimously concluded that Greenlight’s proposal would be a speculative and unproven change in capital structure that would create significant additional risks for GM’s shareholders and its business, and is not in the best interests of our shareholders.

The key risks your Board found in the proposal include: no positive effect on the Company’s underlying business or cash flows and, therefore, entirely speculative valuation impact; unknown, uncertain, and untested market demand and liquidity for the Dividend Shares, as well as the remaining common shares that would no longer be dividend-paying; substantially reduced financial flexibility resulting in the likely loss of GM’s investment grade credit rating; and material governance issues and conflicts as a result of the divergent objectives of the two classes of common stock.

Greenlight also intends to nominate a slate of four director nominees for election to the Board in support of its proposal, and in opposition to the highly qualified nominees recommended by your Board. Your Board has a well-defined process for selection of director candidates, which begins with a review of the strategic needs of the business and alignment of the Board’s entire mix of skills, qualifications, and experience toward driving effective oversight of these strategic objectives and initiatives. After a thorough review of each of the Greenlight candidates under this established process, your Board of Directors unanimously determined not to recommend any of the Greenlight candidates.

This Proxy Statement and any additional communications GM provides on this topic will further outline the basis for your Board's strenuous opposition to Greenlight's proposal and director nominees.

Your Board has thoroughly evaluated Greenlight's proposal and director nominees and recommends that you vote FOR GM's nominees and AGAINST the Greenlight proposal by following the instructions on the enclosed WHITE proxy card.

Your Board and management team are singularly focused on the long-term interests of all of our shareholders. We have a highly engaged Board with a diverse range of expertise that drives effective oversight of our strategic priorities and operations. We encourage healthy constructive debate and we regularly challenge ourselves to make the tough decisions that are essential in times of significant change, such as the sale to PSA. It is clear that 2017 will be another year of progress as we advance the transformation of your Company.

Your vote this year is especially important. I encourage you to review this Proxy Statement and the Company's other communications to its shareholders carefully.

Thank you for your support and interest in GM.

Sincerely,

Letter from the Board of Directors

Dear Fellow Shareholder:

General Motors Company is committed to sound corporate governance policies and practices that are designed and continually assessed to enable the Company to operate its business responsibly, with integrity, and in the long-term best interests of its shareholders. We are pleased to share our perspectives on the following key topics of importance to you.

Shareholder Engagement

A priority for us is to listen to shareholders' views on the Company and incorporate them into our boardroom discussions. This dialogue helps us and the Company's senior management team gain feedback on a variety of topics, including strategic and financial performance, executive compensation, board composition and leadership structure, as well as important environmental and social issues.

Following the 2016 Annual Meeting of Shareholders, members of the Board, including our Independent Lead Director and Compensation Committee Chair, met with 11 of our largest shareholders, representing approximately 25% of our outstanding common stock. In addition, one or more members of management met with over 80 shareholders throughout 2016 on various matters. The constructive insights, experiences and ideas exchanged during these engagements allows us to further evaluate and assess key initiatives from different perspectives and viewpoints.

Compensation Tied to Value Creation

We have enhanced our executive compensation program to further align it with our strategic priorities and to reward long-term business success. During our shareholder engagement initiatives, we received feedback regarding the structure and nature of our compensation programs. We believe we have designed a program that aligns with shareholder interests, incentivizes operational excellence, and recognizes individual performance, while remaining simple enough to demonstrate a clear linkage between compensation and performance. The revised program continues to minimize any incentive for management to take excessive risks.

Greenlight's Proposal and Director Nominees

As Mary Barra indicated in her letter to you, GM has received notice that a shareholder, Greenlight, has proposed a slate of four nominees for election to the Board, in opposition to the highly capable nominees recommended by your Board, and in support of Greenlight's own proposal. Greenlight's proposal contemplates that the current dividend on the Company's existing common stock should cease and a new, additional class of common stock – so called "Dividend Shares" – should be distributed that would be exclusively entitled to a fixed dividend at the current amount in perpetuity, but would not share in future earnings upside and would have limited downside protection against negative risk. Dividends or share repurchases on our common shares could not occur before all dividends on the Dividend Shares, both past and current, had been paid making the dividend payable on the Dividend Shares cumulative and significantly limiting our financial flexibility.

GM values the views of its owners, and has engaged directly with Greenlight on numerous occasions during the past seven months, including a meeting between Greenlight and members of the Board. Your Board and management have evaluated Greenlight's idea and its director nominees thoroughly. As we describe in our response to Greenlight's proposal, Item No. 7 in this Proxy Statement, we have unanimously concluded that the proposal would create significant additional risks for GM's shareholders and its business. Management and your Board regularly review the Company's strategy and capital allocation framework. We recently conducted an extensive review of various alternative capital allocation strategies, including Greenlight's idea, changes in the pacing and/or nature of return of capital to shareholders, and the issuance or distribution of preferred or other securities. Together, the Board and management team, with expert advice from three top-tier investment banks, concluded that the Company's existing capital allocation strategy is the right one to deliver long-term, sustainable value for GM's shareholders.

Your Board has concluded that GM's nominees for election as directors represent the best blend of experience, qualifications, and skills to provide effective oversight of the Company's strategic plans and objectives. The selection of qualified directors is both complex and crucial to furthering the long-term interests of our shareholders. Candidates must be able to contribute significantly to the Board's discussion and decision-making on the broad array of complex issues facing the Company. Your Board believes that each of the Board's nominees brings the skills and experiences that are essential to the Board and complement the qualifications and expertise of the other Board members. In contrast, we believe the skills, experiences and qualifications of Greenlight's nominees are not at the level of the Board's nominees and that Greenlight's nominees are being proposed in connection with Greenlight's proposal, which your Board has rejected. **We do not endorse any of Greenlight's nominees and urge you to disregard Greenlight's solicitation of votes for its nominees.**

[Table of Contents](#)

Your Board unanimously and strongly urges you to disregard any proxy card that you receive from Greenlight. If you have previously submitted a proxy card sent to you by Greenlight, you can revoke that proxy and vote for the nominees recommended by the Board and on the other matters to be voted on at the Annual Meeting by using the enclosed **WHITE** proxy card.

Your Board unanimously recommends that you vote **FOR** the election of our 11 director nominees and **AGAINST** the Greenlight Proposal on the enclosed **WHITE** proxy card or voting instruction form.

Background of the Solicitation – Greenlight’s Proposal and Director Nominees

The Company evaluates its strategy and capital allocation framework on an ongoing basis. This evaluation also takes into account the perspectives of the Company’s shareholders, whose views are actively elicited, sought and received as a result of the Company’s shareholder engagement efforts.

Over a seven-month period, the Board and management extensively reviewed various capital allocation strategies and thoroughly considered the Greenlight Proposal, as well as the perspectives of other shareholders. In addition to the Greenlight Proposal, the Board considered other changes to the Company’s capital allocation strategy, including changes to the pacing and/or nature of return of capital to shareholders and the issuance or distribution of preferred or other securities. Following such review, the Board reaffirmed that the Company’s current capital allocation strategy, which includes investing in higher-return business opportunities, retaining a strong investment grade balance sheet, maintaining a target cash balance of \$20 billion, and returning all remaining free cash flow to shareholders through dividends and share repurchases, is in the best interests of the Company and its shareholders.

In January 2017, under this framework, the Board approved the repurchase of up to an additional \$5 billion of the Company’s common stock with no expiration date, in addition to completing the remaining portion of previously announced repurchase programs. On March 6, 2017, as part of the Company’s announcement of the sale of its Opel/Vauxhall subsidiary and GM Financial’s European operations, the Company announced that it would lower the cash balance requirement under its capital allocation framework by \$2 billion, which it intends to use to accelerate share repurchases under these programs, subject to market conditions. The Company will continue to evaluate its capital allocation program regularly and consider the perspectives of the Company’s shareholders in doing so.

The summary below of the significant number of material contacts between the Company and Greenlight is intended to provide context to shareholders with respect to the Greenlight Proposal and Greenlight’s director nominees. During the period outlined below, the Company also engaged with other shareholders and took into account their perspectives in coming to the determinations reached by the Company’s Board and management team concerning the Company’s capital allocation strategy and, as a result, the Greenlight Proposal, as described above.

- On August 11, 2016, David M. Einhorn, founder and president of Greenlight, contacted Chuck Stevens, Executive Vice President and Chief Financial Officer of the Company, by email to ask for a meeting in September to discuss an idea that Mr. Einhorn wanted to present to Mr. Stevens. In response to this email, Mr. Stevens arranged to meet with Mr. Einhorn on September 15, 2016.
- At the September 15, 2016 meeting, attended by Mr. Einhorn, Mr. Stevens and other representatives of Greenlight and the Company, Mr. Einhorn delivered a presentation with respect to a concept he referred to as Dividend Shares. The presentation contemplated the distribution of newly created Dividend Shares to existing holders of common stock, stating that the Company’s dividends on existing common stock would be eliminated and reallocated to the Dividend Shares as a fixed cumulative dividend. The presentation stated that the Dividend Shares would be senior to the existing common stock, while the existing common stock would have voting rights and participate in the Company’s remaining earnings. The presentation also stated that if multiple dividends were missed on the Dividend Shares, then holders of Dividend Shares could demand board representation.
- Although this presentation stated that the Dividend Shares could be either a separate class of common equity or a perpetual preferred stock, the terms of the Dividend Shares as set out in the presentation were consistent with the terms of a perpetual preferred stock, in that the Dividend Shares would be senior to the existing common stock and carry a fixed cumulative dividend as well as rights to board representation if dividends were in arrears. Accordingly, subsequent discussions regarding the proposal with representatives of Greenlight focused on a preferred stock structure, with Greenlight providing additional materials regarding such structure and the potential provisions of the proposed Dividend Shares.
- On October 5, 2016, representatives of GM’s treasury and investor relations teams held a teleconference with Mr. Einhorn and other Greenlight representatives to discuss follow-up questions on the proposal. On October 31, 2016, representatives of GM’s treasury and investor relations teams and GM’s financial advisors met with representatives of Greenlight to review various potential considerations related to the proposal. On November 9, 2016, Mr. Stevens contacted Mr. Einhorn to follow up on the October 31, 2016 meeting.

[Table of Contents](#)

- Through the month of November, the Company and its financial advisors continued to analyze the Greenlight proposal and various alternatives, including a dual-class common stock variant of the preferred stock structure. The Company also continued to conduct shareholder engagement initiatives, including as to matters relating to capital allocation and capital structure. In addition, the Company's financial advisors held hypothetical discussions on a no-names basis with ratings agencies to explore the impact that the distribution of a security such as the one proposed by Greenlight would have on a major company's credit rating. Members of the Board were kept apprised of the nature and status of the Company's engagement with Greenlight, including the evaluation and ongoing analysis of the Greenlight proposal.
- On December 6, 2016, Mr. Stevens, with representatives of GM's treasury and investor relations teams and two of GM's financial advisors, met with Mr. Einhorn and representatives of Greenlight to continue their discussion of issues raised by Greenlight's proposal. On December 14, 2016, at a regularly scheduled meeting, the Board and management reviewed Greenlight's proposal as put forth in the September 15, 2016 presentation and the discussions on the proposal between representatives of the Company and of Greenlight. The Board also reviewed the updated analyses of the proposal conducted by the Company's management and financial advisors. Following deliberation, the Board determined that it was not in the best interests of the Company and its shareholders to pursue the proposal. On December 15, 2016, Mr. Stevens and other representatives of the Company met with Mr. Einhorn and other representatives of Greenlight to convey the Board's decision not to move forward with Greenlight's proposal.
- On January 13, 2017, Mary Barra, Chairman & Chief Executive Officer of the Company, received a telephone call from Mr. Einhorn requesting a short discussion. Subsequently, on January 16, 2017, Ms. Barra, Mr. Stevens and Mr. Einhorn held a teleconference to discuss Greenlight's proposal. Mr. Einhorn said that he continued to believe that the Dividend Share proposal would create value and that he believed that structuring the Dividend Shares as a second class of common stock rather than as a preferred stock could address concerns about the proposal's potential negative impact on the Company's credit ratings.
- On January 25, 2017, Ms. Barra, Mr. Stevens and representatives of GM's treasury and investor relations teams had a further discussion of the dual-class common stock variant of the proposal with Mr. Einhorn and other representatives of Greenlight by telephone. During the month of January, the Company and its financial advisors also refreshed and updated their prior analyses of a dual-class common stock variant of Greenlight's proposal.
- As part of the Company's consideration of the dual-class common stock variant of Greenlight's proposal, on January 30, 2017, a Greenlight representative sent an email to a representative of GM attaching proposed terms for the dual-class common stock variant. The proposed terms contemplated a pro rata distribution to GM's shareholders of one Dividend Share for each share of existing common stock. The proposed terms also contemplated that the Dividend Shares would be entitled to a quarterly dividend in an amount equal to \$0.38 per share. The proposed terms provided that if dividends on the Dividend Shares were in arrears, the Company would not be able to repurchase or pay dividends on the existing common stock. The proposed terms contemplated that the Dividend Shares would be entitled to one-tenth of a vote per share, except that the Dividend Shares would have a separate class vote to approve a change of control of the Company.
- Later on January 30, 2017, Ms. Barra, Mr. Stevens and representatives of GM's treasury and investor relations teams again discussed the proposal, as well as the proposed terms, with Mr. Einhorn and other representatives of Greenlight. In response to questions seeking more clarity with respect to the dual-class common stock proposal, Mr. Einhorn referred back to Greenlight's September 15, 2016 presentation and said that the proposal was still essentially the same as set forth in that presentation. Mr. Einhorn also stated that he was considering submitting the Dividend Share proposal as a shareholder proposal at the Annual Meeting as well as a slate of four to five director nominees.
- In early February, representatives of the Company spoke with representatives of three credit rating agencies on a named basis to explore the impact that the Dividend Share proposal could have on the Company.
- On February 6, 2017, at a telephonic meeting, the Board received an update on the further discussions with Greenlight, and the further analyses of the proposal conducted by the Company's management and financial advisors. Based on this review, the Board again determined that it was not in the interests of the Company and its shareholders to pursue the proposal. Later on February 6, 2017, the Company received a notice from Greenlight (the "Greenlight Notice") of its intent to nominate a slate of four nominees to stand for election to the Board at the Annual Meeting and of its intent to present the Greenlight Proposal as a shareholder proposal at the Annual Meeting.

- On February 17, 2017, outside counsel for the Company sent to outside counsel for Greenlight a directors' questionnaire and requested that each of Greenlight's nominees complete and return the questionnaire. On February 23, 2017, Greenlight's outside counsel sent the completed questionnaires from Greenlight's nominees to the Company's outside counsel.
- On March 6, 2017, the Company and PSA Group announced an agreement under which the Company's Opel/Vauxhall subsidiary and GM Financial's European operations will join the PSA Group. ITEM NO. 1 – ELECTION OF DIRECTORS

Nominees for Director Recommended by the Board

Your Board recommends a vote **FOR** all of the nominees listed below.

SKILLS & QUALIFICATIONS

The selection of qualified directors is critical to the long-term success of GM and its shareholders. Director nominees must be able to contribute significantly to the Board’s discussion and decision-making on the broad array of complex issues facing the Company. The Board’s established process for director selection is well-defined and comprehensive, and it begins with an assessment of GM’s strategic objectives and the skills, experience and qualifications needed to further those objectives. Through that process, your Board has determined that its nominees for election as director collectively represent the best mix of experience, qualifications and skills to further the long-term interests of all shareholders. **We do not endorse any of Greenlight’s nominees and urge you to disregard Greenlight’s solicitation of votes for its nominees.**

Director Election Requirements

All directors stand for election annually. Upon the recommendation of the Governance and Corporate Responsibility Committee (“Governance Committee”), the Board has nominated each of the 11 persons identified below to serve as director for a one-year term or until his or her successor has been duly elected and qualified or until his or her earlier resignation or removal. Each director nominee recommended by the Board was elected to the Board at the 2016 Annual Meeting.

We urge you to sign and return the **WHITE** proxy card or voting instruction form or vote by Internet or telephone. By doing so, the Proxy Committee (comprised of Mary T. Barra, Daniel Ammann, and Charles K. Stevens, III) will vote your shares for all 11 nominees described in the following section, unless you indicate on the **WHITE** proxy card or voting instruction form to withhold authority to vote for one or more of such nominees. Each director will serve until the next annual meeting of shareholders and until a successor is elected and qualified, or until his or her earlier resignation, removal, or death. If any of the Board’s nominees for director becomes unavailable to serve before the Annual Meeting (which we do not anticipate), the Board may decrease the number of directors to be elected or designate a substitute nominee for that vacancy.

We have received notice pursuant to Section 1.11 of our Bylaws that Greenlight intends to nominate its own slate of four nominees for election to the Board at the Annual Meeting. We believe based on Greenlight’s notice that the election of directors at the Annual Meeting will be a contested election. Our bylaws provide that in a contested election, all directors are to be elected under a plurality voting standard. Under the plurality voting standard, the 11 persons who receive the greatest number of votes are the persons elected to the Board for the following year. “Withhold” votes will be counted as present for purposes of this vote but are not counted as votes cast.

Your Board does not endorse any Greenlight nominee and unanimously recommends that you disregard any proxy card that may be sent to you by Greenlight. Your Board affirmatively determined that each of our 11 nominees qualifies for election to the Board under the established and rigorous criteria for director candidates described in the next section and unanimously recommends that you vote on the **WHITE** proxy card and voting instruction form **FOR** the election of each of our nominees listed below.

Please note that voting to “Withhold” with respect to the Greenlight nominees on Greenlight’s proxy card is not the same as voting for our Board’s nominees because a vote to “Withhold” with respect to any of the Greenlight nominees on Greenlight’s proxy card will revoke any proxy you previously submitted. If you have already voted using Greenlight’s proxy card, you have every right to change your vote by voting via the Internet or by telephone by following the instructions on the **WHITE** proxy card, or by completing and mailing the enclosed **WHITE** proxy card in the enclosed postage-paid envelope. Only the latest validly executed proxy that you submit will be counted—any proxy may be revoked at any time prior to its exercise at the Annual Meeting.

Director Nomination Process

Nominees for election as director are proposed by the Board upon recommendation of the Governance Committee.

The Governance Committee annually reviews the appropriate skills and characteristics needed for the Board to effectively perform its oversight function, including importantly, the continued execution of GM's strategic priorities. Nominees are recommended to the Board, after considering current Board composition, Company strategy and other relevant facts and circumstances, including the director's history of attendance and participation in meetings, other contributions to the activities of the Board and GM, active participation in orientation and ongoing educational events, the results of Board self-evaluations and any potential or actual conflicts of interest.

The selection of qualified directors is fundamental to the Board's successful oversight of GM's strategy and ongoing operations. The Governance Committee's and the Board's priorities for recruiting new Board members may vary at times, depending on the Company's needs and the makeup of the Board at such time. In every case, candidates must be able to contribute significantly to the Board's discussion and decision-making on the broad array of complex issues facing the Company. The Governance Committee has historically engaged a reputable, qualified search firm to help identify and evaluate candidates.

As part of its comprehensive process for selecting nominees for the Board, our Governance Committee utilizes a detailed skills matrix to consider the particular experience, qualifications, and attributes of current Board members and prospective candidates. The Governance Committee seeks nominees who, taken together as a group, possess the skills, diversity, and expertise appropriate for maintaining a well-rounded and effective Board aligned with achievement of the Company's business strategy and operations. In evaluating potential director candidates, the Governance Committee considers, among other factors, the criteria listed below and any additional characteristics that it believes one or more directors should possess, based on an assessment of the needs of our Board at that time.

	Significant leadership experience over an extended period, especially as CEO; extraordinary leadership qualities; and the ability to identify and develop those qualities in others.
	Leadership in automotive or related industry. Expertise in key businesses and proven knowledge of key customers and risks associated with the business.
	Experience in managing significant manufacturing operations.
	Understanding of technology and innovation through academia or industry experience.
	Relevant risk management oversight and experience.
	Global business and cultural experience.
	Expertise in complex financial and accounting matters.
	Knowledge of global government relations, public policy, and regulatory matters.
	Marketing experience, including digital marketing, brand and product awareness; social media experience.
	Diversity of perspective, professional experience, age, and background, such as gender, race, ethnicity, and country of origin.

The Governance Committee considers individuals with a broad range of business experience and varied backgrounds. Although GM does not have a formal policy governing diversity among Board members, the Board strives to identify candidates with diverse backgrounds. We recognize the value of overall diversity and consider members' and candidates' opinions, perspectives, personal and professional experiences, and backgrounds, including gender, race, ethnicity, and country of origin. We believe that the judgment and perspectives offered by a diverse board of directors improves the quality of decision making and enhances the Company's business performance. We also believe such diversity can help the Board respond more effectively to the needs of customers, shareholders, employees, suppliers, and other stakeholders worldwide.

Pursuant to the Stockholders Agreement dated October 15, 2009 between the Company and the UAW Retiree Medical Benefits Trust (the “VEBA Trust”), the VEBA Trust has the right to designate one nominee to our Board for so long as it holds 50% of the shares of GM’s common stock that it initially acquired, subject to the consent of the UAW and approval by the Board (not to be unreasonably withheld). The VEBA Trust has designated Mr. Ashton, who has been recommended by the Governance Committee and nominated by the Board as part of the slate of candidates it recommends for election at the Annual Meeting.

The Governance Committee will consider persons recommended by shareholders for election to the Board. To recommend an individual for Board membership, write to Jill E. Sutton, Corporate Secretary and Deputy General Counsel, Corporate, Finance and Strategic Transactions (“Corporate Secretary and Deputy General Counsel”) of our Company, at the mailing address or e-mail address provided on page 98 in “How can I obtain the Company’s corporate governance information?” The Governance Committee will review the qualifications and experience of each recommended candidate using the same criteria for candidates proposed by Board members and communicate its decision to the candidate or the person who made the recommendation.

Non-Employee Director Compensation

Compensation for our non-employee directors is set by the Board at the recommendation of the Governance Committee. Ms. Barra, our sole employee director, does not receive additional compensation for her Board service other than the personal accident insurance benefit described below, the value of which is reported for Ms. Barra in the Summary Compensation Table on page 63.

The Governance Committee, which consists solely of independent directors, annually assesses the form and amount of non-employee director compensation and recommends changes, if appropriate, to the Board based upon competitive market practices. Commencing in 2016, the Governance Committee reviewed director compensation data for the same companies that comprise the peer group we use for benchmarking executive compensation, as described on page 46. The process for setting non-employee director compensation is guided by the following principles:

u Guiding Principles

- u Fairly compensate directors for their responsibilities and time commitments,
- u Attract and retain highly qualified directors by offering a compensation program consistent with those at companies of similar size, scope, and complexity,
- u Align the interests of directors with our shareholders by providing a significant portion of compensation in equity and requiring directors to continue to own our common stock (or common stock equivalents), and
- u Provide compensation that is simple and transparent to shareholders.

The Governance Committee can engage the services of outside consultants, experts, and others to assist the Committee. During 2016, the Governance Committee did not engage any consultants in reviewing and setting director compensation.

u Director Stock Ownership and Holding Requirements

In December 2016, the Board approved an increase in the stock ownership requirement by \$100,000, so that each non-employee director is required to own our common stock or Deferred Share Units (“DSUs”) with a market value of at least \$500,000.

- u Ownership guidelines are reviewed each year to confirm they continue to be effective in aligning the interests of the Board and our shareholders.
- u Non-employee directors are prohibited from selling any GM securities or derivatives of GM securities, such as DSUs while they are members of the Board.
- u Each non-employee director is required to own our common stock or DSUs with a market value of at least \$500,000.
- u Each director has up to five years from the date he or she is first elected to the Board to meet this ownership requirement.
- u All of our directors are in compliance with our stock retention requirements. Ms. Gooden and Ms. Mendillo are within their five-year compliance period and are expected to meet the ownership requirement by the end of such period. All other directors have met or exceeded the ownership requirement.

u Annual Compensation

During 2016, compensation for non-employee directors consisted of the elements described below. We do not pay any other retainers or meeting fees. The Lead Director and Committee Chairs receive additional compensation due to the workload and broad responsibilities of these positions.

Compensation Element	2016
Board Retainer	\$250,000
Lead Director Fee (1)	\$100,000
Audit Committee Chair Fee	\$ 30,000
Compensation Committee Chair Fee	\$ 20,000
All Other Committee Chair Fees (excluding the Executive Committee)	\$ 15,000

(1) In 2016, Mr. Solso received an additional fee of \$50,000 (i.e., the annual Chairman fee of \$300,000 prorated for two months of service) for transitional services following Ms. Barra’s assumption of the Chairman role on January 4, 2016. Effective March 4, 2016, the additional fee paid to Mr. Solso for service as Lead Director is \$100,000 per year.

ITEM 1: ELECTION OF DIRECTORS

Under the General Motors Company Deferred Compensation Plan for Non-Employee Directors (the "Director Compensation Plan"), non-employee directors are required to defer 50% of their annual Board retainer (i.e., \$125,000) into DSUs. Non-employee directors may elect to defer all or half of their remaining Board retainer or amounts payable (if any) for serving as Committee Chair or Lead Director into additional DSUs. The fees for a director who joins or leaves the Board or assumes additional responsibilities during the year are prorated for his or her period of service.

u How Deferred Share Units Work

Each DSU is equal in value to a share of GM common stock and is fully vested upon grant, but does not have voting rights. DSUs granted are determined as follows:

For a director who joined or retired from the Board during the calendar year, the retainer fee is prorated and converted to DSUs based on the average daily closing market price of our common stock for the period of service. All DSUs granted are rounded up to the nearest whole unit. Any portion of the retainer that is deferred into DSUs may also earn dividend equivalents, which are credited at the end of each calendar year to each director's account in the form of additional DSUs. DSUs will not be available for disposition until after the director leaves the Board. After leaving the Board, the director will receive a cash payment or payments based on the number of DSUs in the director's account, valued at the average daily closing market price for the quarter immediately preceding payment. Directors will be paid in a lump sum or in annual installments for up to five years based on their deferral elections.

u Changes to Director Compensation

In December 2016, the Governance Committee determined that the Company's director compensation program was below the median for director compensation at peer group companies and recommended that certain increases be made to fairly compensate directors for their responsibilities and time commitments and to align with competitive market practices. Following the recommendation of the Governance Committee, the Board approved the following changes to non-employee director compensation, effective January 1, 2017:

- An increase in the annual retainer for Board service from \$250,000 to \$285,000 with 50% (or \$142,500) mandatorily deferred into DSUs; and
- An increase in the annual retainer for the Chairs of the Governance, Finance, and Risk Committees from \$15,000 to \$20,000.

u Other Compensation

As outlined below, we provide certain additional benefits to non-employee directors.

Type	Purpose
u Evaluation Vehicles	We provide directors with the use of evaluation vehicles to provide feedback on our products as well as enhance the public image of our vehicles. Retired directors receive the use of an evaluation vehicle for a limited period of time. Participants are charged with imputed income based on the lease value of the vehicles and are responsible for associated taxes.
u Personal Accident Insurance ("PAI")	We provide PAI coverage in the event of accidental death or dismemberment. Directors are responsible for associated taxes on the imputed income from the coverage.

Unless previously employed by the Company, non-employee directors are not eligible to participate in any of the savings or retirement programs for our employees. Other than as described in this section, there are no separate benefit plans for directors.

u 2016 Non-Employee Director Compensation Table

This table shows the compensation that each non-employee director received for his or her 2016 Board and Committee service. Amounts reflect partial-year Board service for Mr. Girsky and Ms. Mendillo.

Carol M. Stephenson	72,500	219,631	12,657	304,788

(1) Reflects cash compensation received in 2016 for Board and Committee service.

(2) Reflects aggregate grant date fair value of DSUs granted in 2016, including amounts that Mss. Marinello (\$125,000), Mendillo (\$72,917), Russo (\$15,000), and Stephenson (\$72,500) and Messrs. Ashton (\$62,500), Jimenez (\$125,000), Mullen (\$15,000), Mulva (\$140,000), and Solso (\$258,333) elected to defer into DSUs in lieu of all or a part of their cash compensation. Grant date fair value is calculated by multiplying the number of DSUs granted by the closing price of GM common stock on December 30, 2016, which was \$34.84. The holders of DSUs also receive dividend equivalents which are reinvested in additional DSUs based on the market price of the common stock on the date the dividends are paid.

(3) The following table provides more information on the type and amount of benefits included in the All Other Compensation column.

Director	Company Vehicle Program			Total
	(a)	(b)		
Mr. Ashton	\$30,083	\$240		\$30,323

Ms. Marinello	\$15,750	\$240		\$15,990
Ms. Mendillo	\$ 4,875	\$120		\$ 4,995

Director	Company Vehicle Program			Total
	(a)	(b)		
Mr. Mullen	\$24,500	\$240		\$24,740

Mr. Solso	\$17,167	\$240		\$17,407
Ms. Stephenson	\$12,417	\$240		\$12,657

(a) Company vehicle program includes the estimated annual lease value of the Company vehicles driven by directors. We include the annual lease value because it is more reflective of the value of the company vehicle perquisite than the Company's incremental costs, which are generally significantly lower because the Company manufactures and ordinarily disposes of Company vehicles for a profit, resulting in minimal incremental costs, if any. Taxes related to imputed income are the responsibility of each participant.

(b) Reflects cost of premiums for providing personal accident insurance (annual premium cost of \$240 is prorated, as applicable, for period of service).

(4) Mr. Girsky resigned from the Board effective June 7, 2016.

(5) Ms. Marinello resigned from the Board on December 19, 2016.

Role of Board of Directors

GM is governed by a Board of Directors and Committees of the Board that meet throughout the year. The Board is elected by shareholders to oversee and provide guidance on the Company's business and affairs. The Board is the ultimate decision-making body of the Company, except for those matters reserved to shareholders. The Board is highly engaged in the process of strategic development and oversight of ongoing execution of the Company's strategic plan. The Board oversees management's activities in connection with proper safeguarding of the assets of the

Company, maintenance of appropriate financial and other internal controls, and compliance with applicable laws and regulations and proper governance. The Board is committed to sound corporate governance policies and practices that are designed and routinely assessed to enable the Company to operate its business responsibly, with integrity, and to position GM to compete more effectively, sustain its success, and build long-term shareholder value.

Board Size

The Board of Directors sets the number of directors from time to time by resolution adopted by a majority of the Board. The Board of Directors is currently composed of 11 members. The Governance Committee reassesses the Board's size at least annually. The Board has the flexibility to increase or reduce the size of the Board, based upon prevailing facts and circumstances. If any nominee is unable

to serve as a director or if any director leaves the Board between annual meetings, the Board, by resolution, may reduce the number of directors or elect an individual to fill the resulting vacancy. If all of the Board's nominees are elected, the Board will be composed of 11 members immediately following the Annual Meeting.

“Winning With Integrity” and Code of Ethics

The Board is committed to the highest legal and ethical standards in fulfilling its responsibilities. We have adopted a code of business conduct and ethics, “Winning With Integrity” that applies to our directors, officers, and employees. “Winning With Integrity” forms the foundation for compliance with corporate policies and procedures and creates a Company-wide focus on uncompromising integrity in every aspect of our operations. The code embodies our expectations for a number of topics, including workplace and vehicle safety, conflicts of interest, protection of confidential information, insider trading,

competition and fair dealing, human rights, community involvement and corporate citizenship, political activities and lobbying, preservation and use of company assets, and compliance with all laws and regulations applicable to the conduct of our business. Employees are required to report any conduct that they believe in good faith to be an actual or apparent violation of the code. The code is available on our website at gm.com/investors, under “Corporate Governance” and is available in print upon request. We will post any updates to the code on our website.

Corporate Governance Guidelines

Our Board has adopted a governance structure that it believes promotes the best interests of our shareholders. The Corporate Governance Guidelines form a transparent framework for the effective governance of the Company. The Governance Committee regularly considers the Corporate Governance Guidelines and periodically recommends to our Board the adoption of amendments in response to changing regulations, evolving best practices,

and shareholder concerns. Our Corporate Governance Guidelines, Certificate of Incorporation, Bylaws, Board Committee Charters, and other governance materials are available on our website at gm.com/investors under “Corporate Governance.” To obtain a copy of these materials, see “How can I obtain the Company’s corporate governance information?” on page 98.

Director Independence

The Corporate Governance Guidelines define our standards for director independence and are based on applicable New York Stock Exchange (“NYSE”) and U.S. Securities and Exchange Commission (“SEC”) requirements. At least two-thirds of our directors are and must continue to be independent under these standards. The Governance Committee assesses the independence of each director, applying the criteria in our Corporate Governance Guidelines, and makes recommendations to the Board. For a director or director nominee to be “independent,” the Board must affirmatively determine that the director has no material relationship with the Company other than his or her service as a director. In addition, members of the Audit and Compensation Committees must meet heightened independence standards applicable under NYSE and SEC rules.

Consistent with the standards described above, the Board has reviewed all relationships between the Company and each director and director nominee (as well as Stephen J. Girsky and Kathryn J. Marinello, who resigned from the Board on June 7, 2016 and December 19, 2016, respectively), considering quantitative and qualitative criteria, and affirmatively has determined that all are independent other than Mr. Ashton, Mr. Girsky, and Ms. Barra. Mr. Ashton is not independent because of his long-term affiliation with the UAW and the substantial labor agreements between the Company and the UAW.

Mr. Girsky was not independent because of his former employment with the Company. Ms. Barra is not independent because she currently holds the position of CEO.

In recommending to the Board that each non-employee director and director nominee be found independent, the Governance Committee considered whether there were any other facts or circumstances that might impair a director’s independence. In particular, the Governance Committee evaluated charitable contributions that GM (including the GM Foundation) has made to nonprofit organizations with which our directors are or have been associated. None of these transactions were material to either GM or the director or director nominee. The Governance Committee also considered that GM, in the ordinary course of business, during the last three years, has sold fleet vehicles to and purchased products and services from companies at which some of our directors serve as non-employee directors or executives. The Board determined that these transactions were not material to GM or the other companies involved and that none of our directors had a material interest in the transaction with these companies. In each case, these transactions were in the ordinary course of business for GM and the other companies involved and were on terms and conditions available to similarly situated customers and suppliers. Therefore, they did not impair the respective director’s independence.

Board Leadership Structure

Our Board has the flexibility to decide when the positions of Chairman & CEO should be combined or separated and whether an executive or independent director should be Chairman. This approach is designed to allow the Board to choose the most appropriate leadership structure for the Company to best serve the interests of our shareholders at the relevant time.

In January 2016, the Board recombined the positions of Chairman & CEO under the leadership of Ms. Barra and designated Mr. Solso as Independent Lead Director. The Board determined that this structure provides a clear and unified strategic vision for GM during a time of unprecedented industry change. As the individual with primary responsibility for managing the Company, Ms. Barra's in-depth knowledge of our businesses and understanding of day-to-day operations brings focused leadership to our Board on the matters most critical to fulfillment of the Board's oversight function. The structure also reinforces accountability for the Company's performance at the highest levels.

Board Oversight

The Board's key duties include strategic, compliance, and governance oversight, as well as CEO succession planning. In each of these areas, the Board determined that a combined role of Chairman & CEO, with the presence of a strong Independent Lead Director, is the optimal Board leadership structure for GM at this time. Further, our Board's key Committees—Audit, Executive Compensation, and Governance—are entirely composed of independent directors. The Board believes this structure, together with our other corporate governance practices, allows strong independent oversight of management while providing clear strategic alignment at the Board level and throughout the Company.

Long-Term Strategic Vision

Ms. Barra and her leadership team developed a clear strategic vision to lead the Company into a new era of mobility, positioning GM to grow in this period of rapid change and disruption. As Chairman & CEO, Ms. Barra is able to focus the Board's oversight of management's execution of this strategy in an efficient and streamlined manner and bring pressing issues before the independent directors expeditiously.

Compliance

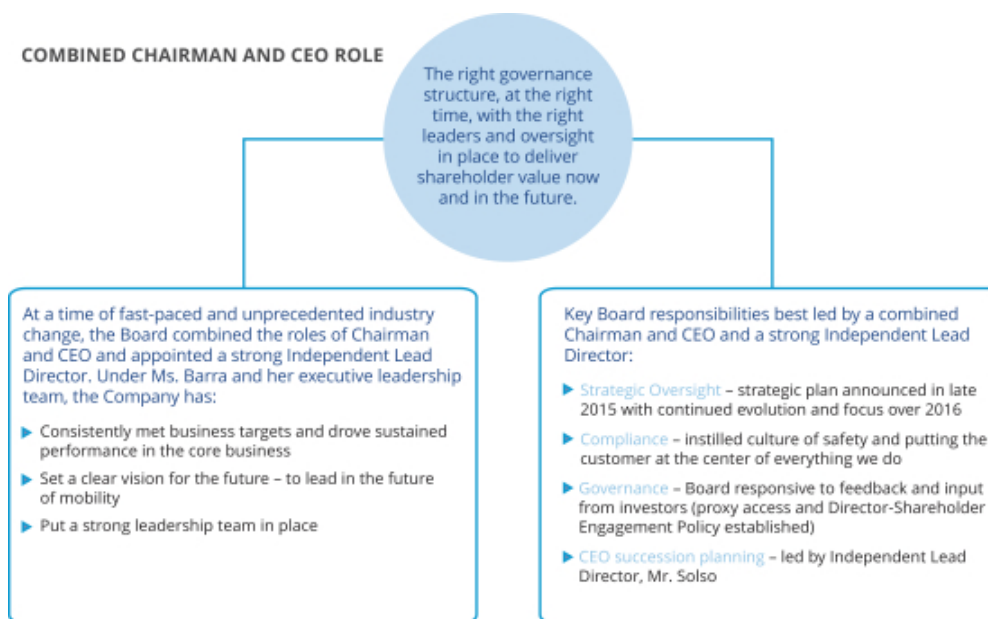

Ms. Barra has been a key leader as the Company has reset its culture of safety and its relentless focus on placing the customer at the center of everything we do. As Chairman, she is able to facilitate the Board's continued strong oversight of compliance and enterprise risk management programs.

Governance

Our independent directors possess the objective and analytical approach to governance that is expected of best-in-class boards. In addition, our Independent Lead Director, Mr. Solso, is a proven leader with an objective viewpoint and deep industry knowledge. When the Board appointed Mr. Solso as Independent Lead Director, it also strengthened the responsibilities of the role to include additional duties, to further promote independent, objective oversight. The duties of our Independent Lead Director are set forth below.

Succession Planning

CEO succession planning is conducted annually by the full Board and led by the Independent Lead Director. This fundamental Board process will remain under the independent Board leadership of Mr. Solso.

Strong Independent Lead Director

If a GM executive holds the position of Chairman, our independent directors, by the affirmative vote of a majority of all independent directors, designate one of our independent Board members to serve as Independent Lead Director. For 2017, the Board has appointed Mr. Solso as Independent Lead Director for the second consecutive year. The duties and responsibilities of our Independent Lead Director, Mr. Solso, include the following:

- u Presiding over all Board meetings when the Chairman is not present, including executive sessions of non-management directors, and advising the Chairman of any actions taken;
- u Providing Board leadership if circumstances arise in which the role of the Chairman is potentially, or perceived to be, in conflict, or if potential conflicts of interest arise for any director;
- u Calling executive sessions for non-management and independent directors, relaying feedback from these sessions to the Chairman, and implementing decisions made by the independent directors;
- u Leading non-management directors in the annual evaluation of the CEO's performance, communicating it to the CEO, and overseeing the process for CEO succession;
- u Advising on the scope, quality, quantity, and timeliness of the flow of information between management and the Board and approving Board meeting agendas recommended by the Chairman;
- u Confirming that Board meeting schedules allow enough time to discuss all agenda items;
- u Serving as a liaison between non-management directors and the Chairman when requested to do so by non-management directors (although all non-management directors have direct and complete access to the Chairman at any time that they deem necessary or appropriate);
- u Interviewing, along with the Chair of the Governance Committee, all Board candidates, and making recommendations to the Governance Committee and the Board;
- u Being available to advise the Chairs of the Committees of the Board in fulfilling their designated roles and responsibilities to the Board; and
- u Being available, if requested by major shareholders, for consultation and communication in accordance with the Board's Director-Shareholder Engagement Policy.

Executive Sessions

Our non-management directors have an opportunity to meet in executive session without management present as part of each regularly scheduled Board meeting. Executive sessions are chaired by the Independent Lead Director, Mr. Solso.

During executive sessions, non-management directors (or independent directors, as appropriate) review CEO performance, compensation, and succession planning; future Board agendas and flow of information to directors; corporate governance matters; any other matters of importance to the Company raised during a meeting or otherwise; and other issues presented by non-management directors.

The non-management directors of the Board met in executive session five times in 2016, including one time with only independent directors present.

Board Committees

Our Board of Directors has six standing Committees: Audit, Executive Compensation, Finance, Governance, Risk, and Executive. The Independent Lead Director, Mr. Solso, attends all meetings of the standing Committees of which he is not a member and serves as a resource for the Committees as needed.

Each member of the Audit, Compensation, and Governance Committees has been determined by the Board to be independent according to NYSE Corporate Governance listing standards. The following outlines the key responsibilities and 2016 activities of each standing Committee. Each Committee has a charter governing its activities. Committee Charters are available on our website at gm.com/investors, under "Corporate Governance."

The Executive Committee is chaired by Ms. Barra and empowered to act for the full Board in intervals between Board meetings, with the exception of certain matters that the Board has not delegated. The Executive Committee meets as necessary, and all actions by the Executive Committee are reported and ratified at the next succeeding Board meeting. The Executive Committee did not meet in 2016.

Access to Outside Advisors

The Board and each Board Committee can select and retain the services of outside advisors at the Company's expense.

Board and Committee Meetings and Attendance

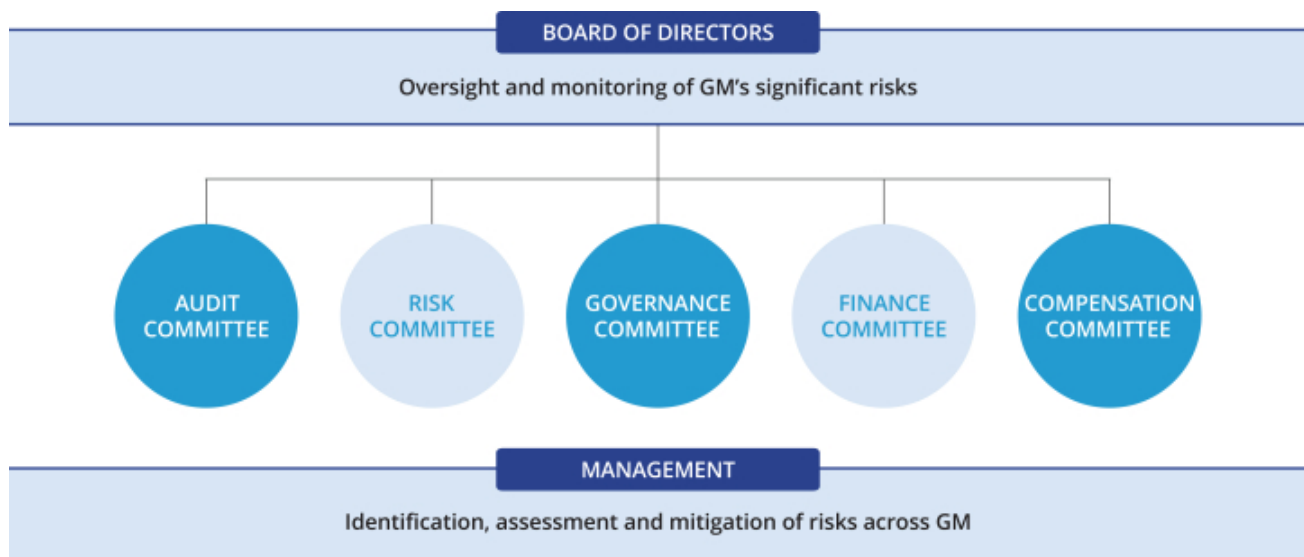

In 2016, our Board held a total of 8 meetings and the Committees held a total of 29 meetings. Each director standing for re-election attended at least 94% of the total meetings of the Board and Committees on which he or she served in 2016. Directors are expected to attend our annual meeting of shareholders, which is held in conjunction with a regularly scheduled Board meeting. All directors in office at such time attended the 2016 Annual Meeting.

Board and Committee Oversight of Risk

Our Board has the overall responsibility for risk oversight, with a focus on the most significant risks facing the Company. Effective risk management is the responsibility of the CEO and other members of the Company's management, specifically the Executive Leadership Team. As part of the risk management process, each of the Company's business units and functions is responsible for identifying risks that could affect achievement of business goals and strategies, assessing the likelihood and potential impact of significant risks, and prioritizing the risks and actions to be taken to mitigate such risks, as appropriate.

Our Board implements its risk oversight function both as a whole and through delegation to Board Committees, particularly the Risk Committee. The Board receives regular reports from our management on particular risks within the Company, through review of the Company's strategic plan, and through regular communication with its Committees. Management provides comprehensive reports to the Risk Committee on the key strategic, operating, vehicle and workplace safety, financial, and compliance risks facing the Company, including management's response to managing and mitigating such risks, as appropriate. The Company's Chief Compliance Officer also regularly reports to the Audit Committee.

The Chair of the Risk Committee coordinates with the Chairs of other Board Committees in their review of the Company risks that have been delegated to these Committees to support them in coordinating the relationship between risk management policies and practices and their respective oversight accountabilities. Each of the other Board Committees, which meet regularly and report back to the Board, is responsible for oversight of risk management practices for categories of risks relevant to its functions.

Our Board believes that its structure for risk oversight provides for open communication between management and the Board and its Committees, which effectively supports management's enterprise risk management programs. In addition, strong independent directors chair the Committees involved in risk oversight, and all directors are involved in the risk assessment and ongoing risk reviews.

Succession Planning and Leadership Development

One of our Board's primary responsibilities is to oversee the development of the appropriate management talent to successfully pursue our strategies. Management succession is regularly discussed by the directors with the CEO and during the Board's executive sessions. The Board reviews candidates for all senior management positions to confirm that qualified candidates are available for all positions and that development plans are being utilized to strengthen the skills and qualifications of candidates. Our Independent Lead Director oversees the process for CEO succession and leads, at least annually, the Board's discussion of CEO

succession planning. Our CEO provides the Board with recommendations for and evaluations of potential CEO successors and reviews with the Board development plans for these successors. Directors engage with potential CEO and senior management talent at Board and Committee meetings and in less formal settings to enable directors to personally assess candidates. The Board reviews management succession in the ordinary course of business as well as contingency planning in the event of an emergency or unanticipated event.

Board and Committee Evaluations

The Board and each Committee conducts an annual self-evaluation to assess effectiveness and consider opportunities for improvement. As part of the evaluation process, each director completes a written questionnaire and is also interviewed by the Chairman and, if requested or needed, the Independent Lead Director. The results of the written questionnaires are compiled anonymously by the Corporate Secretary in the form of summaries for the full Board and each Committee. The feedback received from the questionnaires and interviews is reviewed and discussed by the Governance Committee (as it relates to both the Board and all Committees) and each other Committee (as it relates to such Committee). Following review and discussion by the Committees, the Chairman and Chair of the Governance Committee summarize the results of the evaluations and report to the full Board for discussion and any action items. In addition, the Chairman and, if applicable, the Independent Lead Director, provides feedback from the individual director interviews to the full Board.

Matters considered in evaluations include the following:

- u The effectiveness of the Board's leadership structure and the Board Committee structure;
- u Board and Committee skills, composition, diversity, and Board succession planning;
- u Board and Committee culture and dynamics, including the effectiveness of discussion and debate at Board and Committee meetings;
- u The quality of Board and Committee agendas and the appropriate Board and Committee priorities;
- u Dynamics between the Board and management, including the quality of management presentations and information provided to the Board and Committees; and
- u The contributions and performance of individual directors, including the Chairman, Independent Lead Director, and Committee Chairs.

Annual Evaluation of CEO

The CEO reports annually to the Board regarding achievement of previously established goals and objectives. The non-management directors, meeting separately in executive session, annually conduct a formal evaluation of the CEO, which is communicated to the CEO by the Independent Lead Director. The evaluation is based on both objective and subjective criteria, including, but not limited to: the Company's financial performance, accomplishment

of ongoing initiatives in furtherance of the Company's long-term strategic objectives, and development of the Company's top management team. The results of the evaluation are considered by the Compensation Committee in its deliberations when determining the compensation of the CEO, as further described in the "Compensation Discussion and Analysis" section in this Proxy Statement.

Director Orientation and Continuing Education

All new directors participate in the Company's director orientation program, which generally commences promptly after the meeting at which a new director is elected. The Governance Committee oversees this orientation program to familiarize new directors, through a review of background material, meetings with senior management and plant and facility tours. The orientation allows new directors to become familiar with the Company's business and strategic plans; significant financial matters; core values, including ethics, compliance programs and corporate governance practices; and other key policies and practices, including, but not limited to, sustainability, vehicle and workplace safety, public policy and governance relations, risk management, and investor relations. The orientation also includes tours of GM plant(s), the Design Studio at the Warren Technical Center, dealer visits and/or auto show events.

The aforementioned orientation program and GM's ongoing education program(s) are set forth in a policy, adopted by

the Board upon recommendation of the Governance Committee, to build upon current practices and expectations set forth in the Board's Corporate Governance Guidelines regarding the orientation process for newly appointed directors and ongoing director education. After initial orientation programs are completed, the objective of the policy is to keep directors updated with information about the Company and its operations, corporate governance, and other matters relevant to board service. Board members are encouraged to visit GM facilities, dealers, auto shows, and other key corporate and industry events to enhance their understanding of the Company and its competitors in the auto industry. In addition, all directors are encouraged to attend, at our expense, director continuing education programs sponsored by governance organizations and other institutions. Consistent with prior practices, the Governance Committee annually reviews each director's orientation and external education activities.

Director Service on Other Public Company Boards

The Board recognizes that service on other public company boards provides valuable governance and leadership experience that benefits the Company. The Board also believes, however, that it is critical that directors dedicate sufficient time to their service on the Company's Board. Directors are expected to advise the Chairman of the Board, Independent Lead Director, or Chair of the Governance Committee in advance of accepting an invitation to serve on another board of directors or any audit committee of another public company board. This provides an opportunity to assess the impact of joining another board, based on various factors relevant to the specific situation, including the nature and extent of a director's other professional obligations and the time commitment attendant to the new position. Directors who are engaged in active, full-time employment, for example, would have

less time to devote to Board service than a director whose principal occupation is serving on boards. Our Corporate Governance Guidelines provide that, without obtaining the approval of the Board:

- A director may not serve on the boards of more than four other public companies (excluding nonprofits and subsidiaries); and
- No member of the Audit Committee may serve on more than two other public company audit committees.

All directors are in compliance with this policy. In general, management may not serve on the board of more than one other public company or for-profit entity and must obtain the approval of the Governance Committee prior to accepting an invitation to serve on an outside board.

Compensation Committee Interlocks and Insider Participation

During 2016, and as of the date of this Proxy Statement, none of the members of the Compensation Committee was or is an officer or employee of the Company, and no executive officer of the Company served or serves on the compensation committee or board of any company that employed or employs any member of the Company's Compensation Committee or Board of Directors.

Shareholder Protections

Our Board is committed to governance structures and practices that increase shareholder value and protect important shareholder rights. Our Governance Committee regularly reviews these structures and practices, which include the following:

- u Supermajority of independent directors serving on the Board, with key committees (including Audit, Compensation, and Governance) composed entirely of independent directors;
- u Annual election of all directors;
- u One-share, one-vote standard;
- u Majority voting standard for the election of directors in uncontested elections, coupled with a director resignation policy;
- u Shareholder right to call for a special meeting;
- u Proxy access permitting a shareholder, or a group of up to 20 shareholders, owning at least 3% of the Company's outstanding voting shares continuously for at least three years, to nominate and include in the Company's proxy materials director nominees (two individuals or 20% of the Board, whichever is greater);
- u No poison pill;
- u Executive sessions without management present; and
- u Director-Shareholder Engagement Policy that contemplates proactive and productive engagement with shareholders.

Certain Relationships and Related Party Transactions

FIND MORE ONLINE

Our Related Party Transactions Policy is available on our website at gm.com/investors, under "Corporate Governance."

Our code of business conduct and ethics, "Winning with Integrity," requires all our employees and directors to avoid any activity that is in conflict with our business interests. In addition, our Board has adopted a written policy regarding the review and approval or ratification of "related party transactions." Under this Policy, directors and executive officers must report any potential related party transactions (including transactions involving immediate family members of director or executive officers) to the General Counsel or Corporate Secretary.

For purposes of our Policy, a related party transaction includes transactions in which our Company is a participant, the amount involved exceeds \$120,000, and a "related party" has or will have a direct or an indirect material interest. Related parties of our Company consist of directors (including nominees for election as directors), executive officers, shareholders beneficially owning more than 5% of the Company's voting securities ("Significant Shareholders"), and the immediate family members of these individuals.

When the Governance Committee is notified of a potential related party transaction it will determine whether the transaction does in fact constitute a related party transaction requiring compliance with this Policy and whether to approve a transaction.

u Factors Used in Assessing Related Party Transactions

- u Whether the terms of the related party transaction are fair to the Company and on the same basis as if the transaction had occurred on an arms-length basis;
- u Whether there are any compelling business reasons for the Company to enter into the related party transaction and the nature of alternative transactions, if any;
- u Whether the related party transaction would impair the independence of an otherwise independent director;
- u Whether the Company was notified about the related party transaction before its commencement, and if not, why preapproval was not sought and whether subsequent ratification would be detrimental to the Company; and
- u Whether the related party transaction would present an improper conflict of interest for any director or executive officer of the Company, taking into account the specific facts and circumstances of such transaction.

Any member of the Governance Committee who has a potential interest in any related party transaction will recuse himself or herself and abstain from voting on the approval or ratification of the related party transaction, but may participate in all or a portion of the Governance Committee's discussions of the related party transaction, if requested by the Chair of the Governance Committee. As required under SEC rules, we will disclose all related party transactions in our Proxy Statement.

The following is the only related party transaction that occurred over 2016.

The son of John Quattrone, Senior Vice President, Global Human Resources, is employed by the Company in a non-executive position and in 2016 received compensation of approximately \$137,000 and customary Company benefits. His total compensation is similar to the total compensation provided to other employees of the same level with similar responsibilities. The terms of his employment with GM were approved by the Governance Committee pursuant to the Company's Related Party Transactions Policy.

Public Policy Engagement

FIND MORE ONLINE

Our Political Contributions and Expenditures Policy and Voluntary Report on Political Contributions are available on our website at gm.com/investors, under "Corporate Governance".

Our Board has adopted a U.S. Corporate Political Contributions and Expenditures Policy ("Political Contributions Policy"). The Political Contributions Policy, together with other policies and procedures of the Company, guides GM's approach to political contributions. We participate in the political process to help shape public policy and address legislation that impacts GM, our industry, and our shareholders. GM has a history of supporting and will continue to support public policies that work to drive or are necessary to furthering the achievement of our long-term, sustainable growth. As specified in its Charter, the Governance Committee oversees this policy and annually reviews the Company's engagement in the public policy process. The Committee also annually reviews all corporate political contributions as well as GM Political Action Committee ("GM PAC") contributions and expenditures (which are funded entirely by voluntary employee contributions). The report includes information about contributions to political organizations known as "section 527 organizations;" corporate contributions to individual candidates for state and local office; and portions of dues or similar payments to trade associations and social welfare organizations, to the extent the dues or other payments equal or exceed \$50,000 and are attributable to political purposes. In addition, on our website at gm.com/investors, under "Corporate Governance" a link to the Federal Election Commission website is provided, which details employee contributions to the federal GM PAC and the GM PAC's contributions to candidates, party committees, and other PACs.

Shareholder Engagement

u Engagement History and Commitment

Our Board believes that fostering long-term and enterprise-wide relationships with our shareholders and maintaining their trust and goodwill is a core GM objective. In 2016, to demonstrate openness to investor feedback and input, our Board adopted a Director-Shareholder Engagement Policy, which contemplates both proactive engagement, in which shareholders are identified by the Board for selective engagement, and reactive engagement, with shareholders that seek to provide input to the Board and executive management on various matters. Following the 2016 Annual Meeting of Shareholders, members of the Board, including our Independent Lead Director and Compensation Committee Chair, met with 11 of our largest shareholders, representing approximately 25% of our outstanding common stock. These engagements routinely covered GM's strategic priorities; governance matters, such as Board leadership, succession planning and refreshment; executive compensation, including the link between corporate strategy and executive compensation; and corporate responsibility, environmental, social, and other current and emerging issues, so that the Board and management could understand and address the issues that are important to our shareholders. Additionally, during 2016, one or more members of management were involved in more than 50 in-person and telephonic meetings on these topics with investors representing more than 45% of shares outstanding.

u Outreach and Our 2016 Say-on-Pay Vote

During these engagements members of our Board and management discussed, among other things, GM's strategy and performance and the alignment of strategy and performance with executive compensation. The Compensation Committee evaluated feedback from these engagements and considered other factors used in assessing GM's executive compensation programs. Please see page 44 in this Proxy Statement for more information.

EXECUTIVE COMPENSATION

ii Shareholder Engagement Initiatives

We view shareholder engagement as an important and continuous cycle. Following the 2016 Annual Meeting of Shareholders, members of the Board, including our Independent Lead Director and Compensation Committee Chair, met with 11 of our largest shareholders, representing approximately 25% of our outstanding common stock. Additionally, during 2016, one or more members of management were involved in more than 50 in-person and telephonic meetings with investors representing more than 45% of shares outstanding. These discussions, say-on-pay voting results, and other factors are key drivers in assessing our compensation programs.

SHAREHOLDER SAY-ON-PAY

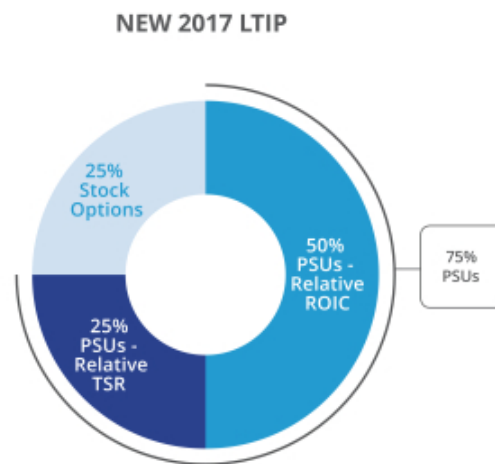

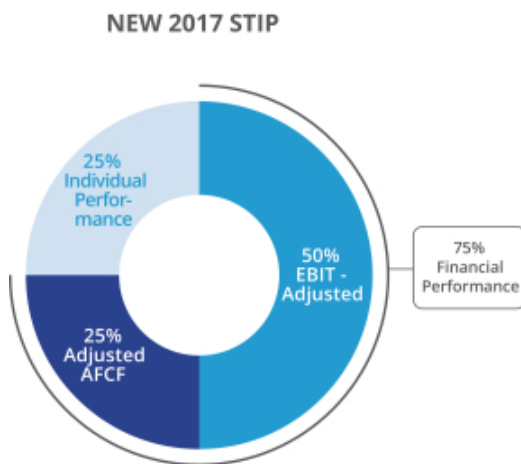

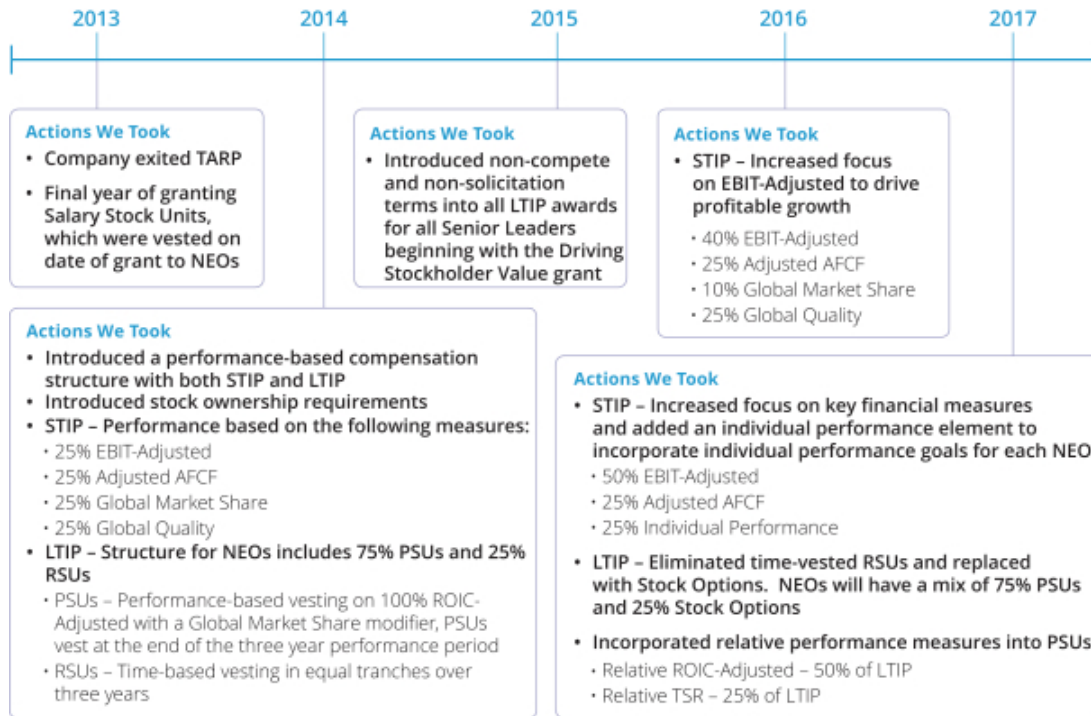

The Compensation Committee seeks to align the Company's executive compensation program with the interests of the Company's shareholders. The Compensation Committee considers the results of the annual Say-On-Pay vote, input from management, input from its independent compensation consultant, and investor engagement initiatives when setting compensation for our executives. In 2016, 61.7% of our shareholders voted in favor of our compensation programs. This support was lower than the previous three years where shareholders supported compensation programs, with over 96% voting in favor during 2013 (98.7%), 2014 (96.9%) and 2015 (97.8%). During 2016, we held several discussions with some of our largest shareholders, as described above. In the sections below you will read what we heard, how we responded, and how our compensation plans have been modified to better align with the interests of shareholders.

The Company values investor feedback and will continue investor engagement initiatives to align our executive compensation programs with shareholder expectations. While we generally received positive feedback from shareholders during our engagement efforts, we made changes to our compensation plans that were effective at the start of 2017 in order to further align the interests of our senior leaders with those of our shareholders.

What We Heard	How We Responded
Maintain pay for performance	We continue to pay for performance with 72% of our CEO's compensation structure and on average 67% of other NEOs compensation structure linked to performance against pre-established measures. We set challenging goals for 2016 and the Company responded with all-time record performance in several key areas including revenue, EBIT-adjusted, Adjusted ACF, and EPS-Diluted-Adjusted.
Align compensation to the interests of shareholders	Executives have the majority of their total compensation in the form of equity. Our STIP and PSUs both have metrics that create long-term shareholder value. Additionally in 2017, PSUs will feature both Relative ROIC-Adjusted and Relative TSR as performance measures for determining the amount of the award. Time-based RSUs previously provided to senior leaders have been replaced in 2017 with stock options to further align the interests of our senior leaders with those of our shareholders.
Limit one-time broad-based awards	We granted one-time DSV stock options in 2015 to introduce and secure non-compete and non-solicitation terms with all senior leaders in a highly competitive environment for automotive talent. Some investors expressed concerns with the DSV award but generally understood the need to secure these terms to retain talent. We did not grant any one-time, broad-based awards in 2016.
Look at performance relative to automotive industry peers	In 2017, our PSUs will measure both Relative ROIC-Adjusted and Relative TSR against the Company's OEM Peers to motivate our leaders to perform at the top of the industry regardless of business cycles.
Simplify compensation plans	We continue to evaluate both short-term and long-term compensation plans so that our executives' line of sight is aligned with creating shareholder value. In 2017, STIP will be simplified to focus senior leaders on financial performance and will include an individual performance assessment measured against operational performance measures.

ii Compensation Program Evolution

Our compensation programs have continued to align to shareholders by focusing our leaders on the key areas that both drive the business forward and align to the short-term and long-term interests of our shareholders. The Compensation Committee regularly reviews and discusses plan performance at each Compensation Committee meeting. The Compensation Committee considers many factors when electing to make plan changes for future incentive plans including forecasted results, market trends, and investor feedback. The table below shows how the compensation program has continued to evolve to align with shareholders.

EXECUTIVE COMPENSATION

The Company held engagements with investors and received feedback on changes to both the STIP and LTIP. The 2017 STIP continues a focus on important financial measures (75% of STIP) and individual performance (25% of STIP), the total payout will be 0% to 200% of target based on actual performance against pre-established goals. The Compensation Committee will determine individual performance using a rigorous assessment process measuring performance against pre-established operational and other measures. There will no longer be an additional individual performance modifier for the 2017 STIP.

The key change to the 2017 LTIP is to replace time-based RSUs with stock options as a way to further align our most senior leaders with our shareholders' interest in stock price appreciation. Additionally, the Company changed PSU performance measures from ROIC-Adjusted with a global market share modifier to Relative ROIC-Adjusted (50% of total LTIP) and Relative TSR (25% of total LTIP) against OEMs in the Dow Jones Automobiles and Parts Titans 30 Index, listed below.

Dow Jones Automobiles & Parts Titans 30 Index – OEM Peer Group

Toyota Motor Company	Volkswagen AG	Suzuki Motor Corp.
Daimler AG	Bayerische Motoren Werke AG	Fiat Chrysler Automobiles NV
Ford Motor Company	Nissan Motor Co. Ltd	Tesla, Inc.
Honda Motor Co. Ltd.	Renault SA	Mazda Motor Corp.
General Motors Co.(1)	Hyundai Motor Co.	Kia Motors Corp.

(1) General Motors performance will be determined on a continuous ranking for performance relative to OEM Peers following the completion of the performance period.

The percentile rank required for each performance level relative to OEM peers and associated payouts for PSUs are displayed below.

Focusing performance on key financial measures and individual operational performance measures in the short-term, combined with performance in both Relative ROIC-Adjusted and Relative TSR compared to our other OEM peers in the long-term, will provide direct alignment of our executive compensation with the interests of our shareholders and continue to focus our senior leaders on making the investments that will provide for profitable long-term growth.

Peer Group for Compensation Comparisons

The Compensation Committee annually reviews the peer group for compensation comparisons and makes updates as needed to align with both the established criteria and Company strategy. We do not limit our peer group to our industry alone, because we believe compensation practices for NEOs at other large U.S.-based multinationals affect our ability to attract and retain diverse talent around the globe.

In 2016, we maintained the same compensation peer group from 2015. Based on the guidelines established by the Compensation Committee for our peer group selection, companies must satisfy each of the following criteria to be considered for the peer group:

- Revenue greater than \$25 billion
- Significant international revenue
- Capital intensive operations

Additionally, the Compensation Committee considers the following factors when selecting our peer group:

- Companies with comparable R&D expenditures as a percent of revenue
- Durable goods manufacturer
- Business/production complexity
- Consumers are the end-user
- Strong brand reputation

ii How We Use Comparator Data to Assess Compensation

We use executive compensation surveys comprised of a broad array of industrial companies to benchmark relevant market data for executive positions. In addition, we benchmark proxy statement disclosures of our peer group and adjust this data to reflect GM's size and market expected compensation trends. Further, we review the competitive market position of each of our executives compared with the market data.

We review each element of compensation compared to the market and generally target our total direct compensation (Base Salary, STIP, and LTIP) for the executive group on average to be at or near the market median. However, an individual element or an individual's total direct compensation may be positioned above or below the market median because of his or her specific responsibilities, experience, and performance.

EXECUTIVE COMPENSATION

ii How We Plan Compensation

iii Performance-Based Compensation Structure

Our NEOs are focused on optimizing long-term financial returns for our shareholders through increasing profitability, increasing margins, putting the customer at the center of everything we do, growing the business, and driving innovation.

The performance-based structure for 2016 incorporates both short-term and long-term incentives established from financial and operational metrics for fiscal year 2016 and beyond. In addition to base salary and an annual STIP award, this structure, shown graphically below, includes a LTIP award made up of both PSUs and RSUs to focus our executives on long-term Company performance. The Compensation Committee believes a majority of compensation should be in the form of equity to align the interests of executives with those of shareholders.

CEO 2016 COMPENSATION STRUCTURE

AVERAGE NEO 2016 COMPENSATION STRUCTURE

Compensation Principles

The compensation provided to our senior leaders is guided by the following principles:

- **Aligned with Shareholders** – Compensation paid should align directly with the long-term interests of our shareholders, and our executives should share with them in the performance and value of common stock;
- **Performance-Based** – Compensation paid should be based on a balance of financial and operational goals reflecting strong financial performance relative to our OEM competitors. The goals should be aggressive but achievable, within our executives' control and should reward commitments met;
- **Recognize Individual Performance** – Compensation paid should motivate executives to perform at their best, reflecting their clear line of sight and contributions as well as their behaviors and demonstration of GM's core values. Individual performance must be aligned with Company performance and desired behaviors;
- **Simple Design** – Our compensation plan should be easy to understand and communicate and minimize unintended consequences;
- **Avoidance of Incentive to Take Excessive Risk** – Compensation structure should avoid incentives to take unnecessary and excessive risk. Compensation should be paid over a period of time that takes into account the potential risk over the same time period;
- **Appropriate Allocation of Compensation Components** – The structure should appropriately allocate total compensation to fixed and variable pay elements resulting in an appropriate mix of short-term and long-term pay elements; and
- **Comparable Target Compensation** – Overall target compensation should be competitive (market median) with that paid to individuals at peer group companies so that it attracts, motivates, and retains talent.

Compensation Elements

u 2016 Compensation Structure

Each NEO's 2016 compensation structure included the following pay elements:

- **Base Salary** – NEOs are paid a market-competitive base salary that reflects each NEO's contribution, background, performance as well as the knowledge and skills he or she brings to the role;
- **STIP** – The STIP is an annual cash incentive plan. The STIP rewards each NEO based on the achievement of annual Company financial and operational performance goals and individual performance. The potential Company payout ranges from 0% to 200% of target, based on actual Company performance;
- **PSUs** – PSUs are equity awards designed to align each NEO's interests with the long-term interests of the Company and its shareholders. PSUs can be earned at a level from 0% to 200% of target, based on the actual Company performance against ROIC-Adjusted and Global Market Share targets over the three-year performance period beginning January 1, 2016; and
- **RSUs** – RSUs are time-based equity awards vesting ratably over a three-year period. RSUs align the interests of NEOs with shareholders and help to retain top talent.

u Perquisites, Benefits, and Other Compensation

We provide perquisites, benefits, and other compensation to our NEOs consistent with market practices. The following perquisites, benefits, and other compensation were provided to NEOs in 2016:

- **Personal Air Travel** – Ms. Barra is prohibited by Company policy from commercial air travel due to security reasons identified by an independent third-party security consultant. As a result, the Company pays the costs associated with the use of private aircraft for both business and personal use. Ms. Barra is permitted to be accompanied by guests for personal travel and incurs imputed income for all passengers, including herself, at the U.S. Internal Revenue Service (the "IRS") Standard Industry Fair Level rates. Other NEOs may travel on private aircraft in certain circumstances with prior approval from the CEO or the Senior Vice President Global Human Resources, and also incur imputed income for any personal travel.
- **Company Vehicle Programs** – NEOs are eligible to participate in the Executive Company Vehicle Program and are allowed to use evaluation vehicles for the purpose of providing feedback on Company products. Additionally, NEOs are eligible to use driver services provided by the Company and in accordance with Company policies.
- **Security** – NEOs may receive security services, including home security systems and monitoring, for specific security-related reasons identified by independent third-party security consultants.
- **Financial Counseling** – NEOs are eligible to receive financial counseling, estate planning, and tax preparation services through approved providers.
- **Executive Physicals** – NEOs are eligible to receive executive physicals with approved providers.

Performance Measures

u How We Set Performance Targets

Annually, the Compensation Committee approves the performance measures for the STIP and LTIP. The Compensation Committee reviews recommendations from management, receives input from the Compensation Committee consultant, evaluates the annual budget and mid-term business plan, and reviews prior-year performance to approve value-creating goals tied to long-term shareholder value.

u 2016 STIP Performance Measures for NEOs

The STIP aligns with our plans to create the world's most valued automotive company and to increase shareholder value. The STIP rewards NEOs for performance linked to the Company's achievement of annual financial goals, operational performance goals, and individual performance. The STIP is an annual cash incentive award intended to be deductible as performance-based compensation under U.S. Internal Revenue Code ("IRC") Section 162(m) and is funded for each covered NEO once the Company achieves the threshold of positive EBIT-Adjusted.

The Compensation Committee annually reviews and approves STIP goals to assess the difficulty in level of achievement and overall linkage to shareholders through the achievement of the business plan and strategic objectives. For the 2016 STIP, all targets were set at or above final 2015 performance. The Committee elected to adjust the weights to increase EBIT-Adjusted to 40% and decreased Global Market Share to 10% to continue to focus leaders on profitability over market share. Setting challenging but achievable targets motivates our leadership team to deliver results that will benefit shareholders for the long-term.

Actual STIP awards, if any, are determined following the completion of the plan year to reflect the achievement against the performance measures displayed below. Awards can be further adjusted following a final assessment of individual performance. The table below describes each STIP performance measure, its weighting, its target, and the behaviors each measure drives:

STIP Measure	Weight	Target	Leadership Behaviors
EBIT-Adjusted	40%	\$ 11.3	Focus on operating profit and driving strong profitability
Adjusted ACF (1)	25%	\$ 6.0	Focus on driving strong cash flow in the business
Global Market Share	10%	11.3%	Focus on continuing to grow in the global marketplace
Global Quality	25%	Various Metrics(2)	Focus on designing, engineering, and building the highest-quality products

(1) Adjusted ACF for incentive purposes excludes payments related to certain recall-related expenses attributable to events occurring in 2014.

(2) Global Quality is based on performance against the following measures: Loyalty (10% Weight), 12 Months-In-Service Warranty Frequency (15% Weight).

The potential payouts for each performance measure range from 0% to 200% of target, based on actual Company performance with the threshold performance level being 50% of each STIP measure. The STIP calculation and the STIP targets for the 2016 performance period for each NEO are as follows:

Name	Base Salary	Target as % of Salary	Target STIP
Mary T. Barra	\$2,000,000	200%	\$4,000,000
Charles K. Stevens, III	\$1,100,000	125%	\$1,375,000
Daniel Ammann	\$1,450,000	125%	\$1,812,500
Mark L. Reuss	\$1,200,000	125%	\$1,500,000
Alan Batey	\$ 950,000	125%	\$1,187,500

2016-2018 LTIP Performance Measures for NEOs

EXECUTIVE COMPENSATION

The 2016-2018 PSUs are awarded based on performance against the following Company measures: ROIC-Adjusted and Global Market Share over the three-year performance period. Our 20% ROIC-Adjusted target is an enduring one, based on our commitments to our shareholders and appropriate for the cyclical nature of our industry. The PSU performance measures were chosen to promote both efficient use of capital and long-term growth to create value for the shareholders. The following table shows the PSU performance measures and the leadership behaviors that each drives to make GM the world's most valued automotive company:

LTIP Measure	Weight	Target	Leadership Behaviors
ROIC-Adjusted (1)	100%	20%	Focus on making sound investments that follow the disciplined capital approach of driving 20% or higher returns in world-class vehicles and leading technology
Global Market Share (2)	Modifier	(3)	Focus on continuing to grow in the global marketplace

- (1) The three-year average ROIC-Adjusted target is 20% and performance shall be calculated using the GM average annual ROIC-Adjusted for calendar years 2016, 2017, and 2018, where ROIC-Adjusted is calculated as Total Company EBIT-Adjusted divided by Average Total Company Net Assets. EBIT-Adjusted is defined as earnings excluding interest income, interest expense, and income taxes as well as certain additional adjustments. A discussion of EBIT-Adjusted, supplemental detail of all adjustments, and a reconciliation of EBIT-Adjusted (on a consolidated basis) to net income attributable to shareholders is disclosed in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report on Form 10-K. In addition, a reconciliation of GM's automotive segments' EBIT-Adjusted and GM Financial's EBIT-Adjusted, in each case, to total net sales and revenue is disclosed in Note 23 to our consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016. Net Assets is determined based on the four-quarter average for the year, adding back average automotive debt and interest liabilities (except capital leases) and automotive net Pension and OPEB liabilities and excluding average automotive net income tax assets.
- (2) The three-year average Global Market Share target range performance shall be calculated using the GM average annual global market share for calendar years 2016, 2017, and 2018 as reported by GM Global Sales Reporting and reflected in the Annual Reports on Form 10-K.
- (3) The Performance Target for Global Market Share will be disclosed at the end of the three-year performance period, as future Global Market Share measures are not disclosed.

PSUs, if any, vest and are awarded and delivered following the completion of the three-year performance period, January 1, 2016 – December 31, 2018, and may be earned at a level between 0% and 200% of target based on actual Company results. Final PSU awards are calculated as follows:

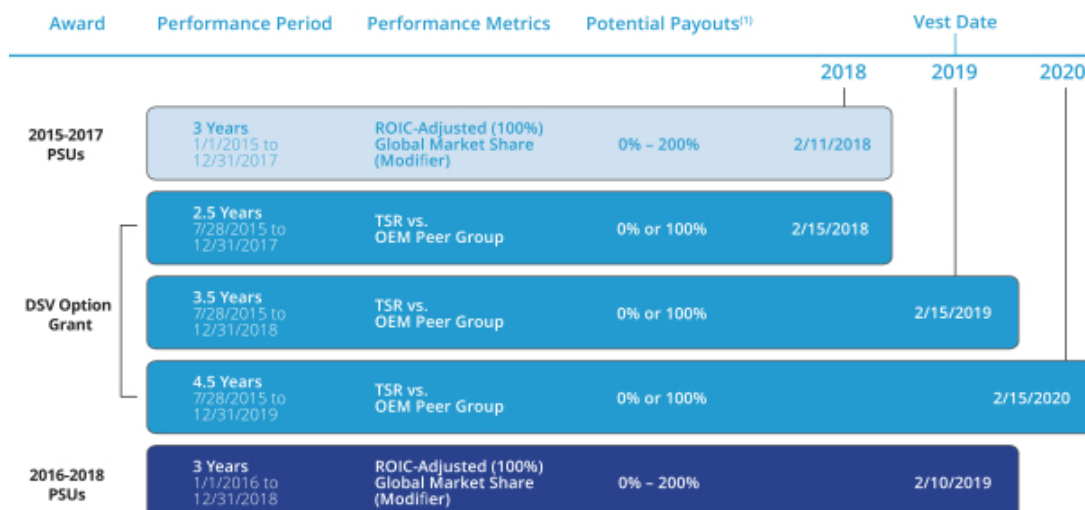

When determining grant amounts, the Compensation Committee considers individual responsibilities, experience, and performance. Additionally, the Compensation Committee will factor in relevant market compensation comparison data and seek the input from their independent compensation consultant. The NEOs received the following equity grants as part of their 2016 structure:

Name	Total Units Granted	Closing Price GM Stock on Grant Date (\$/share)	PSUs(1)		RSUs(2)	
			Units Granted	% of Total Units	Units Granted	% of Total Units
Mary T. Barra	469,146	27.71	351,859	75%	117,287	25%
Charles K. Stevens, III	124,504	27.71	93,378	75%	31,126	25%
Daniel Ammann	169,615	27.71	127,211	75%	42,404	25%
Mark L. Reuss	140,744	27.71	105,558	75%	35,186	25%
Alan Batey	97,439	27.71	73,079	75%	24,360	25%

(1) PSUs cliff-vest based on performance following the three-year performance period January 1, 2016 – December 31, 2018.

(2) RSUs vest ratably over a three-year period.

Summary of Outstanding Performance Awards Granted in Prior Years

(1) The performance of each award will be measured and determined at the end of the performance period.

Performance Results and Compensation Decisions

u 2016 Short-Term Incentive Plan

The Company portion of the 2016 STIP award was calculated based on the Company's achievement of the following performance measures: EBIT-Adjusted, Adjusted ACF, Global Market Share, and Global Quality. Actual 2016 Company performance in the combined measures produced an overall payout of 169% based on the achievement of the following levels for each measure, as approved by the Compensation Committee. Both the results for EBIT-Adjusted and Adjusted ACF were all-time record results for GM:

STIP Measure	Weight	Threshold	Target	Maximum	Performance Results	Performance Payout
EBIT – Adjusted (\$B)	40%	\$ 6.5	\$11.3	\$12.6	\$12.5	77%
Adjusted ACF (\$B)(1)	25%	\$ 0.0	\$ 6.0	\$ 7.0	\$ 7.6	50%
Global Market Share	10%	10.8%	11.3%	11.5%	10.8%	5%
Global Quality	25%	Various Metrics			(2)	37%
Result						169%

(1) Adjusted ACF for incentive purposes excludes payments related to certain recall-related expenses attributable to events occurring in 2014.

(2) Global Quality Measures for 2016 included: Loyalty (10% Weight – Payout 19%) and 12 Months-in-Service Warranty Frequency (15% Weight – Payout 18%).

Individual performance may also influence final STIP awards. The compensation decision made for each individual executive is discussed beginning on the next page.

u 2014-2016 Long-Term Incentive Plan

The 2014-2016 PSU awards vested on February 11, 2017 based on Company performance for the period January 1, 2014 – December 31, 2016 against pre-established performance targets for both ROIC-Adjusted and Global Market Share. The 2014-2016 PSU was the first performance award granted to NEOs under the performance based compensation program that was first introduced in 2014 following the Company exiting TARP in 2013. Actual performance produced an overall vesting of 195% of shares and the following performance was approved by the Compensation Committee:

LTIP Measure	Weight	Threshold	Target	Maximum	Performance Results	Performance Payout
ROIC-Adjusted	100%	16.0%	20.0%	24.0%	23.8%	195%
Global Market Share	Modifier		11.3% - 11.7%		11.3%(1)	N/A
Result						195%

(1) Excludes the impact of the Company's decision to exit unprofitable markets during 2015.

Focusing our leaders on ROIC-Adjusted has resulted in significant performance improvements since calendar year 2012 when ROIC-Adjusted was 16.0%. We ended calendar year 2016 with a ROIC-Adjusted of 28.9%, representing more than an 80% increase in our performance.

The Compensation Committee elected to provide an individual STIP adjustment for the 2016 performance year in the amount of \$400,000 as a result of his performance, which is included in the STIP awarded value. The total compensation for Mr. Batey in 2016, including salary, STIP and LTIP awards, is displayed below.

Compensation Policies and Governance Practices

u Stock Ownership Requirements

In June 2014, the Compensation Committee implemented stock ownership requirements to more closely align the interests of executives with those of our shareholders. The requirements:

- cover all senior leaders (approximately 300);
- set five years as the time frame to meet ownership requirements;
- establish a multiple of each executive's base salary on the date they are first covered;
- make it possible to meet ownership requirements by owning either a multiple of base salary or a required number of shares; and
- call for senior leaders to hold shares in order to meet the ongoing ownership requirements.

The table below shows the stock ownership requirement by level in the Company as well as ownership requirements for each of our NEOs.

Position	Ownership Requirement as a Multiple of Salary
• CEO	6x
• President • Executive Vice President	4x
• Senior Vice President	3x
• Senior Executive	1x

As of December 31, 2016, all NEOs have met or are on track to meet stock ownership requirements by their respective dates.

u Policy on Recoupment of Incentive Compensation

We have a corporate policy to recover incentive compensation paid to executive officers in cases where financial statements are restated because of employee fraud, negligence, or intentional misconduct. Under this clawback policy, which was last updated in late 2016 and is posted on our website, gm.com/investors, under "Corporate Governance," if our Board or an appropriate Board Committee determines any bonus, retention award, or short or long-term incentive compensation has been paid to any executive officer based on materially inaccurate misstatement of earnings, revenues, gains, or other criteria, including reputational harm, the Board or Compensation Committee will take the action it deems necessary to recover the compensation paid, remedy the misconduct, and prevent its recurrence. For this purpose, a financial statement or performance metric will be treated as materially inaccurate when an employee knowingly engaged in providing inaccurate information or knowingly failed to timely correct information relating to those financial statements or performance metrics. We will continue to review our policy to ensure it is consistent with all legal requirements and in the best interests of the Company and its shareholders.

u Securities Trading Policy

Our securities trading policy prohibits our employees from buying or selling GM securities when in possession of material nonpublic information. Any sale or purchase of common stock by directors, executive officers, and all other senior leaders must be made during pre-established periods after receiving preclearance by a member of the GM Legal Staff or according to pre-approved Rule 10b5-1 plan.

Trading in GM derivatives (*i.e.*, puts or calls), engaging in short sales, and pledging of GM securities is also prohibited. All GM executive officers are in compliance with the policy of not pledging any shares of common stock. This policy is posted on our website, gm.com/investors, under "Corporate Governance."

u Tax Considerations

IRC Section 162(m) generally disallows federal tax deductions for compensation in excess of \$1 million paid to the CEO and the next three of our highest-paid officers (other than the CFO) whose compensation is required to be reported in the Summary Compensation Table in this Proxy Statement ("Covered Executives"). Certain performance-based compensation is not subject to this deduction limitation. Generally, we strive to maximize the tax deductibility of compensation arrangements. The Compensation Committee, however, may award compensation that is not fully tax deductible if it deems it appropriate as compensation designed to attract and retain talented executives in the highly competitive market for talent.

STIP awards are paid based on the achievement of performance measures approved by shareholders in 2014 as part of the 2014 STIP. Because the STIP awards are intended to be deductible as performance-based compensation under 162(m), the

Compensation Committee set the maximum award for each Covered Executive at \$7.5 million. Incentive amounts equal to the maximum will be funded for each Covered Executive once a threshold level of positive EBIT-Adjusted has been achieved. The Compensation Committee then exercises negative discretion, as needed, to determine actual incentive awards based on other business and individual performance, as described in the "Short-Term Incentive Plan" section of the CD&A.

u Compensation Committee and Consultant Independence

Our Compensation Committee is composed entirely of independent directors as determined by the Board under NYSE standards and as defined for various regulatory purposes. Farient Advisors assisted the Compensation Committee in 2016. Farient Advisors is an independent compensation consulting firm that takes direction from and is solely responsible to the Compensation Committee. The Compensation Committee is also aided in its deliberations by in-house legal counsel.

Under its charter, the Compensation Committee has the authority to hire outside consultants and advisors at the Company's expense. The Compensation Committee retains the services of Farient Advisors for advice on issues related to the compensation of NEOs and other executive compensation-related matters. A representative of Farient Advisors attended all Compensation Committee meetings, either in person or via telephone, consulted with and advised the Compensation Committee members on executive compensation, including the structure and amounts of various pay elements, and developed executive benchmarking data for the Compensation Committee. Farient Advisors provided no services to the Company's management.

The Compensation Committee annually reviews the performance of the compensation consultant and considers the following factors when assessing consultant independence in accordance with NYSE standards:

- Services provided to GM management outside of the services provided to the Compensation Committee;
- Fees paid as a percentage of Farient Advisors' total revenue;
- Policies and procedures of Farient Advisors designed to prevent conflicts of interest;
- Any business or personal relationships between members of the Compensation Committee and Farient Advisors;
- Stock ownership by employees of Farient Advisors; and
- Any business or personal relationships between GM and Farient Advisors.

The Compensation Committee reviewed the performance and independence of Farient Advisors and determined that Farient Advisors was independent based on the standards above.

u Compensation Risk Assessment

During 2016, the Compensation Committee reviewed and discussed the impact of executive compensation programs on organizational risk. The Compensation Committee discussed plans and reviewed risk mitigation features in each of the plans to evaluate, with the assistance of our audit, legal and risk management organizations, the overall impact compensation programs have on organizational risk. The Compensation Committee determined compensation programs have sufficient risk mitigation features and do not encourage or reward employees for taking excessive or unnecessary risk. The mix of our short-term and long-term compensation programs appropriately reward employees while balancing risk through the delayed payment of long-term awards. As a result of the compensation risk review completed on September 12, 2016, the Compensation Committee determined the overall risk of compensation programs exposing the organization to unnecessary or excessive risks is low.

u Employment and Termination Agreements

The Company has no employment or termination agreements with any of our 2016 NEOs. All NEOs participate in the same Executive Severance Program available to other executive employees.

Compensation Committee Report

The Compensation Committee has reviewed and discussed with management the CD&A and, based on that review and discussion, has recommended to the Board of Directors that the CD&A be included in this Proxy Statement and incorporated by reference in the GM 2016 Annual Report on Form 10-K.

The maximum award for PSUs for the 2016–2018 performance periods is 200% of grant, the value at the time of grant was \$27.71 per share for the 2016-2018 PSU. The table below shows the maximum PSU grant value based on maximum performance.

Individual performance adjustments are based on performance against individual goals for each NEO determined by the Compensation Committee at the beginning of each year and results are discussed beginning on page 55.

(6) These amounts represent the actuarial change in the present value of the executive's accrued benefit for 2016 attributed to year-over-year variances in applicable discount rates, lump sum interest rates, mortality rates, and employer contributions to tax-qualified and non-tax qualified plans as described in the section titled "Pension Benefits" on page 66. The Company does not credit interest at above-market rates to any deferred accounts, and no interest amounts are included in these totals. Mr. Ammann is not eligible for defined benefit pension plans.

(7) Totals for amounts included as "All Other Compensation" are described in the table below.

Amounts for Mr. Ammann include the additional costs of security upgrades completed during 2016, as recommended by independent security consultants, due to Mr. Ammann's home purchase in 2015 following his permanent relocation to Detroit in 2014.

(3) Company vehicle programs includes the cost of providing cars and drivers and the estimated annual lease value of the Company vehicles, inclusive of fuel and insurance, driven by NEOs. We include the annual lease value because it is more reflective of the value of the company vehicle perquisite than the Company's incremental costs, which are generally significantly lower because the Company manufactures and ordinarily disposes of Company vehicles for a profit, resulting in minimal incremental costs, if any. Taxes related to imputed income are the responsibility of each participant.

(4) Costs associated with executive physicals for each executive with approved providers.

(5) Costs associated with financial counseling and estate planning services with approved providers.

(6) Occasionally unused tickets from sponsorship agreements are made available for personal use. The value represents the incremental costs associated with the personal use of tickets to GM-sponsored events.

u Grants of Plan-Based Awards

STIP awards for the 2016 performance year were made under the terms of the 2014 STIP, and all equity grants were made to each NEO under the terms of the 2014 LTIP. Each grant consisted of PSUs and RSUs for each NEO. PSUs, which vest and deliver at the end of the performance period, will be earned at a level between 0% and 200% of target. PSUs are

based on the achievement of performance conditions relating to ROIC-Adjusted and Global Market Share over a three-year performance period from January 1, 2016 to December 31, 2018. The RSUs will vest ratably over the three-year period.

All grant date fair values have been computed in accordance with FASB ASC Topic 718.

- For RSUs, grant date fair value is calculated based on the closing price of the common stock on the grant date.
- For PSUs, grant date fair value is calculated based on the closing price of the common stock on the grant date and the target number of PSUs.

u Pension Benefits

GM Salaried Retirement Plan

Eligibility and Vesting: The GM Salaried Retirement Plan (“SRP”) is a funded, tax-qualified retirement program that covers eligible employees hired prior to January 1, 2007. Employees who commenced service on or after January 1, 2007 are eligible to participate only in defined contribution plans. Employees are vested in the SRP after five years of qualifying service. The plan permitted employee contributions, which vested immediately, until December 31, 2006. All Defined Benefit accruals were frozen on September 30, 2012, with service continuing toward eligibility to retire.

Benefit Formula:

Service prior to January 1, 2001 – The plan provided benefits on both a contributory and noncontributory formula. The contributory formula factors the contributions of the executive and earnings for each fiscal year. The formulas were frozen effective December 31, 2006, and effective January 1, 2007, employees continued to participate in the SRP under a new formula that provided a pension accrual equal to 1.25% of the employee’s eligible earnings up to the IRS-prescribed limits for tax-qualified plans. The 1.25% accruals were frozen September 30, 2012.

Service from January 1, 2001 to December 31, 2006 – The plan provided benefits under a cash balance formula with pay credits based on age through December 31, 2006, when the formula was frozen, with balances continuing to earn interest credits thereafter.

Time and Form of Payment: The accumulated benefit an employee earns over his or her career with the Company is payable starting after retirement. Normal retirement age is defined as age 65. Employees who commenced service prior to 1988 may elect early retirement after 30 years of credited service or 85 points, based on combined age and service, or age 60 and 10 or more years of service, with certain age-reduction factors applied. The plan also provides Social Security supplements for those hired prior to 1988. For employees hired on and after January 1, 1988, and prior to December 31, 2000, Social Security supplements are not payable, and age-reduction factors are greater for retirements prior to age 60. The plan provides both a spousal joint and survivor annuity and contingent annuitant optional form of payment. The employee may elect either a monthly annuity for life or a 100% lump sum of all benefits payable.

Tax Code Limitations on Benefits: Section 415 of the IRC limits the benefits payable under the GM SRP. For 2016, the maximum single life annuity a NEO could have received under these limits was \$210,000 per year. This ceiling is actuarially adjusted in accordance with IRS rules to reflect employee contributions, actual forms of distribution, and actual retirement dates.

GM Executive Retirement Plan

Eligibility and Vesting: The GM Executive Retirement Plan ("DB ERP") is an unfunded and non-tax-qualified retirement program that covers eligible executives, including named executives, to provide retirement benefits above amounts available under our other pension programs.

Benefit Formula:

Service Prior to January 1, 2007 – The supplemental pension will equal the greater of (a) 2% of the average monthly base salary multiplied by all years of contributory service less the sum of all benefits payable under the GM Salaried Retirement plus the maximum Social Security Benefit as of January 2007 multiplied by all years of noncontributory service or (b) 1.5% of the average monthly base salary plus annual incentive plan compensation multiplied by all years of contributory service, up to a maximum of 35 years less the sum of all benefits payable under the GM SRP plus 100% of the maximum Social Security benefit as of January 2007. In both cases, the base salary and annual incentive plan payments are determined using the highest 60 months out of the last 120 months prior to retirement.

Service from January 1, 2007 to December 31, 2007 – The supplemental pension will equal 1.25% multiplied by their annual base salary and is applicable to amounts in excess of the IRS-prescribed limit applicable to tax-qualified plans.

Service from January 1, 2008 to September 30, 2012 – The supplemental pension will equal 1.25% multiplied by their annual base salary plus short-term incentive payments and is applicable to amounts in excess of the IRS-prescribed limit applicable to tax-qualified plans.

Time and form of payment: Normal retirement age under the plan is age 65; however, employees who commenced service prior to January 1, 2007, including NEOs, may retire at age 60 with 10 or more years of service without any reduction in benefits. Employees may also retire at age 55 with 10 or more years of service with benefits reduced using the same factors as are utilized for early retirement under the GM SRP. The GM DB ERP is payable as a five-year certain annuity, with payments starting upon the retirement of the executive and continuing for 60 months.

VML Pension Plan

Eligibility and Vesting: The Vauxhall Motors ("VML") Pension Plan is a funded defined benefit plan open to all GM United Kingdom employees prior to October 2012 when it closed to new entrants.

Benefit Formula:

Service Prior to May 31, 2009 – The VML Pension Plan gave an annual pension equal to 1/55th times pensionable service times Final Pensionable Pay. Pensionable Pay is defined as basic pay less the lower earnings limit.

Service from June 1, 2009 – An annual pension equal to 1/60th times pensionable service times Final Pensionable Pay. Increases in pensionable pay is limited to the rate of RPI inflation annually other than for one off increases due to promotions.

Time and form of payment: Normal retirement age under the plan is age 65. Deferred members can take their pension from age 55 subject to a reduction, using the plans early retirement factors.

(2) The present value of the SRP benefit amount shown takes into consideration the ability to elect a joint and survivor annuity form of payment. For SRP and DB ERP benefits, the present value represents the value of the benefit payable at age 60 (or immediately if over age 60). Benefits and present values reflect the provisions of the SRP and DB ERP as of December 31, 2016. Present values shown here are based on the mortality and discount rate assumptions used in the December 31, 2016, FASB ASC Section 718, "Compensation-Retirement Benefits" except where needed to meet proxy statement requirements. The discount rates used for calculations as of December 31, 2016 for the SRP are 4.2%; for the ERP are 3.63%; and for the VML Pension Plan are 2.75%.

(3) Mr. Ammann is eligible to participate only in defined contribution plans offered by the Company.

(4) Mr. Batey is a participant in the VML Pension Plan from his service in the United Kingdom.

u Nonqualified Deferred Compensation Plans

We maintain certain deferred compensation programs and arrangements for executives, including the NEOs.

DC ERP – Allows for the equalization of benefits for highly compensated salaried employees under the RSP when such employees' contribution and benefit levels exceed the maximum limitations on contributions and benefits imposed by Section 2004 of ERISA, as amended, and Section 401(a)(17) and 415 of the IRC, as amended. The DC ERP is maintained as an unfunded plan, and we bear all expenses for administration of the plan and payment of amounts to participants.

Aggregate account balances disclosed below include both vested and unvested contributions by GM. Contributions made prior to 2007 were vested immediately. Contributions made between January 1, 2007, and September 30, 2012, vest when the participant attains age 55 with 10 years of service. Contributions made on October 1, 2012, and later vest when the participant attains three years of service, regardless of age.

Salary Stock Units ("SSUs") – NEOs received a portion of their total annual compensation in the form of SSUs, which were granted each quarter while the Company was under TARP. SSUs were nonforfeitable and became deliverable quarterly in three equal installments at each of the first, second, and third anniversaries of the grant date. No SSUs have been granted since the Company exited TARP in 2013 and all final grants of SSUs were paid on December 31, 2016 reflecting a zero balance in the table below.

The table below reflects December 31, 2016 balances for the various nonqualified deferred compensation plans based on the closing price of common stock on December 30, 2016 (\$34.84), and any contributions, earnings, and withdrawals during the year.

(2) Earnings that may be included in the Aggregate Earnings in the Last Fiscal Year column are not reported in the Change in Pension Value and Non-qualified Deferred Compensation totals in the Summary Compensation Table, because we do not pay above-market earnings on deferred compensation.

(3) Payments of SSUs granted on various dates and at various share prices were made to each of the NEOs pursuant to TARP restrictions. All SSUs were paid out as of December 31, 2016.

(4) The following amounts have been included in the Summary Compensation Table in prior years: \$424,807 (Ms. Barra), \$203,585 (Mr. Stevens), \$172,309 (Mr. Ammann), and \$192,566 (Mr. Reuss).

u Potential Payments Upon Termination

The Company does not maintain individual employment agreements with any NEO that provide guaranteed payments in the event of a termination of employment or change in control. In the event that an NEO's position with the Company is eliminated, including the elimination of the NEO's position as a result of a change in control, the NEO would be eligible for severance pay under the GM Executive Severance Program.

The table below shows the potential payments to each NEO assuming a termination of employment on December 31, 2016, due to each of the following: voluntary separation or termination for cause; qualifying termination under the Executive Severance Program (as amended on February 1, 2016); full career status retirement; disability; death; and change in control with termination of employment. Each of the separation events is described in more detail below. These provisions are generally applicable to participants in each of the applicable plans, and they are not reserved only for NEOs. The payments below are in addition to the present value of the accumulated benefits from each NEOs qualified and nonqualified pension plans shown in the Pension Benefits table on page 68, and the aggregate balance due to each NEO that is shown in the Nonqualified Deferred Compensation table above.

For purposes of the following table, the Company describes these terminations and potential payments:

- **Voluntary Separation or Termination for Cause** – A voluntary separation occurs when an executive

voluntarily terminates employment with the Company. A termination for cause occurs when an executive is dismissed from employment by the Company for cause, which is considered to include, but is not limited to, the executive's gross negligence, willful misconduct, or violation of state or federal securities laws. Under each of these scenarios, executives generally forfeit all outstanding equity awards and are not eligible for any award or payment under the STIP. Full career status retirements receive different treatment, as discussed below.

- **Executive Severance Program** – A separation occurs when an executive's position is eliminated or the Company and an executive agree to mutually end the employment relationship. An executive will be eligible to receive severance pay from the Company calculated based on their position and reflected as a multiple of base salary, COBRA, as well as a STIP award at target. An executive will receive cash payments of the value of the equity awards that are scheduled to vest within the next year after separation at the time of vesting if the executive enters into a mutual separation agreement. All unvested stock options are usually forfeited. An executive is also eligible for outplacement assistance based on position.
- **Full Career Status Retirement** – A full career status retirement occurs when an executive reaches the age of 55 with 10 or more years of continuous service or age 62 or older and the executive voluntarily separates from the

EXECUTIVE COMPENSATION

Company. If an executive enters into a separation or severance agreement, they cannot also elect full career status retirement. In the event of full career status retirement, the executive is generally eligible for a prorated STIP award based on months of active service in the performance year as of their termination date and once final performance has been determined. RSUs granted within one year prior to the date of retirement are prorated based on months of active service prior to the date of retirement. RSUs granted more than one year prior to the date of retirement continue to vest in accordance with their vesting schedule. PSUs granted within one year prior to the date of retirement are prorated based on months of active service prior to the date of retirement and will be adjusted for final corporate performance against the performance measures contained in the awards; such awards will be payable following approval of such performance. PSUs granted more than one year prior to the date of retirement will remain outstanding until the end of the performance period, at which time they will be adjusted for final corporate performance and be settled following approval of such performance. Stock options granted within one year prior to the date of retirement are prorated based on months of active service prior to the date of retirement. Stock options granted more than one year prior to the date of retirement will continue to vest in accordance with their vesting schedule. As of December 31, 2016, only Ms. Barra and Mr. Stevens were eligible for full career status retirement.

- **Disability** – Disability occurs when an executive terminates employment by reason of their inability to engage in any gainful activity due to a medically determinable physical or mental impairment that can be expected to result in death or can be expected to last for a continuous period of not less than 12 months. Executives are eligible for a full-year STIP award related to the year in which termination occurs once final performance has been determined. Unvested RSUs and TARP RSUs continue to vest according to their vesting schedule. Unvested PSUs vest immediately upon such

termination and will remain outstanding until the end of the performance period, at which time they will be adjusted for final corporate performance and be settled following approval of such performance. Stock options will continue to vest in accordance with their vesting schedule.

- **Death** – Following the death of an executive, the beneficiary of the executive will be eligible to receive the target STIP award subject to adjustment for final corporate and individual performance following determination of the final award. RSUs immediately vest in full and are settled within 90 days of death. PSUs vest immediately upon death and will remain outstanding until the end of the performance period, at which time they will be adjusted for final corporate performance and be settled following approval of such performance. Stock options immediately vest upon death. TARP RSUs are prorated for months of active service and settled as soon as possible.
- **Change in Control (Double-Trigger)** – In the event of a termination of employment resulting from a change in control, an executive will be eligible for severance under the GM Executive Severance Program that provides a severance payment based on position and multiple of base salary and COBRA. Executives also receive a STIP award at target and the STIP award for the prior year, if such award has been determined, but not paid. If the STIP award for the prior year has not been determined, the award shall be determined at target and paid. All RSU awards will generally vest and become payable immediately prior to the change in control. For PSUs, the performance period will end immediately prior to the change in control and awards will be determined based on actual performance and converted to a time-based award. Stock options immediately vest and are exercisable upon termination as a result of a change in control. TARP RSU awards are not subject to change in control provisions, and unvested awards are, therefore forfeited upon a termination of employment following a change in control.

Amounts shown in the following table are calculated by assuming that the relevant employment termination event occurred on December 31, 2016.

(1) Cash amounts shown for Executive Severance Program and Change in Control with Termination are based on the Executive Severance Program filed with the SEC on Form 8-K on February 3, 2016. Payments are 2X Base for the CEO and 1.5X Base for all other NEOs. Under the Executive Severance Program, the CEO is eligible for a cash payment equal to 24 months of COBRA premiums, and the other NEOs, 18 months of COBRA premiums. There are no cash payments due upon Full Career Status Retirement, Disability, or Death.

(2) STIP values shown for Full Career Status Retirement, Disability, and Death are based on the actual full-year performance at the overall corporate achievement. STIP amounts shown for Executive Severance Program and Change in Control with Termination reflect target-level performance. Executives forfeit STIP awards for Voluntary Separation or Termination for Cause.

(3) LTIP amounts reflect the value of unvested RSU awards, PSU awards, and stock options that may vest upon termination. The value of the awards is based on GM's closing stock price on December 30, 2016, of \$34.84. For the Executive Severance Program, RSU awards and PSU awards are delivered in cash once vested; the value displayed reflects the value of awards that would be subject to payment based on awards outstanding as of December 31, 2016.

(4) Only Ms. Barra and Mr. Stevens were eligible for retirement as of December 31, 2016.

ITEM NO. 2 – APPROVAL OF, ON AN ADVISORY BASIS, NAMED EXECUTIVE OFFICER COMPENSATION

Executive compensation is an important matter for our shareholders. The Dodd-Frank Wall Street Reform and Consumer Protection Act requires that we provide you with the opportunity to vote to approve, on a nonbinding advisory basis, the compensation of our named executive officers, as disclosed in this Proxy Statement in accordance with the compensation disclosure rules of the SEC (sometimes referred to as “Say-on-Pay”).

The Compensation Committee has approved the compensation arrangements for our named executive officers described in our CD&A section beginning on page 41 and accompanying compensation tables beginning on page 62 in this Proxy Statement. We urge you to read the CD&A for a more complete understanding of our executive compensation plans, including our compensation philosophy and objectives and the 2016 compensation of named executive officers.

Vote Required

The affirmative vote of a majority of the shares of our common stock present or represented by proxy and entitled to vote at the Annual Meeting is required for approval of this proposal. If you own shares through a broker, bank, or other nominee, you must instruct your broker, bank, or other nominee on how to vote your shares to ensure that your shares will be represented and voted on this proposal.

We are asking shareholders to vote in favor of the following resolution:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables, and the related narrative discussion, is hereby APPROVED.

As an advisory vote, this proposal is nonbinding. Although the vote is nonbinding, the Board of Directors and the Compensation Committee value the opinions of our shareholders and will consider the outcome of the vote when making future compensation decisions for named executive officers.

The Board of Directors recommends a vote FOR the advisory proposal to approve named executive officer compensation.

ITEM NO. 3 – APPROVAL OF THE GENERAL MOTORS COMPANY 2017 SHORT-TERM INCENTIVE PLAN

The Board of Directors recommends shareholders vote FOR the approval of the 2017 Short-Term Incentive Plan (the “2017 STIP”), including the material terms that may be used for awards thereunder. The 2017 STIP is a cash-based plan, and upon approval, will replace the Company’s 2014 Short-Term Incentive Plan (the “2014 STIP”). The awards approved in January 2017 for performance during 2017 described in the CD&A were awarded under the 2014 STIP, and the Company intends to make awards under the 2017 STIP, if approved, starting in 2018. The terms of the 2017 STIP are similar to the terms of the 2014 STIP, which was approved by 95.6% of our shareholders.

The Company’s executive compensation program is designed so that a meaningful portion of each executive’s total compensation opportunity is placed at-risk through awards made under short-term and long-term incentive plans. The 2017 STIP will provide the Company with the ability to align the global executive team toward the achievement of Company performance objectives by basing annual cash incentive awards on the achievement of performance measures established by the Compensation Committee, which is comprised of independent directors. The final value of all performance awards will be based upon the achievement of specified financial, operational, and individual goals.

The 2017 STIP has been designed to permit the Compensation Committee to grant awards that are intended to meet the requirements of Section 162(m) of the IRC for qualified performance-based compensation so that the Compensation Committee has the ability to issue awards to our senior executives and preserve tax deductibility for the Company with respect to those awards. Section 162(m) requires shareholder approval of the material terms pursuant to which qualified performance-based compensation may be paid. Such material terms include:

- *Eligible Participants*: The class of individuals eligible to participate as described below in the section entitled “Eligible Participants,”;
- *Individual Limits*: The annual per-individual limit described below in the section entitled “Limitations of Individual Awards for Preserving Maximum Tax Deductibility Under 162(m)”;
- *Performance Measures*: The specific performance measures listed below under the section entitled “162(m) Performance Measures.”

The following summary is qualified in its entirety by reference to the complete text of the 2017 STIP, which is attached as Appendix A to this Proxy Statement.

Key Provisions	Description
Eligible Participants	Employees of the Company and its subsidiaries who are designated by the Compensation Committee to participate in the 2017 STIP, including employees who are subject to the limitations of Section 162(m) of the IRC, which generally include our CEO and the three other most-highly compensated executive officers (other than our CFO), referred to as “Covered Employees.”
Plan Administration	The 2017 STIP is administered by the Compensation Committee, which has the authority to: designate the eligible individuals who will receive awards; determine the target amounts and terms and conditions of awards; determine amounts payable that may be deferred; interpret and administer the 2017 STIP; establish, amend, suspend, or waive any rules and regulations under the 2017 STIP; and make any other determinations or take any other actions to administer the 2017 STIP. Subject to any limits established by the Compensation Committee, the Compensation Committee may delegate to one or more members of the Compensation Committee or officers of the Company (including the CEO) the authority to establish awards and take other actions under the 2017 STIP, provided that officers of the Company may not be delegated authority with respect to awards for Covered Employees whose awards are intended to constitute qualified performance-based compensation for purposes of Section 162(m) of the IRC.
Target Awards	The Compensation Committee will establish the terms of awards under the 2017 STIP, including the applicable performance period, the participating employees, the target awards (including any minimum or maximum amounts), the applicable performance objectives and targeted achievement levels, and any other applicable terms and conditions.

Key Provisions	Description
Limitations of Individual Awards for Preserving Maximum Tax Deductibility Under 162(m)	<p>In any given calendar year, no award to a Covered Employee that is intended to constitute qualified performance-based compensation for purposes of preserving maximum tax deductibility under Section 162(m) of the IRC may pay out at more than \$15 million under the 2017 STIP.</p>
162(m) Performance Measures	<p>For any award to a Covered Employee, during the beginning of the performance period, the Compensation Committee will establish and approve in writing one or more of the performance measures from the list described below, the targeted achievement levels for such performance measures, and an objective formula or methodology to determine the maximum amount payable under the award. After the end of the performance period, the Compensation Committee will certify in writing the extent to which the applicable performance measures have been satisfied and the amount payable with respect to the award. The Compensation Committee may then adjust such maximum amount downward as it deems appropriate, including to reflect any additional performance factors.</p> <p>The performance measures from which the Compensation Committee may choose for awards to Covered Employees intended to be qualified for purposes of Section 162(m) of the IRC, means any one or more of the following performance measures expressed on an absolute or adjusted basis, applied to either the Company as a whole or to a business unit, subsidiary, or business segment, and measured either on an absolute basis or relative to a pre-established target, to a previous period's results or to a designated comparison group, in each case, as specified by the Compensation Committee:</p> <p>Asset turnover, cash flow, contribution margin, cost objectives, cost reduction, earnings before interest and taxes (EBIT), earnings before interest, taxes, depreciation and amortization (EBITDA), earnings per share, economic value added, free cash flow, increase in customer base, inventory turnover, liquidity, market share, net income, net income margin, operating cash flow, operating profit, operating profit margin, pre-tax income, productivity, profit margin, quality (internal or external measures), return on assets, return on net assets, return on capital, return on invested capital, return on equity, revenue, revenue growth, stockholder value, stock price, total shareholder return, and/or warranty experience.</p>
Final Awards	<p>After the end of the performance period, the Compensation Committee will determine the final awards by applying the performance objectives and making any adjustments to such objectives (upward or downward) that the Compensation Committee deems appropriate, subject to the limitations applicable to Covered Employees to the extent such awards are intended to constitute qualified performance-based compensation under Section 162(m) of the IRC.</p>
Adjustments	<p>With respect to the applicable performance period, the Compensation Committee may generally make adjustments to the performance measures, target achievement levels (including any minimum or maximum achievement levels) and other applicable terms and conditions as the Compensation Committee deems appropriate and equitable. If the Compensation Committee determines that a change in the business, operations, corporate structure, or capital structure of the Company, or the manner in which it conducts its business, or other events or circumstances render the applicable performance measures unsuitable, the Compensation Committee may in its discretion modify such performance objectives or the related minimum acceptable level of achievement, in whole or part; provided, however, that in the case of an award intended to qualify under Section 162(m) of the IRC, such modifications shall be made only to the extent that they would not disqualify such award under Section 162(m) of the IRC.</p>
Payment of Awards	<p>Final awards will be paid in cash after the end of the performance period; however, the Company may permit or require the deferral of awards pursuant to a deferred compensation plan or arrangement.</p>
Effect of Termination of Service	<p>Except as the Compensation Committee may determine in any individual case, awards will be treated as set forth below upon a participant's termination of service prior to payment of the final award.</p> <ul style="list-style-type: none"> • Death or Disability: In the event of a participant's termination of employment due to death or disability, the final award will be determined and paid based on actual performance (without proration) after the end of the applicable performance period. • Full Career Status Termination: In the event of a participant's voluntary termination of employment (i) at the age of 55 or older with 10 or more years of continuous service or (ii) at the age of 62 or older, the final award will be determined and paid based on actual performance on a prorated basis after the end of the applicable performance period. • Termination Pursuant to Approved Separation Agreement or Program: In the event of a participant's termination of employment pursuant to an approved separation agreement or program, the participant will have no right to any portion of an award. • Other Terminations: Any unpaid portion of any award will be forfeited.

Plan Term	<p>The 2017 STIP is effective as of [], 2017 subject to shareholder approval, and no new awards will be issued under the 2017 STIP after [], 2022.</p>

u New Plan Benefits

All employees (approximately 225,000) are eligible to receive awards under the 2017 STIP; however, we expect that awards will be made to approximately 1,700 employees annually, including approximately 14 executive officers of the Company. Non-employee directors are not eligible to receive awards under the 2017 STIP. As of the date of this Proxy Statement, no awards have been granted under the 2017 STIP. Awards under the 2017 STIP, if approved, would be granted at the discretion of the Compensation Committee as described above under "Plan Administration". Therefore, benefits or amounts that will be received by or allocated to each named executive officer, all

current executive officers as a group, and all employees who are not executive officers as a group, as well as the benefits or amounts that would have been so received or allocated had the 2017 STIP been in effect in 2016, are not presently determinable. The 2017 STIP is being presented for shareholder approval in order to permit the Compensation Committee to make awards under the 2017 STIP that are intended to constitute qualified performance-based compensation under Section 162(m) of the IRC. If the 2017 STIP is not approved by shareholders, it will not be adopted.

Vote Required

The affirmative vote of a majority of the shares of our common stock present or represented by proxy and entitled to vote at the Annual Meeting is required for approval of this proposal. If you own shares through a broker, bank, or other nominee, you must instruct your broker, bank, or other nominee on how to vote your shares so that your shares will be represented and voted on this proposal.

The Board of Directors recommends a vote FOR the approval of the General Motors Company 2017 Short-Term Incentive Plan.

ITEM NO. 4 – APPROVAL OF THE GENERAL MOTORS COMPANY 2017 LONG-TERM INCENTIVE PLAN

The Board of Directors recommends shareholders vote FOR the approval of the 2017 Long-Term Incentive Plan (the “2017 LTIP”), which will allow for equity awards to support our overall performance-based compensation programs. Long-term, equity-based compensation is a critical component of our executive compensation structure that allows the Company to continue to attract, motivate, and retain the critical talent necessary to deliver long-term results to shareholders as our industry continues to evolve. The terms of the 2017 LTIP are similar to the terms of the 2014 LTIP, which was approved by 95.1% of our shareholders.

For the 2017 LTIP we are seeking approval of 42,000,000 shares of common stock, par value \$0.01 per share, to provide equity-based compensation as approved by the Compensation Committee, which is comprised of independent directors. In determining the number of shares requested, the Company took several factors under consideration, such as market trends, feedback from investors, the 2017 compensation

program described in the CD&A, the compensation levels we anticipate in the future, the types of awards that may be granted under the 2017 LTIP, and the potential dilution. As of February 28, 2017, the closing price of a share traded on the NYSE was \$36.84 per share.

Upon approval, the 2017 LTIP will apply to new awards granted after our Annual Meeting. The remaining shares available under the 2014 LTIP and 2016 Equity Incentive Plan will only be used to settle outstanding awards granted respectively under each plan prior to our 2017 Annual Meeting. No new awards will be granted under our existing plans upon approval of the 2017 LTIP. Overall, we expect the requested shares under the 2017 LTIP to be sufficient for a period of two years, with an anticipated annual burn rate of approximately 1.2%, and we plan to seek shareholder approval of equity plans on a more regular basis in the future to confirm shareholders continue to support the terms of our equity compensation programs.

u 2017 LTIP – Key Facts and Features

The 2017 LTIP will allow the Compensation Committee to continue to approve equity awards to support our overall performance-based compensation programs and align the long-term interests of our executives and shareholders. We are seeking shareholder approval to authorize 42,000,000 shares for issuance under the 2017 LTIP representing 2.8% of the outstanding shares of common stock as of February 28, 2017, which may be granted in the form of stock options, SARs, RSUs, restricted stock, performance awards, or other share-based awards. Under the 2017 LTIP, our annual burn rate is anticipated to be 1.2%. We intend to grant equity to approximately 1,700 employees representing less than 1% of our global workforce. The average concentration of equity awards to our NEOs from 2014-2016 has been approximately 10.6% which demonstrates that our equity granting practices are broad-based, and we expect this to continue under the 2017 LTIP.

The 2017 LTIP retains key features that protect shareholders' interests and aligns to our compensation principles and practices discussed in the CD&A:

- ü **Majority of Grants are Performance-Based** – Equity awards will continue to be primarily performance-based with a balanced mix of PSUs, stock options and/or RSUs.
- ü **Minimum Vesting Periods** – Generally, no stock options or SARs will vest prior to the first anniversary of the vesting commencement date, and restricted stock, RSUs or performance awards will vest over a period of not less than three years from the vesting commencement date.
- ü **Double-Trigger Change in Control** – Awards that are continued or converted into similar awards of the successor company will not accelerate vesting based solely on a change in control, and gross-ups are not provided to cover personal income taxes or excise taxes.
- ü **No Dividend Equivalent Payments on Unearned Awards** – Restricted stock, RSUs, performance awards, and other stock-based awards will only receive dividend equivalent payments once awards are earned and settled. Stock options and SARs are generally not eligible for dividend equivalents.
- ü **No “Evergreen” Provisions** – The plan does not allow for automatic increases in the number of shares available under the plan.
- ü **No Repricing of Stock Options or SARs** – The repricing of stock options or SARs, or any other action that has the effect of reducing the exercise price of stock options or SARs, including voluntary surrender and re-grant, or the exchange of underwater stock options or SARs for cash or any other security, is prohibited without shareholder approval (other than adjustments in connection with a corporate transaction or restructuring).
- ü **No Discounted Stock Options or SARs** – The plan prohibits granting stock options or SARs with an exercise price less than the fair market value of GM common stock on the date of grant.

ITEM NO. 4 – APPROVAL OF THE GENERAL MOTORS COMPANY 2017 LONG-TERM INCENTIVE PLAN

- ii **No Recycling of Shares** – Shares surrendered or withheld in payment for any grant, purchase, exercise price of an award or taxes related to an award and shares repurchased in the open market using stock option proceeds will not again become available for grant.
- ii **Clawback/Recoupment** – Any awards granted under the 2017 LTIP are subject to the Company’s clawback or recoupment policies.

u 2017 LTIP - Potential Equity Dilution and Historical Annual Share Usage

While equity-based awards are an important part of our performance-based compensation programs, we are mindful of our responsibility to our shareholders to exercise judgment in granting these awards. The table below provides a summary of the outstanding awards and shares available under all of the Company’s existing equity incentive plans as of December 31, 2016 and February 28, 2017.

	As of December 31, 2016	As of February 28, 2017

<i>Vested and Unexercised</i>	100,000	9,600,000
<i>Unvested</i>	25,400,000	15,300,000

Total Awards Outstanding under the Plans	55,100,000	54,200,000
Shares Available under the Plans	13,034,248	6,361,524(1)

(1) No new awards will be granted under our existing plans upon approval of the 2017 LTIP.

Shares Requested under the 2017 LTIP: 42,000,000
GM Common Stock Outstanding (as of February 28, 2017): 1,506,727,754

- **Overhang:** As of February 28, 2017, there were approximately 6.4 million shares authorized and available for issuance under the 2014 LTIP and the 2016 Equity Incentive Plan and 54.2 million shares subject to awards outstanding under such equity incentive plans, representing 4.0% of the outstanding common stock as of February 28, 2017 on a fully diluted basis (the “Overhang Percentage”). The 42,000,000 shares requested under the 2017 LTIP would increase the Overhang Percentage to approximately 6.8%. We believe this represents a reasonable amount of potential equity dilution that will allow us to continue granting equity awards, which is an important component of our executive compensation structure.
- **Share Usage:** The annual share usage under the Company’s equity incentive plans for the last three fiscal years is presented below. The features of these plans are discussed further in Note 21 to the Consolidated Financial Statements, “Stock Incentive Plans” in our 2016 Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

(3) Includes one-time DSV stock options granted to all senior leaders in exchange for non-compete and non-solicitation terms.

- **Stock Repurchase Program:** Our stock repurchase program has more than offset the dilution of our equity incentive programs. We have repurchased 184 million shares totaling \$6.2 billion since 2014 with a remaining \$8 billion in common stock the Board has authorized to be repurchased.

u 2017 LTIP – Section 162(m) of the IRC

The 2017 LTIP has been designed to permit the Compensation Committee to grant awards that are intended to meet the requirements of Section 162(m) of the IRC for qualified performance-based compensation so that the Compensation Committee has the ability to issue awards to our senior executives and preserve tax deductibility for the Company with respect to those awards. Section 162(m) requires shareholder approval of the material terms pursuant to which qualified performance-based compensation may be paid. Such material terms include:

- **Eligible Participants:** The class of individuals eligible to participate, as described below in the section entitled “Eligible Participants.”;
- **Individual Limits:** The annual per-individual limits described below in the section entitled “Limitations of Individual Awards for Preserving Maximum Tax Deductibility Under 162(m)”;
- **Performance Measures:** The specific performance measures listed below under the section entitled “162(m) Performance Measures.”

The following summary is qualified in its entirety by reference to the complete text of the 2017 LTIP, which is attached as Appendix B to this Proxy Statement.

u New Plan Benefits and Awards Subject to Approval of the 2017 LTIP

Under the Company’s compensation policies, a significant portion of the total compensation of the Company’s executive team will be linked to the achievement of objective performance criteria approved by the Compensation Committee and individual service to the Company. The dollar value and number of awards to be granted in the future to eligible participants under the 2017 LTIP are generally not currently determinable because the value and number of such awards are subject to the discretion of the Compensation Committee.

While future benefits under the 2017 LTIP are generally not determinable, in early 2017 the Compensation Committee approved the long-term incentive awards presented below. These awards are earned over the period from 2017-2019 (the “2017-2019 LTIP Awards”) and consist of PSUs, RSUs, and stock options. The PSUs and RSUs were granted on February 14, 2017 under the 2014 Long-Term Incentive Plan (the “2014 LTIP”), and the stock options are expected to be granted under the 2017 LTIP if shareholder approval of the 2017 LTIP is obtained. The stock option dollar values presented below will be converted to a number of stock options on their grant date which, if the 2017 LTIP is approved by shareholders, will be [], 2017.

Each 2017-2019 LTI Award consists of PSUs and stock options or PSUs and RSUs, depending on employee level. The stock options and RSUs will vest ratably on an annual basis over the period from 2017-2019, based on continued service (subject to the “termination of service” provisions of the 2017 LTIP or 2014 LTIP, as applicable). The PSUs will be earned at a level between 0 to 200% of target, based on the achievement of performance conditions relating to Relative ROIC-Adjusted and Relative TSR, with the maximum payout being 200% of target. PSUs that are earned will then vest based on continued service through the settlement date (subject to the “termination of service” provisions of the 2014 LTIP). Seventy-five percent (75%) of each participant’s 2017-2019 LTI Award is allocated to PSUs. Each unit has a value equal to one share of common stock. The earned PSUs, if any, will be settled in 2020 in shares of common stock.

(1) The dollar value shown for PSUs, RSUs and stock options is based on the target LTIP amount. The number of units shown for PSUs and RSUs is calculated based on the allocated target amount divided by the closing share price on the date of grant. PSUs and RSUs were granted on February 14, 2017 under the 2014 LTIP. The number of stock options subject to each award will be calculated based on the allocated target amount divided by the Black-Scholes option valuation using the closing share price on the date of grant. The grant date fair value of awards will be computed in accordance with FASB ASC Topic 718 and, for awards granted to named executive officers, displayed in the Summary Compensation Table of the 2018 Annual Proxy Statement.

(2) The number of stock options will be determined on the date of grant following shareholder approval of the 2017 LTIP.

The 2017 LTIP will become effective upon shareholder approval of the 2017 LTIP. All employees (approximately 225,000) and 10 non-employee directors are eligible to receive awards under the 2017 LTIP, as well as certain of the Company’s consultants and advisors (who have not yet been identified); however, we expect that awards will be made to approximately 1,700 employees. The terms of the 2017 LTIP permit the grant of awards to non-employee directors, however, such awards are not currently contemplated under the current terms of the non-employee director compensation program; we do have the flexibility to update the program as deemed appropriate.

We intend to file with the SEC a registration statement on Form S-8 covering the shares issuable under the 2017 LTIP.

u Federal Income Tax Consequences for Awards

Applicable disclosure rules require us to include a brief summary of the federal income tax consequences applicable to awards that may be granted under the 2017 LTIP:

Non-Qualified Stock Options: When an optionee exercises a stock option, the amount by which the fair market value of the stock underlying the stock option on the date of exercise exceeds the exercise price of the stock option is taxed as ordinary income to the optionee in the year of exercise and generally will be allowed as a deduction for federal income tax purposes to the Company in the same year. When an optionee disposes of shares acquired by the exercise of the stock option, any amount received in excess of the fair market value of the shares on the date of exercise will be treated as a long- or short-term capital gain to the optionee, depending upon the holding period of the shares. If the amount received is less than the market value of the shares on the date of exercise, the loss will be treated as a long- or short-term capital loss, depending upon the holding period of the shares.

Incentive Stock Options: When an optionee exercises an incentive stock option while employed by the Company or a subsidiary or within the three-month (one year for disability) period after termination of service, no ordinary income (other than alternative minimum tax) will be recognized by the optionee at that time. If the shares acquired upon exercise are not disposed of until more than two years after the stock option was granted and one year after the date of exercise, the excess of the sale proceeds over the aggregate option price of such shares will be treated as long-term capital gain to the optionee, and the Company will not be entitled to a tax deduction under such circumstances. However, if the shares are disposed of prior to such date (a “disqualifying disposition”), any portion of the proceeds representing the excess of the fair market value of such shares at the time of exercise over the aggregate option price (but generally not more than the amount of gain realized on the disposition) will generally be ordinary income to the optionee at the time of such disqualifying disposition and the Company generally will be entitled to a federal tax deduction equal to the amount of ordinary income so recognized by the optionee. If an incentive stock option is exercised more than three months (one year for disability) after termination of service, the tax consequences are the same as described above for non-qualified stock options.

Restricted Stock: A participant generally will not be taxed upon the grant of restricted stock, but rather will recognize ordinary income in an amount equal to the fair market value of the stock at the time the stock vests. The Company will be entitled to a deduction at the time when, and in the amount that, the participant recognizes ordinary income on account of such vesting. Any cash dividends paid on the restricted stock before vesting will be taxable to the participant as additional compensation (and not as dividend income). Under Section 83(b) of the IRC, a participant may elect to recognize ordinary income at the time the restricted stock is awarded in an amount equal to the fair market value of the restricted stock at that time, notwithstanding the fact that such restricted stock is unvested. If such an election is made, no additional taxable income will be recognized by such participant at the time the restricted stock vests. The Company generally will be entitled to a tax deduction at the time when, and to the extent that, ordinary income is recognized by the participant.

RSUs: In general, the grant of RSUs (including PSUs) will not result in income for the participant or in a tax deduction for the Company. Upon the settlement of such an award in cash or shares, the participant will recognize ordinary income equal to the aggregate value of the payment received, and the Company generally will be entitled to a tax deduction at the same time and in the same amount.

Other Awards: With respect to other awards granted under the 2017 LTIP, including other share-based award and cash incentive awards, generally when the participant receives payment with respect to an award, the amount of cash and/or the fair market value of any shares or other property received will be ordinary income to the participant, and the Company generally will be entitled to a tax deduction at the same time and in the same amount.

ITEM NO. 5 – RATIFICATION OF THE SELECTION OF DELOITTE & TOUCHE LLP AS THE COMPANY’S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2017

The Audit Committee is directly responsible for the appointment, compensation, retention, and oversight of the independent registered public accounting firm retained to audit the Company’s financial statements. To oversee continuing audit independence and objectivity, the Audit Committee periodically considers whether there should be a rotation of the independent registered public accounting firm. In accordance with the mandated rotation of the accounting firm’s lead engagement partner, the Audit Committee is also involved in the selection of the accounting firm’s lead engagement partner working with Deloitte & Touche LLP (“Deloitte”), with input from management.

The Audit Committee annually evaluates the performance of the independent auditor and reviewed the following performance factors in deciding whether to retain the independent auditor:

- The quality and candor of Deloitte’s communications with the Audit Committee and management;
- The effectiveness and efficiency of Deloitte’s audit services and the results from periodic management and Audit Committee performance assessments;
- Deloitte’s independence;
- Deloitte’s global capabilities, technical expertise, and knowledge of the Company’s global operations and industry;
- Available external data about quality and performance, including recent Public Company Accounting Oversight Board reports on Deloitte and its peer firms;
- The appropriateness of Deloitte’s fees; and
- Deloitte’s tenure as our independent auditor.

Following this evaluation, the Audit Committee has selected Deloitte as GM’s independent registered public accounting firm for 2017. The Audit Committee believes that the retention of Deloitte to serve as the Company’s independent registered public accounting firm for 2017 is in

the best interest of the Company and its shareholders. Deloitte and its predecessor companies have been GM’s or General Motors Corporation’s auditors since 1918. The Audit Committee considers Deloitte well qualified, with offices or affiliates in or near most locations in the U.S. and other countries where General Motors operates.

The Board of Directors has concurred in an advisory capacity with the Audit Committee’s selection of Deloitte, and the appointment of Deloitte will be submitted to the shareholders at the Annual Meeting for ratification. If the shareholders do not ratify the selection of Deloitte as the independent registered public accounting firm for the Company for 2017, the Audit Committee will reconsider whether to engage Deloitte, but may ultimately determine to engage that firm or another audit firm without resubmitting the matter to shareholders. Among the factors the Audit Committee may consider in making this determination are the difficulty and the expense of changing independent registered public accounting firms in the middle of a fiscal year. Even if the shareholders ratify the selection of Deloitte, the Audit Committee may in its sole discretion terminate the engagement of Deloitte and direct the appointment of another independent registered public accounting firm at any time during the year, although it has no current intention to do so. Representatives of Deloitte will attend the Annual Meeting and will have the opportunity to make any statement they wish. They will also be available to respond to appropriate questions.

The Board of Directors recommends a vote FOR the proposal to ratify the selection of Deloitte & Touche LLP as the independent registered public accounting firm for GM and its subsidiaries for 2017.

The following Audit Committee Report shall not be deemed incorporated by reference by any general statement incorporating by reference in this Proxy Statement or any portion hereof into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, and shall not otherwise be deemed filed thereunder.

Audit Committee Report

The Audit Committee (the "Committee") of the General Motors Board of Directors is a standing committee composed of four directors who meet the independence, financial expertise, and other qualification requirements of the NYSE and applicable securities laws. It operates under a written charter adopted by the Committee and approved by the Board of Directors, which is posted on our website at gm.com/investors, under "Corporate Governance." The members of the Committee are Thomas M. Schoewe (Chair), Linda R. Gooden, Jane L. Mendillo, and Michael G. Mullen. The Board has determined that Mr. Schoewe, Ms. Gooden, and Ms. Mendillo qualify as "audit committee financial experts" as defined by the SEC's regulations. The Committee annually selects the Company's independent registered public accounting firm ("auditor").

Management is responsible for the Company's internal controls and the financial reporting process and has delivered its opinion on the effectiveness of the Company's controls. The auditor is responsible for performing an independent audit of the Company's consolidated financial statements and opining on the effectiveness of those controls in accordance with the standards of the Public Company Accounting Oversight Board (United States) (the "PCAOB") and issuing its reports thereon. As provided in its charter, the Committee's responsibilities include monitoring and overseeing these processes.

Consistent with its charter responsibilities, the Committee has met and held discussions with management and Deloitte & Touche LLP ("Deloitte"), the Company's auditor for 2016, regarding the Company's audited financial statements and internal controls for the year ended December 31, 2016. In this context, management represented to the Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in

the United States. The Committee reviewed and discussed the consolidated financial statements with management and the auditor and further discussed with the auditor the matters required to be discussed by the standards of the PCAOB.

The Company's auditor has also provided to the Committee the written disclosures and the letter required by the applicable requirements of the PCAOB concerning independence, and the Committee has discussed with the auditor the auditor's independence. The Committee has also considered and determined that the provision of non-audit services provided to GM is compatible with maintaining the auditor's independence. The Committee concluded that Deloitte is independent from the Company and its management.

Based upon the Committee's discussions with management and the auditor as described in this report and the Committee's review of the representation of management and the reports of the auditors to the Committee, the Committee recommended to the Board of Directors and the Board of Directors approved the inclusion of the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, as filed with the U.S. Securities and Exchange Commission on February 7, 2017.

Fees Paid to Independent Registered Public Accounting Firm

The Committee retained Deloitte to audit the Company's consolidated financial statements and the effectiveness of internal controls, as of and for the year ended December 31, 2016. The Company and its subsidiaries also retained Deloitte and certain of its affiliates, as well as other accounting and consulting firms, to provide various other services in 2016. Deloitte initially presents the proposed annual audit services and their related fees to the Committee for approval on an audit-year basis.

The services performed by Deloitte in 2016 were preapproved in accordance with the preapproval policy and procedures established by the Audit Committee. This policy requires that prior to the provision of services by the auditor, the Committee will be presented, for consideration, a description of the types of Audit-Related, Tax, and All Other Services expected to be performed by the auditor during the fiscal year, with amounts budgeted for each category (Audit-Related, Tax, and All Other Services). Any requests for such services for \$1 million or more not contemplated and approved by the Committee initially must thereafter be submitted to the Committee (or the Chair of the Committee in an urgent case) for specific preapproval. Requests for services less than \$1 million individually can be approved by management based on the amounts approved for each category. Management must report actual spending for each category to the full Committee periodically during the year.

These services are actively monitored (both spending level and work content) by the Committee to maintain the appropriate objectivity and independence in Deloitte's core work, which is the audit of the Company's consolidated financial statements and internal control. The Committee determined that all services provided by Deloitte in 2016 were compatible with maintaining the independence of Deloitte.

The following table summarizes Deloitte fees billed or expected to be billed in connection with 2016 services. For comparison purposes, actual billings for 2015 services are also displayed.

Type of Fees	2016 (\$ in millions)	2015 (\$ in millions)
Audit	33	32
Audit-Related	6	5
Tax	5	5
Subtotal	44	42
All Other Services	6	3
TOTAL	50	45

Audit Fees – Includes fees for the integrated audit of the Company's annual consolidated financial statements and attestation of the effectiveness of the Company's internal controls over financial reporting, including reviews of the interim financial statements contained in the Company's Quarterly Reports on Form 10-Q and audits of statutory financial statements.

Audit-Related Fees – Includes fees for assurance and related services that are traditionally performed by the independent registered public accounting firm. More specifically, these services include employee benefit plan audits, comfort letters in connection with funding transactions, other attestation services, and consultation concerning financial accounting and reporting standards.

Tax Fees – Includes fees for tax compliance, tax planning, and tax advice. Tax compliance involves preparation of original and amended tax returns and claims for refund. Tax planning and tax advice encompass a diverse range of services, including assistance with tax audits and appeals, tax advice related to mergers and acquisitions and employee benefit plans, and requests for rulings or technical advice from taxing authorities.

All Other Fees – Includes fees for other advisory services related to risk management, contract compliance activities, and product-related data enhancement.

ITEM NO. 6 – SHAREHOLDER PROPOSAL REGARDING INDEPENDENT BOARD CHAIRMAN

James McRitchie, 9295 Yorkship Court, Elk Grove, CA 95758, owner of approximately 50 shares of Common Stock, and James Dollinger, 6193 Stonegate Parkway, Flint, MI 48532, owner of approximately 50 shares of Common Stock, have given notice that they intend to present for action at the annual meeting the following shareholder proposal:

Shareholders request our Board of Directors to adopt as policy, and amend our governing documents as necessary, to require the Chair of the Board of Directors, whenever possible, to be an independent member of the Board. The Board would have the discretion to phase in this policy for the next CEO transition, implemented so it did not violate any existing agreement. If the Board determines that a Chair who was independent when selected is no longer independent, the Board shall select a new Chair who satisfies the requirements of the policy within a reasonable amount of time. Compliance with this policy is waived if no independent director is available and willing to serve as Chair. This proposal requests that all the necessary steps be taken to accomplish the above.

Caterpillar reversed itself by naming an independent board chairman in October 2016. Caterpillar had opposed a shareholder proposal for an independent board chairman as recent as its June 2016 annual meeting. Wells Fargo also reversed itself and named an independent board chairman in October 2016.

According to Institutional Shareholder Services 53% of the Standard & Poors 1,500 firms separate these 2 positions – “2015 Board Practices,” April 12, 2015. This proposal topic won 50%-plus support at 5 major U.S. companies in 2013 including 73%-support at Netflix.

It is the responsibility of the Board of Directors to protect shareholders' long-term interests by providing independent oversight of management. By setting agendas, priorities and procedures, the Chairman is critical in shaping the work of the Board.

Having a board chairman who is independent of management is a practice that will promote greater management accountability to shareholders and lead to a more objective evaluation of management.

A number of institutional investors said that a strong, objective board leader can best provide the necessary oversight of management. Thus, the California Public Employees' Retirement System's Global Principles of Accountable Corporate Governance recommends that a company's board should be chaired by an independent director, as does the Council of Institutional Investors. An independent director serving as chairman can help ensure the functioning of an effective board.

Please vote to enhance shareholder value: Independent Board Chairman – Proposal 6.

The Board of Directors recommends a vote **AGAINST** this proposal for the following reasons:

Your Board believes it is in the best interests of the Company and its shareholders for the Board to have flexibility in determining the leadership structure of the Board.

The policy advocated by this proposal would take away the Board's discretion to evaluate and change its leadership structure. Your Board believes that the Company and its shareholders are best served when the Board has the flexibility to choose the most appropriate Board leadership structure at the relevant time and the most qualified individual to serve as Chairman. The Board retains the authority to separate the positions of Chairman and CEO and to elect an independent Chairman if it deems such action appropriate. While the Board has in the past and may again in the future determine that the interests of the Company would be best served by separating the roles of Chairman and CEO, the Board believes that, a combined role best serves the Company at this time, coupled with an independent director who serves as the Board's Lead Director, with broad authority and responsibility over Board governance and operations. The Board made this decision following an annual assessment of the Company's corporate governance structure. The Board believes that having a combined Chairman and CEO along with a strong Independent Lead Director provides an efficient and effective leadership structure.

Your Board believes that Mary Barra's service as Chairman & CEO provides a clear and unified strategic vision for GM during a time of unprecedented industry change.

As further described under "Board Leadership Structure" beginning on page 28 in this Proxy Statement, the Board determined that its current leadership structure facilitates the Board's oversight role by providing a clear and unified strategic vision for GM during a time of unprecedented industry change. As the individual with primary responsibility for managing the Company, Ms. Barra's in-depth knowledge of GM's businesses and understanding of day-to-day operations brings focused leadership to your Board. The structure also reinforces accountability for the Company's performance and provides continuity for employees, shareholders and external stakeholders.

Ms. Barra's Board leadership is complimented by a strong Independent Lead Director.

Our Bylaws and Corporate Governance Guidelines provide that the independent directors will annually elect a Lead Director from among the independent directors serving on the Board whenever the Chairman is not an independent

director. The Board recognizes the importance of strong independent leadership on the Board and believes that as the Independent Lead Director, Mr. Solso provides leadership and oversight for shareholders, including focus on strategic oversight, compliance, governance and CEO succession planning. The specific duties of the Independent Lead Director are discussed on page 29 in this Proxy Statement.

GM's Strong Corporate Governance Practices reinforce management accountability.

In addition to the Independent Lead Director role, the Board has in place other mechanisms to reinforce management accountability with meaningful independent oversight, including: executive sessions at most Board meetings without management present, key Board committees composed exclusively of independent directors, and directors' unrestricted access to management and independent advisors.

The Board regularly seeks and considers feedback from shareholders on the Company's leadership structure.

The Board recognizes the importance of the Company's leadership structure to our shareholders and regularly receives feedback on this topic through direct engagement. A significant majority of GM's institutional shareholders with whom the Board has engaged have expressed confidence in the current Board leadership structure, reflecting the opinion that there is no "one size fits all" solution, and that boards should maintain discretion as to its leadership structure based on a company's circumstances at any point in time.

The Board's belief in the importance of retaining the flexibility to determine the best leadership structure is consistent with the policies and practices at other large companies.

According to Shearman & Sterling's 2016 Corporate Governance & Executive Compensation Survey of the 100 largest U.S. public companies, only 12 companies have a policy that requires separate individuals to serve as chairman and CEO, while the overwhelming majority of corporate polices provide boards flexibility to separate or combine the positions. These statistics support your Board's strongly held view that it should retain the flexibility to determine the Board leadership structure that will best serve the interests of the Company and its shareholders at the relevant time.

Therefore, your Board of Directors recommends a vote **AGAINST this shareholder proposal.**

ITEM NO. 7 – GREENLIGHT PROPOSAL REGARDING CREATION OF DUAL-CLASS COMMON STOCK

Greenlight Capital, c/o Greenlight Capital, Inc., 140 East 45th St., 24th Floor, New York, NY 10017, record holder of 1,000 shares of common stock, has given notice that it intends to present the following proposal at the Annual Meeting:

WHEREAS, Greenlight Capital, Inc. (“Greenlight Capital”) is a long-term shareholder of the Company and believes that the Company’s existing common stock trades at a discount to its intrinsic value because the equity market is not appropriately assessing the Company’s dividend;

WHEREAS, Greenlight Capital has a proposal that would unlock substantial long-term shareholder value for all of the Company’s shareholders without changing the Company’s business strategy or capital allocation priorities, and without affecting other stakeholders;

WHEREAS, Greenlight Capital’s proposal involves the creation of a second class of common stock (the “Dividend Shares”) and a distribution of the Dividend Shares to the

Company’s existing shareholders at no cost. The Dividend Shares would trade separately from the existing common stock (the “Capital Appreciation Shares”). The Company would continue to pay quarterly dividends at the current annual rate of \$1.52 per share to holders of the Dividend Shares. The Capital Appreciation Shares would continue to participate in all of the Company’s residual earnings, share buybacks and future growth;

RESOLVED, that the shareholders of the Company request that the Board of Directors take the steps necessary (other than steps that must be taken by shareholders) to create and distribute a second class of common stock directly to the Company’s shareholders at no cost, which second class of common stock would trade separately from the existing common stock and continue to pay quarterly dividends at an annual rate of \$1.52, in order to unlock significant shareholder value.

The Board of Directors recommends a vote **AGAINST** this proposal for the following reasons:

Your Board of Directors and management have evaluated Greenlight's proposal thoroughly, including consultations with credit rating agencies and the independent analyses of three top-tier investment banks and other advisers. The proposal contemplates that the current dividend on the Company's existing common stock should cease and a new, additional class of common stock – so called "Dividend Shares" – should be distributed. The Dividend Shares would be exclusively entitled to a fixed dividend at the current amount in perpetuity, but would not share in future earnings upside and would have limited downside protection against negative risk. Dividends or share repurchases on our common shares could not occur before all dividends on the Dividend Shares, both past and current, had been paid, making the dividend payable on the Dividend Shares cumulative and significantly limiting our financial flexibility. We believe this speculative and unproven change in capital structure would create significant additional risks for GM's shareholders and its business. Accordingly, the Board believes that the proposal to create a dual-class share structure is not in the interests of GM and its shareholders.

Solid financial performance and thoughtful capital allocation – rather than untested financial engineering – are the keys to creating and unlocking value for all of GM's shareholders. We believe GM has a compelling track record of strong financial performance and prudent capital allocation, resulting in three years of record results and significant return of capital to shareholders. For the 2016 calendar year, GM's total shareholder return was 7.5%, leading all major global automotive manufacturers. GM has delivered on its financial commitments and returned significant capital to investors. GM expects to repurchase approximately \$5 billion of shares in 2017 alone and from 2012 through the end of 2017, GM will have returned approximately \$25 billion in cash to our shareholders, representing more than 90% of its adjusted automotive free cash flow over the same period.

Management and your Board regularly review the Company's capital allocation framework and have conducted an extensive review of various alternative capital allocation strategies, including thorough consideration of the changes proposed by Greenlight, changes in the pacing and/or nature of return of capital to shareholders and the issuance or distribution of preferred or other securities. We believe the Company's existing capital allocation framework is the right one to deliver sustainable value for GM shareholders. The proposed dual-class common stock structure would have no positive effect on GM's underlying business or cash flows, and therefore would not create additional intrinsic value.

We believe eliminating the dividend on GM's existing common stock and the implementation of the Dividend Shares would lead to selling by many of the Company's current owners.

Under Greenlight's proposal, the dividend on GM's existing common stock would be eliminated and GM would have to be current on the fixed dividend payment to the new Dividend Shares before paying a dividend on or repurchasing shares of the existing common stock. Additionally, Greenlight's prior proposals to the Company indicate that the holders of Dividend Shares would have the right to veto change of control transactions. We believe that these terms would make the existing common stock less attractive to buyers and significantly weaken demand, leading to selling by many of the Company's institutional owners and causing concern and confusion among retail holders, resulting in downward pressure on our share price and total shareholder return.

We believe distributing a large volume of an unprecedented security such as the Dividend Shares, which have no established market depth or liquidity, would likely also lead to selling pressure on the Dividend Shares.

In its presentations to the Company, Greenlight has acknowledged that there is no "perfect precedent" for the Dividend Shares. In fact, we believe there is no precedent at all and, therefore, the Dividend Shares would not have a natural investor base. We also believe that retail investor demand is unlikely to offset the lack of equity income fund demand due to the unprecedented size of the proposed distribution. Therefore, we believe the pricing and market for the Dividend Shares would be highly uncertain, resulting in likely depressed pricing for the new security.

We believe implementing a dual-class share structure would lead to a loss of GM's investment grade credit rating, impacting GM's overall cost of capital and enterprise risk profile, including GM's ability to execute its captive finance strategy, access capital markets efficiently, and execute revolver renewals.

In our view, maintaining a strong investment grade balance sheet is critical to GM's success. We believe that the creation and distribution of Dividend Shares would result in adverse credit ratings actions, including a likely downgrade to non-investment grade. A non-investment grade credit rating would have an approximately \$1 billion EBT impact on GM Financial, put \$1 billion of profit at risk for the automotive company and necessitate approximately an additional \$5-10 billion of cash on the GM balance sheet. Such a downgrade would also significantly impact GM's overall cost of capital and enterprise risk profile. Among other things, this would have a material impact on GM's successful captive finance strategy, including GM Financial's ability to originate loans during times of market stress, and GM's ability to access the capital markets quickly and efficiently. A downgrade could also undermine GM's ability to execute revolver renewals.

We believe the proposed dual-class structure creates governance challenges, requiring the Board to consider and respond to divergent expectations and interests of owners of two distinct classes of stock in its strategic and capital allocation decision-making.

In its presentations to the Company, Greenlight has stated that the Board would owe fiduciary duties to both classes of shareholders. Thus, in making decisions regarding strategy and capital allocation, the Board would be required to explicitly consider the divergent interests of investors focused solely on yield and the interests of investors seeking earnings growth and share repurchases. It is likely that the interests of these two different shareholder groups would sometimes conflict, thus placing the Board in the difficult position of acting in the interests of different constituencies with opposing interests.

We do not believe the proposed dual-class structure would create additional intrinsic value since the structure has no positive effect on GM's underlying business or cash flows.

Dividend Shares are an unproven concept and would be solely an exercise in financial engineering. In its presentations to the Company, Greenlight has acknowledged that the dual-class structure would do nothing to change GM's intrinsic value (i.e., would not improve underlying operating performance). We do not

believe there is any evidence that the distribution of Dividend Shares would create any value for the Company or our shareholders and, because of the risks outlined above, we believe the distribution could destroy value.

By Greenlight's own admission in its materials, there is no established precedent for its proposal and any resulting value creation is "opinion and is not provable." Your Board does not believe that GM's shareholders should be the experiment for such an unprecedented and untested capital structure as Greenlight proposes.

Therefore, your Board of Directors recommends a vote AGAINST this shareholder proposal.

2. How can I attend the Annual Meeting?

Only shareholders and authorized guests of the Company may attend the meeting and all attendees will be required to show a valid form of ID (such as a government-issued form of photo identification). If you hold your shares in Street-name (*i.e.*, through a bank or broker), you must also provide proof of share ownership, such as a letter from your bank or broker or a recent brokerage statement.

Large bags, backpacks and packages, suitcases, briefcases, personal communication devices (*e.g.*, cell phones, smartphones, and tablets), cameras, recording equipment, and other electronic devices will not be permitted in the meeting, and attendees will be subject to security inspections.

3. What constitutes a quorum at the Annual Meeting?

The presence of the holders of a majority of the outstanding shares of our common stock, in person or by proxy, will constitute a quorum for transacting business at the Annual Meeting. Abstentions and broker non-votes are counted as present for purposes of establishing a quorum at the meeting.

4. Are there any other matters to be voted upon at the Annual Meeting?

Greenlight also intends to nominate a slate of four director nominees for election to the Board, in opposition to the nominees recommended by your Board. This Proxy Statement and the additional communications that may follow detail your Board's views on Greenlight's proposal and director nominees.

5. Who is entitled to vote?

Holders of record of our common stock as of the close of business on April 7, 2017, are entitled to vote at the Annual Meeting. On that date, the Company had [] shares of common stock outstanding and entitled to vote. Each share of our common stock entitles the holder to one vote.

1 : 1
1 SHARE = 1 VOTE

6. What should I do if I receive a proxy card from Greenlight?

Greenlight has notified GM of its intent to nominate a slate of four nominees for election to the Board at the Annual Meeting and to present the Greenlight Proposal. The Company is not responsible for the accuracy of any information contained in any proxy solicitation materials used by Greenlight or any other statements that it may otherwise make. **The Board unanimously recommends that you disregard any proxy card or solicitation materials that may be sent by Greenlight. Voting to "Withhold" on Greenlight's proxy card with respect to any Greenlight Nominee is not the same as voting FOR your Board's nominees on the WHITE proxy card or voting instruction form, because a vote to "Withhold" with respect to a Greenlight Nominee on its proxy card will revoke any proxy you previously submitted. If you have already voted using Greenlight's proxy card, you may change your vote by executing and returning the enclosed WHITE proxy card or voting instruction form, or by voting by telephone or by Internet by following the instructions provided on the enclosed WHITE proxy card or voting instruction form. Only the latest dated proxy you submit will be counted. If you have any questions or need assistance voting, please call the Company's proxy solicitor, Innisfree M&A Incorporated ("Innisfree") toll free at: (for shareholders within the U.S. or Canada) +1 (877) 825-8964 and (for shareholders outside of the U.S. and Canada) +1 (412) 232-3651.**

7. How do I vote without attending the Annual Meeting?

When you timely submit your proxy or voting instructions in the proper form, your shares will be voted according to your instructions. You may give instructions to vote for or withhold voting for the election of all the Board of Directors' nominees or any individual nominee and to vote for or against or to abstain from voting on, each of the other matters submitted for voting. If you sign, date, and return the **WHITE** proxy card or voting instruction form without specifying how you wish to cast your vote, your shares will be voted according to the recommendations of the Board of Directors, as indicated in this Proxy Statement.

8. How can I vote in person at the Annual Meeting?

If you are a shareholder of record or a beneficial shareholder, you may vote your shares at the Annual Meeting by completing a ballot at the meeting. If you are a beneficial shareholder and want to vote your shares in person at the Annual Meeting, you must bring a signed legal proxy form from your broker, bank, or other nominee giving you the right to vote the shares, which must be submitted with your ballot at the meeting. You will not be able to vote your shares at the meeting without a legal proxy. Accordingly, we encourage you to vote your shares in advance, even if you plan to attend the meeting. Your vote at the meeting will supersede any prior vote by you.

Even if you plan to participate in the Annual Meeting, we encourage you to vote your shares on a **WHITE** proxy card in advance by telephone, internet, or by completing and mailing the enclosed proxy card or voting instruction form, so that your vote will be counted if you later decide not to participate in the Annual Meeting.

9. How can I change or revoke my proxy or voting instruction?

After you have submitted your proxy or voting instructions by internet, telephone, or mail, you may revoke your proxy at any time until it is voted at the Annual Meeting. If you are a shareholder of record, you may do this by voting subsequently by internet or telephone, submitting a new proxy card with a later date, sending a written notice of revocation to the Corporate Secretary at the address provided in *"How can I obtain the Company's corporate governance information?"* on page 98, or by voting in person during the Annual Meeting.

If you are a beneficial shareholder, you may subsequently vote by internet or telephone, or you may revoke your vote through your broker, bank, or other nominee in accordance with their instructions.

10. Who will count the vote?

An independent inspector of election will tabulate the vote at the Annual Meeting.

11. When will the Annual Meeting voting results be announced?

We will provide voting results on our website and in a Form 8-K filed with the SEC.

12. How can I review a list of shareholders entitled to vote at the Annual Meeting?

A list of shareholders of record entitled to vote at the Annual Meeting will be available for examination for a purpose that is germane to the meeting at General Motors Global Headquarters, 300 Renaissance Center, Detroit, Michigan, 48265, for 10 business days before the Annual Meeting between 9:00 a.m. and 5:00 p.m. Eastern Time, and also during the Annual Meeting.

13. What is the difference between a "shareholder of record" and a "beneficial" shareholder of shares held in street name?

SHAREHOLDER OF RECORD	If your shares are owned directly in your name in an account with GM's stock transfer agent, Computershare Trust Company, N.A. ("Computershare"), you are considered the "shareholder of record" of those shares in your account.
BENEFICIAL SHAREHOLDER	If your shares are held in an account with a broker, bank, or other nominee as custodian on your behalf, you are considered a "beneficial" shareholder of those shares, which are held in "street name." The broker, bank, or other nominee is considered the shareholder of record for those shares. As the beneficial owner, you have the right to instruct the broker, bank, or other nominee on how to vote the shares in your account.

14. I am a beneficial shareholder. What happens if I do not provide voting instructions to my broker?

As a beneficial shareholder, you **must** provide voting instructions to your broker, bank, or other nominee by the deadline provided in the proxy materials you receive from your broker, bank, or other nominee in order for your shares to be voted the way you would like. A "broker non-vote" occurs when a beneficial holder does not provide instructions to a broker, bank or other nominee and such broker, bank or other nominee lacks discretionary voting power to vote shares with respect to a particular proposal. In uncontested situations, under NYSE rules, brokers are permitted to exercise discretionary voting authority on "routine" matters, but beneficial shareholders must provide voting instructions with respect to non-routine matters. However, the rules of the NYSE governing brokers' discretionary authority do not permit brokers to exercise discretionary authority regarding any of the proposals to be voted on at the Annual Meeting, whether "routine" or not, in contested elections where brokers receive competing proxy materials. Therefore, and subject to brokers receiving such competing materials, we currently expect that your broker may not vote on any item considered at the Annual Meeting without your instruction.

In the event that the election of directors becomes uncontested, brokers may be permitted to exercise voting authority on "routine" matters.

15. What is “householding” and how does it affect me?

The SEC rules permits companies to send a single Proxy Statement and Annual Report or Notice to two or more shareholders that share the same address, subject to certain conditions. Each shareholder will continue to receive a separate proxy card, voting instruction form, or Notice, and it will include the unique 16-digit control number, which is needed to vote those shares and to access and vote during the Annual Meeting. This “householding” rule will benefit both the shareholders and GM by reducing the volume of duplicate information shareholders receive and reducing GM’s printing and mailing costs.

If you are a registered shareholder with an account at Computershare and one set of these documents was sent to your household for the use of all GM shareholders in your household and one or more of you would prefer to receive additional sets, or if multiple copies of these documents were sent to your household and you want to receive one set, please contact Computershare by calling 1-888-8945 or 1-781-575-3334 (from outside the United States, Canada and Puerto Rico), or by writing to Computershare, P.O. Box 43078, Providence, RI 02940-3078.

If a broker, bank, or other nominee holds your shares, please contact your broker, bank, or other nominee directly if you have questions about delivery of materials, require additional copies of the Proxy Statement or Annual Report, or wish to receive multiple copies of proxy materials by stating that you do not consent to householding.

16. How can nominees obtain proxy materials for beneficial owners?

Brokers, banks, and other nominees who want a supply of the Company’s proxy materials to send to beneficial owners should contact Innisfree M&A Incorporated toll free at: (for shareholders within the U.S. and Canada) +1 (877) 825-8906 or (for shareholders outside the U.S. and Canada), call: +1 (412) 232-2651.

We will pay our cost for soliciting proxies for the 2017 Annual Meeting. General Motors does not expect to pay Greenlight's costs for soliciting proxies for the Annual Meeting. The Company will distribute proxy materials and follow-up reminders, if any, by mail and electronic means. We have engaged Innisfree, a professional proxy solicitation firm, located at 501 Madison Avenue, New York, NY 10022, to assist with the solicitation of proxies and to provide related advice and informational support, for a service fee, plus customary disbursements. We expect to pay Innisfree an aggregate fee, including reasonable out-of-pocket expenses, of up to \$[], depending on the level of services actually provided. Our aggregate expenses, including those of Innisfree, related to the solicitation in excess of those normally spent for an annual meeting as a result of the potential proxy contest and excluding salaries and wages of our officers and regular employees, are expected to be approximately \$[], of which approximately \$[] has been spent to date. General Motors has also agreed to indemnify Innisfree against certain liabilities relating to or arising out of its engagement and to reimburse the expenses incurred by Innisfree in connection with the solicitation. Innisfree expects that approximately 100 of its employees will assist in the solicitation.

GM directors, officers, and employees may also solicit proxies by mail, telephone, or personal visits. They will not receive any additional compensation for their services. Section 3. Eligibility. Any person who is employed by the Company or any Subsidiary may be designated by the Committee as a Participant from time to time.

Section 4. Administration.

(a) The Plan shall be administered by the Committee. All decisions of the Committee shall be final, conclusive and binding upon all parties, including the Company, its stockholders and Participants and any Beneficiaries thereof. To the extent permitted by applicable law, the Committee may delegate to one or more members of the Committee or officers of the Company the authority to administer the Plan, such as authority to establish the terms of Awards, determine Final Awards or take any other actions permitted under the Plan, within any limits established by the Committee, except that such delegation to an officer of the Company shall not be applicable with respect to any Award for any Participant who is a Covered Employee. Subject to the immediately preceding sentence, the Committee may directly or through its delegate issue rules and regulations for administration of the Plan.

(b) To the extent necessary or desirable to comply with applicable regulatory regimes, any action by the Committee shall require the approval of Committee members who are (i) independent, within the meaning of and to the extent required by applicable rulings and interpretations of the applicable stock market or exchange on which any equity securities issued by the Company are quoted or traded and (ii) independent outside directors pursuant to Section 162(m) of the Code.

(c) Subject to applicable law, the terms of the Plan, including but not limited to Section 4(a), and such orders or resolutions not inconsistent with the terms of the Plan as may from time to time be adopted by the Board, the Committee or its delegate shall have full power, discretion and authority to: (i) subject to Section 3, designate eligible individuals who will be Participants; (ii) determine the terms and conditions of any Award; (iii) determine whether, to what extent and under what circumstances amounts payable with respect to an Award under the Plan shall be deferred either automatically or at the election of the Participant or of the Committee; (iv) interpret and administer the Plan and any instrument or agreement relating to, or Award made under, the Plan; (v) establish, amend, suspend or waive such rules and regulations as it shall deem appropriate for the proper administration of the Plan and due compliance with applicable law or accounting or tax rules and regulations; (vi) make any other determination and take any other action that the Committee in its sole discretion deems necessary or desirable for the administration of the Plan and due compliance with applicable law or accounting or tax rules and regulations and (vii) to construe, interpret and apply the provisions of this Plan.

(d) Notwithstanding any other provision in the Plan to the contrary, in any instance where a determination is to be made under the Plan at the discretion of the Company’s Chief Executive Officer or chief human resources officer (or such individuals holding a comparable role in the event of a restructuring of positions or re-designation of titles), the Company’s Chief Executive Officer shall make such determination in respect of the Company’s chief human resources officer, and the Committee shall make such determination in respect of the Company’s Chief Executive Officer (or, in each case, such individuals holding the comparable roles in the event of a restructuring of positions or re-designation of titles).

Section 5. Establishment of Award Terms. Subject to the limitations described in Section 4 and Section 8, the Committee shall establish the terms of each Award, including the Performance Period; the positions or names of the employees who will be Participants for the Performance Period; the Target Award for each Participant or group of Participants (including any minimum or maximum amount); the applicable Performance Measures and any other additional goals, formulas or performance-based measures relating to the Company, any business unit, Subsidiary or business segment of the Company, or to an individual Participant; targeted achievement levels (including any minimum or maximum achievement levels) relating to such Performance Measures or other goals; the formula or methodology that will be applied to determine the extent to which Awards have been earned and any other terms that will be applicable to the Awards, including the payment date, payment conditions and any vesting schedule applicable to any Final Award.

Section 6. Adjustments to Performance Measures, Goals and Formulas. The Committee may adjust, in whole or in part, any Performance Measures or any other applicable goals, formulas or performance-based measures, the targeted achievement levels (including any minimum or maximum achievement levels) relating to such Performance Measures, goals, formulas or performance-based measures, and the formula or methodology to be applied against the Performance Measures goals, formulas or performance-based measures, as the Committee may deem appropriate and equitable during the applicable Performance Period. If the Committee determines that a change in the business, operations, corporate structure or capital structure of the Company, or the manner in which it conducts its business, or other events or circumstances render the applicable performance measures unsuitable, the Committee may in its discretion modify such performance objectives or the related minimum acceptable level of achievement, in whole or in part; *provided, however*, that in the case of an Award intended to qualify under Section 162(m) of the Code, such modifications shall be made only to the extent that they would not disqualify such Award under Section 162(m) of the Code.

Section 7. Determination of Final Awards.

(a) As soon as practicable after the end of each Performance Period, the Committee shall determine the extent to which the targeted achievement levels of the applicable Performance Measures and any other goals, formulas or performance-based measures applicable to each Award have been satisfied.

(b) The Committee may, in its sole discretion, adjust (upward or downward) the Award of any Participant or group of Participants; *provided, that* the Committee shall not adjust the Award of any Covered Employee above the maximum payout determined in accordance with Section 8(b).

(c) The Committee shall determine the Final Award for each Participant or group of Participants after applying any adjustments described in Section 7(b) and subject to the limitations described in Section 8.

(d) Notwithstanding any provisions of the Plan to the contrary, upon the occurrence of a Change in Control of the Company, the following provisions shall apply:

- (i) Subject to the terms of the Plan as otherwise in effect, the minimum Award payable to each Participant as determined under this Section 7 of the Plan in respect of the fiscal year in which the Change in Control occurs shall be the greatest of:
 - a. The Award or other annual bonus paid or payable to the Participant in respect of the fiscal year prior to the year in which the Change in Control occurs;
 - b. The amount that would be payable to the Participant if the Company achieved the Target Award for such fiscal year; or
 - c. The Award amount that would be payable to the Participant based on the Company's actual performance and achievement of applicable Performance Measures for such fiscal year through the date of the Change in Control.
- (ii) If a Change in Control occurs following the completion of a fiscal year, but before Awards are paid under the Plan for that fiscal year, the Participant will be eligible to receive the Award for that fiscal year based on actual performance as determined by the Company, subject to the terms of the Plan as otherwise in effect.

Section 8. Awards for Covered Employees. Notwithstanding any other provision of the Plan, the following procedures and limitations shall apply with respect to any Award to a Covered Employee.

(a) On or before the earlier of (i) the date that is 90 days after commencement of the Performance Period or (ii) the expiration of 25 percent of the Performance Period, the Committee shall establish and approve in writing one or more Performance Measures applicable to the Covered Employee's Award, the targeted achievement levels (including any minimum or

maximum achievement levels) relating to such Performance Measures, and an objective formula or methodology that will be applied against the Performance Measures to determine the maximum amount payable under the Award.

(b) After the end of each Performance Period, the Committee shall determine and shall certify in writing the extent to which the targeted achievement levels with respect to the applicable Performance Measures have been satisfied and shall apply the pre-established objective formula or methodology to determine the maximum amount payable under the Covered Employee's Award.

(c) For the avoidance of doubt, subject to the limitations set forth in this Section 8, the Committee may adjust the maximum payout level downward by applying any other applicable Performance Measures or other goals, formulas or performance-based measures pursuant to Section 7(a) and by making any other adjustments pursuant to Section 7(c).

(d) The Final Award for a Covered Employee shall in no instance exceed \$15,000,000 for any fiscal year of the Company.

Section 9. Payment of Awards.

(a) Payment of the Final Awards for a Performance Period shall be made in cash after the Committee's determination of the Final Awards (or if later, any vesting date or dates applicable to the Final Award), but no later than December 31 of the year following the end of the applicable Performance Period (or the applicable vesting date or dates); *provided* that at the time of grant, subject to Section 15, the Committee may determine that an Award will be paid at a later date.

(b) Notwithstanding Section 9(a), the Company may, in its sole discretion, permit or require the deferral of payment of any Final Award in accordance with the terms of any deferred compensation plan or arrangement established or maintained by the Company or its Subsidiaries from time to time.

Section 10. Conditions Precedent to Final Awards. As a condition precedent to the payment of all or any portion of the Final Award, each Participant shall: (a) refrain from engaging in any activity which will cause damage to the Company or is in any manner inimical or in any way contrary to the best interests of the Company, as determined in the sole discretion of the Company's Chief Executive Officer or chief human resources officer (or such individuals holding a comparable role in the event of a restructuring of positions or re-designation of titles), (b) not for a period of 12 months following any voluntary termination of employment, directly or indirectly, knowingly induce any employee of the Company or any Subsidiary to leave his or her employment for participation, directly or indirectly, with any existing or future employer or business venture associated with such Participant, and (c) furnish to the Company such information with respect to the satisfaction of the foregoing conditions precedent as the Committee may reasonably request. In addition, the Committee may require a Participant to enter into such agreements as the Committee considers appropriate. The failure by any Participant to satisfy any of the foregoing conditions precedent shall result in the immediate cancellation of any unpaid portion of his or her Award, and such Participant will not be entitled to receive any consideration with respect to such cancellation.

Section 11. Effect of Termination of Service on Awards. Subject to Section 9(b) and Section 10, and unless otherwise provided by the Committee at the time of the grant of the Award, or as the Committee may determine in any individual case, the following shall apply with respect to a Participant's outstanding Awards upon such Participant's Termination of Service.

(a) Except as set forth below, in the event of the Participant's Termination of Service for any reason, any unpaid portion of any Award shall be forfeited.

(b) In the event of a Participant's Termination of Service due to death or Disability, in either instance before or after the end of a Performance Period but before payment of his or her Final Award, the Participant's Final Award will be determined (if not already determined) after the end of the Performance Period in accordance with Section 7, and the Final Award shall be paid to the Participant's Beneficiary or Participant no later than December 31 of the year following the end of the applicable Performance Period. Any service-based vesting conditions applicable to such Final Award shall be waived.

(c) In the event of a Participant's voluntary Termination of Service after achieving Full Career Status before or after the end of a Performance Period but before payment of his or her Final Award, the Participant's Final Award will be determined (if not already determined) after the end of the Performance Period in accordance with Section 7; *provided* that the Final Award will be prorated based on the number of months during the applicable Performance Period prior to the Participant's Termination of Service. The Final Award shall be paid to the Participant after the determination of the Final Award, but no later than December 31 of the year following the end of the applicable Performance Period. Any service-based vesting conditions applicable to such Final Award shall be waived.

(d) Notwithstanding the above provisions, in the event of a Participant's Termination of Service pursuant to an approved separation agreement or program, such Participant will not be entitled to retain any portion of an Award.

Section 12. General Provisions Applicable to Awards.

(a) Except pursuant to Section 12(b) or the laws of descent, no Award and no right under any Award may be voluntarily or involuntarily assigned, alienated, sold or transferred, including as between spouses or pursuant to a domestic relations order in connection with dissolution of marriage, or by operation of law.

(b) A Participant may designate a Beneficiary or change a previous Beneficiary designation at such times prescribed by the Committee by using forms and following procedures approved or accepted by the Committee for that purpose.

(c) The entire expense of offering and administering the Plan shall be borne by the Company and its Subsidiaries.

(d) Any Awards granted under the Plan (including any amounts or benefits arising from such Awards) shall be subject to any clawback or recoupment policies the Company has in place from time to time.

(e) Notwithstanding any other provision of the Plan (including Section 9, Section 11 and Section 15), the Committee may determine at any time and in its sole discretion, to accelerate or to delay any amounts payable with respect to any Award, or grant Awards subject to accelerated or delayed payment terms.

(f) Subject to Section 15, if the Company or any Subsidiary has any unpaid claim against a Participant arising out of or in connection with the Participant's employment with the Company or any Subsidiary, prior to payment of a Final Award, such claim may be offset against any Award under this Plan (up to \$5,000 per year) and at the time of payment of any Award, such claim may be offset in total. Such claims may include, but are not limited to, unpaid taxes or corporate business credit card charges.

(g) No employee, Participant or other person shall have any claim to be granted any Award under the Plan, and there is no obligation for uniformity of treatment of employees, Participants or Beneficiaries under the Plan. The terms and conditions of Awards need not be the same with respect to each recipient. Any Award granted under the Plan shall be a one-time Award that does not constitute a promise of future grants.

(h) The grant of an Award shall not be construed as giving a Participant the right to be retained in the employ of, or to continue to provide services to, the Company or any Subsidiary. Further, the Company or the applicable Subsidiary may at any time dismiss a Participant free from any liability or any claim under the Plan, unless otherwise expressly provided in the Plan or in any other agreement binding the parties.

(i) Nothing contained in the Plan shall prevent the Committee or the Company from adopting other non-stockholder approved plans, policies and arrangements for granting incentives and other compensation to employees of the Company and its Subsidiaries or adopting or continuing in effect other or additional compensation arrangements, and such arrangements may be either generally applicable or applicable only in specific cases.

(j) The Company (or any Subsidiary) shall be authorized to withhold from any payment due with respect to any Final Award the amount of applicable withholding taxes due in respect of an Award as may be necessary in the opinion of the Company (or the Subsidiary) to satisfy all obligations for the payment of such taxes.

(k) If any provision of the Plan is or becomes or is deemed to be invalid, illegal or unenforceable in any jurisdiction, or as to any person or Award, or would disqualify the Plan or any Award under any law deemed applicable by the Committee, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the sole determination of the Committee, materially altering the intent of the Plan, such provision shall be stricken as to such jurisdiction, person or Award, and the remainder of the Plan shall remain in full force and effect.

(l) This Plan is unfunded and unsecured; nothing in this Plan shall be construed to create a trust or to establish or evidence any Participant's claim of any right to payment of an Award other than as an unsecured general creditor with respect to any payment to which he or she may be entitled.

Section 13. Effective Date of the Plan. The Plan shall be effective as of the Effective Date, subject to stockholder approval.

Section 14. Amendment, Modification, Suspension and Termination of the Plan; Rescissions and Corrections. Except to the extent prohibited by applicable law, the Board may amend, alter, suspend, discontinue or terminate the Plan or any portion thereof at any time; *provided, however*, that no such amendment, alteration, suspension, discontinuation or termination shall be made without stockholder approval if such approval is required by applicable law, including Section 162(m) of the Code except (a) to the extent any such amendment, alteration, suspension, discontinuance or termination is made to cause the Plan to comply with applicable law or accounting or tax rules and regulations, (b) to impose any clawback or recoupment provisions with respect to

any Awards (including any amounts or benefits arising from such Awards) in accordance with Section 12(d) of the Plan or (c) as the Board determines in good faith to be in the best interests of the Participants affected thereby. The Committee may correct any defect, supply any omission or reconcile any inconsistency in the Plan or any Award in the manner and to the extent it shall deem desirable to carry the Plan into effect.

Section 15. Section 409A of the Code. With respect to any Award subject to Section 409A of the Code, the Plan is intended to comply with the requirements of Section 409A of the Code, and the provisions of the Plan shall be interpreted in a manner that satisfies the requirements of Section 409A of the Code, and the Plan shall be operated accordingly. If any provision of the Plan or any term or condition of any Award would otherwise frustrate or conflict with this intent, the provision, term or condition will be interpreted and, to the extent necessary, deemed amended so as to avoid this conflict. If an amount payable under an Award as a result of the Participant's Termination of Service (other than due to death) occurring while the Participant is a "specified employee" under Section 409A of the Code constitutes a deferral of compensation subject to Section 409A of the Code, then payment of such amount shall not occur until six months and one day after the date of the Participant's Termination of Service, except as permitted under Section 409A of the Code. To the extent any amount that is "nonqualified deferred compensation" for purposes of Section 409A of the Code becomes payable upon a Termination of Service, such Termination of Service shall not be deemed to have occurred any earlier than a "separation from service" would occur under Section 409A of the Code, and related regulations and guidance thereunder. Notwithstanding any of the foregoing, the Company makes no representations or warranty and shall have no liability to the Participant or any other person if any provisions or payments, compensation or other benefits under the Plan are determined to constitute nonqualified deferred compensation subject to Section 409A of the Code but do not satisfy the provisions thereof.

Section 16. Data Protection. By participating in the Plan, the Participant consents to the holding and processing of personal information provided by the Participant to the Company or any Subsidiary, trustee or third party service provider, for all purposes relating to the operation of the Plan. These include, but are not limited to:

- (a) administering and maintaining Participant records;
- (b) providing information to the Company, Subsidiaries, trustees of any employee benefit trust, registrars, brokers or third party administrators of the Plan;
- (c) providing information to future purchasers or merger partners of the Company or any Subsidiary, or the business in which the Participant works; and
- (d) transferring information about the Participant to any country or territory that may not provide the same protection for the information as the Participant's home country.

Section 17. Governing Law. The Plan shall be governed by the laws of the State of Delaware, without application of the conflicts of law principles thereof.

To the extent permitted by applicable law, the Committee may delegate to one or more members of the Committee or officers of the Company authority to administer the Plan, such as the authority to grant Awards or take any other actions permitted under the Plan, within any limits established by the Committee, except that such delegation to an officer of the Company shall not be applicable with respect to any Award for any Participant who is a Covered Employee. Subject to the immediately preceding sentence, the Committee may directly or through its delegate issue rules and regulations for administration of the Plan.

(b) To the extent necessary or desirable to comply with applicable regulatory regimes, any action by the Committee shall require the approval of Committee members who are (i) independent, within the meaning of and to the extent required by applicable rulings and interpretations of the applicable stock market or exchange on which the Shares are quoted or traded; (ii) non-employee directors within the meaning of Rule 16b-3 under the Exchange Act; and (iii) independent outside directors pursuant to Section 162(m) of the Code.

(c) Subject to applicable law, the terms of the Plan, including but not limited to Section 4(a), and such orders or resolutions not inconsistent with the terms of the Plan as may from time to time be adopted by the Board, the Committee or its delegate shall have full power, discretion and authority to: (i) subject to Section 3, designate eligible individuals who will be Participants; (ii) determine the type or types of Awards to be granted to each Participant under the Plan; (iii) determine the number of Shares to be covered by (or with respect to which payments, rights or other matters are to be calculated in connection with) Awards; (iv) determine the terms and conditions of any Award; (v) determine whether, to what extent and under what circumstances Awards may be settled or exercised in cash, Shares, other Awards, other property, net settlement, or any combination thereof, or cancelled, forfeited or suspended, and the method or methods by which Awards may be settled, exercised, cancelled, forfeited or suspended; (vi) determine whether, to what extent and under what circumstances cash, Shares, other Awards, other property and other amounts payable with respect to an Award under the Plan shall be deferred either automatically or at the election of the holder thereof or of the Committee; (vii) interpret and administer the Plan and any instrument or agreement relating to, or Award made under, the Plan; (viii) prescribe the form of each Award Document, which need not be identical for each Participant; (ix) establish, amend, suspend or waive such rules and regulations and appoint such agents, trustees, brokers, depositories and advisors and determine such terms of their engagement as it shall deem appropriate for the proper administration of the Plan and due compliance with applicable law, stock market or exchange rules and regulations or accounting or tax rules and regulations; (x) make any other determination and take any other action that the Committee in its sole discretion deems necessary or desirable for the administration of the Plan and due compliance with applicable law, stock market or exchange rules and regulations or accounting or tax rules and regulations; and (xi) to construe, interpret and apply the provisions of this Plan.

(d) In addition to the conditions imposed by Section 11, the Committee or its delegate may impose restrictions on any Award at the time of grant in the applicable Award Document or by other action with respect to non-competition, confidentiality and other restrictive covenants as it deems necessary or appropriate.

(e) Notwithstanding any other provision in the Plan to the contrary, in any instance where a determination is to be made under the Plan at the discretion of the Company's Chief Executive Officer or chief human resources officer (or such individuals

[Table of Contents](#)

holding a comparable role in the event of a restructuring of positions or re-designation of titles), the Company's Chief Executive Officer shall make such determination in respect of the Company's chief human resources officer, and the Committee shall make such determination in respect of the Company's Chief Executive Officer (or, in each case, such individuals holding the comparable roles in the event of a restructuring of positions or re-designation of titles).

Section 5. Shares Available for Awards.

(a) Subject to adjustment as provided in Section 5(c), (i) the maximum number of Shares available for issuance under the Plan shall not exceed 42,000,000 Shares, with each Share subject to (or deliverable with respect to) an Option, SAR, RSU or any other Award reducing the number of Shares available for issuance under the Plan by one Share, and (ii) no Participant may receive under the Plan in any calendar year (A) Options and SARs that relate to more than 5,000,000 Shares or (B) Awards other than Options or SARs which could result in delivery to the Participant of more than 2,500,000 Shares under the operation of the applicable performance goal formula, if and to the extent that any such Awards are intended to constitute Section 162(m) Compensation and denominated in Shares. The maximum number of Shares available for issuance under Incentive Stock Options shall be 42,000,000.

(b) Any Shares subject to an Award that expires, is cancelled, forfeited or otherwise terminates without the delivery of such Shares, including any Shares subject to an Award to the extent that Award is settled without the issuance of Shares, shall again be, or shall become, available for issuance under the Plan; *provided, however*, that (i) any Shares surrendered or withheld in payment of any grant, purchase, exercise price of an Award or taxes related to an Award, (ii) any Shares covered by a SAR that is exercised and settled in Shares and (iii) any Shares repurchased in the open market using stock option proceeds, shall not again be available for issuance under the Plan.

(c) In the event that the Committee determines that, as a result of any dividend or other distribution (whether in the form of cash, Shares or other securities), recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase or exchange of Shares or other securities of the Company, issuance of warrants or other rights to purchase Shares or other securities of the Company, issuance of Shares pursuant to the anti-dilution provisions of securities of the Company, or other similar corporate transaction or event affecting the Shares, or of changes in applicable laws, regulations or accounting principles, an adjustment is appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan, then the Committee shall adjust equitably any or all of:

(i) the number and type of Shares (or other securities) which thereafter may be made the subject of Awards, including the aggregate and individual limits specified in Section 5(a);

(ii) the number and type of Shares (or other securities) subject to outstanding Awards; and

(iii) the grant, purchase or exercise price with respect to any Award or, if deemed appropriate, make provision for a cash payment to the holder of an outstanding Award; *provided, however*, that the number of Shares subject to any Award denominated in Shares shall always be a whole number.

(d) Any Shares delivered pursuant to an Award may consist, in whole or in part, of authorized and newly issued Shares or Shares acquired by the Company.

Section 6. Options. The Committee is authorized to grant Options to Participants with the following terms and conditions and with such additional terms and conditions, in either case not inconsistent with the provisions of the Plan, as the Committee shall determine.

(a) The exercise price per Share under an Option shall be determined by the Committee; *provided, however*, that such exercise price shall not be less than the Fair Market Value of a Share on the date of grant of such Option.

(b) The term of each Option shall be fixed by the Committee but shall not exceed 10 years from the date of grant of such Option in the form of an Incentive Stock Option and 10 years plus two days from the date of grant of such Option in the form of a Non-Qualified Stock Option.

(c) The Committee shall determine the time or times at which an Option may be exercised in whole or in part.

(d) The Committee shall determine the method or methods by which, and the form or forms, including cash, Shares, other Awards, other property, net settlement, broker assisted cashless exercise or any combination thereof, having a Fair Market Value on the exercise date equal to the relevant exercise price, in which payment of the exercise price with respect thereto may be made or deemed to have been made.

[Table of Contents](#)

(e) Any Option intended to be treated as an Incentive Stock Option shall be designated as such under the terms of the applicable Award Document. The terms of any such Incentive Stock Option shall comply in all respects with the provisions of Section 422 of the Code.

(f) Subject to Section 12 and Section 13, in general, no portion of an Award of Options is intended to vest prior to the first anniversary of the vesting commencement date set forth in the Award Document; however, the Committee may provide for shorter vesting if appropriate under the circumstances as determined by the Committee. Unless otherwise determined by the Committee, no dividends or dividend equivalents will be earned or paid on the Shares underlying any Options granted and outstanding under the Plan.

Section 7. Stock Appreciation Rights. The Committee is authorized to grant SARs to Participants with the following terms and conditions and with such additional terms and conditions, in either case not inconsistent with the provisions of the Plan, as the Committee shall determine.

(a) SARs may be granted under the Plan to Participants either alone (“freestanding”) or in addition to other Awards granted under the Plan (“tandem”) and may, but need not, relate to a specific Option granted under Section 6.

(b) The exercise price per Share under a SAR shall be determined by the Committee; *provided, however*, that such exercise price shall not be less than the Fair Market Value of a Share on the date of grant of such SAR.

(c) The term of each SAR shall be fixed by the Committee but shall not exceed 10 years from the date of grant of such SAR.

(d) The Committee shall determine the time or times at which a SAR may be exercised or settled in whole or in part.

(e) Subject to Section 12 and Section 13, in general, no portion of an Award of SARs is intended to vest prior to the first anniversary of the vesting commencement date set forth in the Award Document; however, the Committee may provide for shorter vesting if appropriate under the circumstances as determined by the Committee. Unless otherwise determined by the Committee, no dividends or dividend equivalents will be earned or paid on the Shares underlying any SARs granted and outstanding under the Plan.

Section 8. Restricted Stock and RSUs. The Committee is authorized to grant Awards of Restricted Stock and RSUs to Participants with the following terms and conditions and with such additional terms and conditions, in either case not inconsistent with the provisions of the Plan, as the Committee shall determine.

(a) Shares of Restricted Stock and RSUs shall be subject to such restrictions as the Committee may impose (including any limitation on the right to receive any dividend, dividend equivalent or other right), which restrictions may lapse separately or in combination at such time or times, in such installments or otherwise, as the Committee may deem appropriate; *provided that*, subject to Section 12 and Section 13, in general, each Award of Restricted Stock and RSUs (other than Performance Awards) is intended to vest in whole or in part (including in installments) over a period of not less than three years from the vesting commencement date set forth in the Award Document; however, the Committee may provide for shorter vesting if appropriate under the circumstances as determined by the Committee.

(b) With respect to Shares of Restricted Stock, a Participant generally shall have the rights and privileges of a stockholder with respect thereto, including the right to vote such Shares of Restricted Stock and the right to receive dividends or dividend equivalents. Without limiting the generality of the foregoing, if the Award relates to Shares on which dividends are declared during the period that the Award is outstanding, such dividends or dividend equivalents shall be paid in cash on the vesting date of the Restricted Stock Award, subject to satisfaction of the vesting and other conditions of the underlying Award of Restricted Stock, unless otherwise determined by the Committee. Any share of Restricted Stock may be evidenced in such manner as the Committee may deem appropriate, including book-entry registration. For the avoidance of doubt, unless otherwise determined by the Committee, no dividends or dividend equivalent rights shall be provided with respect to any Shares of Restricted Stock that do not vest pursuant to their terms.

(c) With respect to an RSU Award, each RSU covered by such Award shall represent a right to receive the value of one Share in cash, Shares or a combination thereof. An RSU shall not convey to the Participant the rights and privileges of a stockholder with respect to the Share subject to the RSU, such as the right to vote or the right to receive dividends, unless and until a Share is issued to the Participant to settle the RSU. Notwithstanding the foregoing, unless otherwise determined by the Committee in its sole discretion, RSU Awards shall convey the right to receive dividend equivalents on the Shares underlying the RSU Award with respect to any dividends declared during the period that the RSU Award is outstanding. Such dividend equivalent rights shall accumulate and shall be paid in cash on the settlement date of the underlying RSU Award, subject to the

[Table of Contents](#)

satisfaction of the vesting and other conditions of the underlying RSU Award, unless otherwise determined by the Committee. Shares delivered upon the vesting and settlement of an RSU Award may be evidenced in such manner as the Committee may deem appropriate, including book-entry registration. For the avoidance of doubt, unless otherwise determined by the Committee, no dividend equivalent rights shall be provided with respect to any Shares subject to RSUs that do not vest or settle pursuant to their terms.

(d) If the Committee intends that an Award granted under this Section 8 shall constitute or provide for Section 162(m) Compensation, such Award shall be structured in accordance with the requirements of Section 9, including the performance criteria and the Award limitation set forth therein, and any such Award shall be considered a Performance Award for purposes of the Plan.

Section 9. Performance Awards. The Committee is authorized to grant Performance Awards with the following terms and conditions and with such additional terms and conditions, in either case not inconsistent with the provisions of the Plan, as the Committee shall determine:

(a) Performance Awards may be denominated as a cash amount, number of Shares or units or a combination thereof and are Awards which may be earned upon achievement or satisfaction of performance conditions specified by the Committee. In addition, the Committee may specify that any other Award shall constitute a Performance Award by conditioning the grant or the right to exercise the Award or have it settled, and the timing thereof, upon achievement or satisfaction of such performance conditions as may be specified by the Committee. The Committee may use such business criteria and other measures of performance as it may deem appropriate in establishing any performance conditions. Subject to the terms of the Plan, the performance goals to be achieved during any Performance Period, the length of any Performance Period, the amount of any Performance Award granted and the amount of any payment or transfer to be made pursuant to any Performance Award shall be determined by the Committee; *provided* that, subject to Section 12 and Section 13, in general, each Performance Award is intended to vest in whole or in part (including in installments) over a period of not less than three years from the vesting commencement date set forth in the Award Document; however, the Committee may provide for shorter vesting if appropriate under the circumstances as determined by the Committee.

(b) If the Committee intends that a Performance Award should constitute Section 162(m) Compensation, such Performance Award shall be subject to a pre-established formula, such that payment, retention or vesting of the Award is subject to the achievement during a Performance Period or Performance Periods, as determined by the Committee, of a level or levels of, or increases in, in each case as determined by the Committee, one or more of the following performance measures expressed on an absolute or adjusted basis with respect to the Company: asset turnover, cash flow, contribution margin, cost objectives, cost reduction, earnings before interest and taxes (EBIT), earnings before interest, taxes, depreciation and amortization (EBITDA), earnings per share, economic value added, free cash flow, increase in customer base, inventory turnover, liquidity, market share, net income, net income margin, operating cash flow, operating profit, operating profit margin, pre-tax income, productivity, profit margin, quality (internal or external measures), return on assets, return on net assets, return on capital, return on invested capital, return on equity, revenue, revenue growth, stockholder value, stock price, total shareholder return, and/or warranty experience. The Committee shall have the power to impose such other restrictions on Awards subject to this Section 9(b) as it may deem necessary or appropriate to ensure that such Awards satisfy all requirements for Section 162(m) Compensation. In order to ensure that any Performance Award that is intended to qualify as Section 162(m) Compensation so qualifies, no Participant may be granted in any calendar year Performance Awards denominated in cash that, taken collectively in the aggregate, could result in a future payout at maximum performance in excess of \$40,000,000.

(c) Each performance criterion may be measured on an absolute (*e.g.*, plan or budget) or relative basis. Relative performance may be measured against a group of peer companies, a financial market index or other acceptable objective and quantifiable indices which the Committee selects. With respect to the applicable Performance Period, if the Committee determines that a change in the business, operations, corporate structure or capital structure of the Company, or the manner in which it conducts its business, or other events or circumstances render the applicable performance measures unsuitable, the Committee may in its discretion modify such performance objectives or the related minimum acceptable level of achievement, in whole or part, as the Committee deems appropriate and equitable; *provided, however*, that in the case of a Performance Award intended to qualify as Section 162(m) Compensation, such modifications shall be made only to the extent that they would not disqualify such Performance Award as Section 162(m) Compensation. Performance measures may vary from Performance Award to Performance Award, respectively, and from Participant to Participant, and may be established on a stand-alone basis, in tandem or in the alternative.

(d) Settlement of Performance Awards shall be in cash, Shares, other Awards, or any combination thereof, in the sole discretion of the Committee. The Committee may increase or reduce the amount of a settlement otherwise to be made in connection with a Performance Award but may not exercise discretion to increase any amount payable to a Covered Employee in respect of a Performance Award intended to qualify as Section 162(m) Compensation in a manner that would prevent the

Table of Contents

Performance Award from qualifying as Section 162(m) Compensation. Any settlement that changes the form of payment from that originally specified shall be implemented in a manner such that the Performance Award and other related Awards do not, solely for that reason, fail to qualify as Section 162(m) Compensation, if such Performance Award is intended by the Committee to so qualify.

(e) A Performance Award shall not convey to the Participant the rights and privileges of a stockholder with respect to the Shares subject to the Performance Award, such as the right to vote (except as relates to Restricted Stock) or the right to receive dividends, unless and until Shares are earned pursuant to the Performance Award and are issued to the Participant. Notwithstanding the foregoing, unless otherwise determined by the Committee in its sole discretion, each Performance Award shall convey the right to receive dividend equivalents with respect to any dividends declared during the period that the Performance Award is outstanding, but solely with respect to those Shares underlying the Performance Awards that are earned. Such dividend equivalents rights shall accumulate and shall be paid in cash on the settlement date of the underlying Performance Award, subject to the satisfaction of the performance, vesting and other conditions of the underlying Performance Award, unless otherwise determined by the Committee. For the avoidance of doubt, unless otherwise determined by the Committee, no dividend equivalent rights shall be provided with respect to any Shares subject to a Performance Award that are not earned or do not vest pursuant to the terms of the Performance Award.

Section 10. Other Stock-Based Awards. The Committee is authorized, subject to limitations under applicable law, to grant to Participants such other Awards that may be denominated or payable in, valued in whole or in part by reference to, or otherwise based on, or related to, Shares or factors that may influence the value of Shares, including convertible or exchangeable debt securities, other rights convertible or exchangeable into Shares, purchase rights for Shares, Awards with value and payment contingent upon performance of the Company or business units thereof or any other factors designated by the Committee. For the avoidance of doubt, unless otherwise determined by the Committee, no dividend equivalent rights shall be provided with respect to any Shares subject to an Award that are not earned or do not vest pursuant to the terms of the Award.

Section 11. Conditions Precedent to Awards. As a condition precedent to the vesting, exercise, payment or settlement of any portion of any Award at any time prior to a Change in Control, each Participant shall: (a) refrain from engaging in any activity which will cause damage to the Company or is in any manner inimical or in any way contrary to the best interests of the Company, as determined in the sole discretion of the Company's Chief Executive Officer or chief human resources officer (or such individuals holding a comparable role in the event of a restructuring of positions or re-designation of titles), (b) not for a period of 12 months following any voluntary termination of employment or service, directly or indirectly, knowingly induce any employee of the Company or any Subsidiary to leave his or her employment for participation, directly or indirectly, with any existing or future employer or business venture associated with such Participant, and (c) furnish to the Company such information with respect to the satisfaction of the foregoing conditions precedent as the Committee may reasonably request. In addition, the Committee may require a Participant to enter into such agreements as the Committee considers appropriate. The failure by any Participant to satisfy any of the foregoing conditions precedent shall result in the immediate cancellation of the unvested portion of any Award and any portion of any vested Award that has not yet been exercised, paid or settled and such Participant will not be entitled to receive any consideration with respect to such cancellation.

Section 12. Effect of Termination of Service on Awards. Subject to Sections 11 and 13, and unless otherwise provided by the Committee in any Award Document, or as the Committee may determine in any individual case, the following shall apply with respect to a Participant's outstanding Awards upon such Participant's Termination of Service.

(a) *Death.* In the event of a Participant's Termination of Service due to death:

(i) Each Option and SAR held by the Participant shall immediately vest (to the extent not vested) and become exercisable and shall remain exercisable until the third anniversary of the date of death or, if earlier, the expiration date of such Option or SAR.

(ii) Each Restricted Stock and RSU Award held by the Participant shall immediately vest. Any RSU that vests pursuant to the preceding sentence shall be settled within 90 days following the Participant's death.

(iii) Each outstanding Performance Award held by the Participant (A) shall have any service-based vesting requirements waived, (B) shall be earned based upon the achievement of the performance conditions applicable to such Award, and (C) shall be paid or settled on the scheduled settlement date or dates as provided under the terms of the applicable Award Document.

(b) *Disability.* In the event of a Participant's Termination of Service due to Disability:

(i) Each Option and SAR held by the Participant shall continue to vest and become exercisable in accordance with its existing vesting schedule and shall remain exercisable until the expiration date of such Option or SAR.

Each RSU that vests pursuant to the preceding sentence shall be settled on the scheduled settlement date or dates as provided under the terms of the applicable Award Document.

(c) *Full Career Status Termination.* In the event of a Participant's Termination of Service after achieving Full Career Status:

(i) With respect to each outstanding Option and SAR held by the Participant:

(A) If such Termination of Service occurs on or prior to the one-year anniversary of the grant date of the Award (or if earlier, the one-year anniversary of the vesting commencement date as set forth in the Award Document), such Award shall be prorated (as set forth in the Award Document) and the pro-rata portion of the Award that is retained shall continue to vest in accordance with its existing vesting schedule, with the remaining portion of the Award being forfeited. Options and SARs that vest pursuant to this Section 12(c)(i)(A) shall become exercisable and remain exercisable until the expiration date of such Option or SAR as provided under the terms of the applicable Award Document.

(B) If such Termination of Service occurs after the one-year anniversary of the grant date of such Award (or if earlier, the one-year anniversary of the vesting commencement date as set forth in the Award Document), such Award shall continue to vest in accordance with its existing vesting schedule. Options and SARs that vest pursuant to this Section 12(c)(i)(B) shall become exercisable and remain exercisable until the expiration date of such Option or SAR as provided under the terms of the applicable Award Document.

(ii) With respect to each outstanding Restricted Stock or RSU Award held by the Participant:

(A) If such Termination of Service occurs on or prior to the one-year anniversary of the grant date of the Award (or if earlier, the one-year anniversary of the vesting commencement date as set forth in the Award Document), such Award shall be prorated (as set forth in the Award Document) and the pro-rata portion of the Award that is retained shall continue to vest in accordance with its existing vesting schedule, with the remaining portion of the Award being forfeited. RSUs that vest pursuant to this Section 12(c)(ii)(A) shall be settled on the scheduled settlement date or dates as provided under the terms of the applicable Award Document.

(B) If such Termination of Service occurs after the one-year anniversary of the grant date of such Award (or if earlier, the one-year anniversary of the vesting commencement date as set forth in the Award Document), such Award shall continue to vest in accordance with its existing vesting schedule. RSUs that vest pursuant to this Section 12(c)(ii)(B) shall be settled on the scheduled settlement date or dates as provided under the terms of the applicable Award Document.

(iii) With respect to each outstanding Performance Award held by the Participant:

(A) If such Termination of Service occurs within the first year of the Performance Period, (x) the Performance Award shall be prorated (as set forth in the Award Document) and the pro-rata portion of the Performance Award that is retained shall have any service-based vesting requirements waived, (y) the pro-rata portion of the Performance Award that is retained shall be earned based upon the achievement of the performance conditions applicable to such Award, and (z) the Performance Award shall be paid or settled on the scheduled settlement date or dates as provided under the terms of the applicable Award Document.

(B) If such Termination of Service occurs after the first year of the Performance Period, the Performance Award (x) shall have any service-based vesting requirements waived, (y) shall be earned based upon the achievement of the performance conditions applicable to such Award, and (z) shall be paid or settled on the scheduled settlement date or dates as provided under the terms of the applicable Award Document.

(d) *Other Terminations.* In the event of a Participant's Termination of Service for any reason not specified in this Section 12, the Participant shall not be entitled to retain any portion of an Award; *provided* that any Option or SAR that is vested on the date of the Termination of Service shall remain outstanding and exercisable until the earlier of (i) the applicable expiration date of such Option or SAR or (ii) 90 days after the Termination of Service.

(e) *Termination Pursuant to Approved Separation Agreement or Program.* Notwithstanding the above provisions, in the event of a Participant's Termination of Service pursuant to an approved separation agreement or program, such Participant will not be entitled to retain any portion of an Award; *provided* that any Option or SAR that is vested on the date of the Termination of Service shall remain outstanding and exercisable until the earlier of (i) the applicable expiration date of such Option or SAR or (ii) 90 days after the Termination of Service.

[Table of Contents](#)

(f) *Alternative Treatment.* Notwithstanding the foregoing, the Committee may provide for any alternative treatment of outstanding Awards, and the circumstances in which, and the extent to which, any such Awards may be exercised, settled, vested, paid or forfeited in the event of a Participant's Termination of Service prior to the end of a Performance Period or the exercise, vesting or settlement of such Award, either in an Award Document or, subject to Section 15, by Committee action after the grant of an Award. Unless otherwise provided in an Award Document or otherwise determined by the Committee, a qualifying leave of absence shall not constitute a Termination of Service. A Participant's absence or leave shall be deemed to be a qualifying leave of absence if so provided under the Company's employee policies or if approved by the Company's chief human resources officer (or such individual holding a comparable role in the event of a restructuring of positions or redesignation of titles).

Section 13. Effect of a Change in Control on Awards.

(a) In the event of a Change in Control, unless otherwise provided in an Award Document, outstanding Options and SARs shall be treated as described in subsection (i) below, outstanding Restricted Stock and RSUs shall be treated as described in subsection (ii) below and outstanding Performance Awards shall be treated as described in subsection (iii) below.

(i) (A) If in connection with the Change in Control, any outstanding Option or SAR is continued in effect or converted into an option to purchase or right with respect to stock of the successor or surviving corporation (or a parent or subsidiary thereof) which conversion shall comply with Sections 424 (to the extent applicable) and 409A of the Code, then upon the occurrence of a Termination of Service of a Participant by the Company without Cause or a Termination of Service by such Participant for Good Reason within 24 months following the Change in Control, such Option(s) or SAR(s) held by such Participant shall vest and become exercisable and shall remain exercisable until the earlier of the expiration of its full specified term or the first anniversary of such Termination of Service.

(B) If outstanding Options or SARs are not continued or converted as described in subsection (i)(A) above, such Options or SARs shall vest and become fully exercisable effective immediately prior to the Change in Control (in a manner facilitating full exercise, including cashless exercise by Participants subject to the Change in Control) and any Options or SARs not exercised prior to the Change in Control shall be cancelled without consideration effective as of the Change in Control.

(ii) (A) If in connection with the Change in Control, any outstanding Restricted Stock or RSU is continued in effect or converted into a restricted stock or unit representing an interest in stock of the successor or surviving corporation (or a parent or subsidiary thereof) on a basis substantially equivalent to the consideration received by stockholders of the Company in connection with the Change in Control, then upon the occurrence of an involuntary Termination of Service of a Participant by the Company without Cause or a Termination of Service by such Participant for Good Reason within 24 months following the Change in Control, such restricted stock or unit(s) held by such Participant shall vest and, in the case of units, be immediately due and payable.

(B) If outstanding Restricted Stock or RSUs are not continued or converted as described in subsection (ii)(A) above, such Restricted Stock or RSUs shall vest and, in the case of RSUs, be due and payable effective immediately prior to the Change in Control.

(iii) With respect to each outstanding Performance Award, (A) the Performance Period shall end as of the date immediately prior to such Change in Control and the Committee shall determine the extent to which the performance criteria applicable to such Performance Award have been satisfied at such time, (B) the portion of such Performance Award that is deemed to have been earned pursuant to clause (A) above shall be converted into a time-vesting Award of equivalent value to which any service vesting requirements applicable to the predecessor Performance Award shall continue to apply and (C) the converted time-vesting Award shall be paid or settled on the settlement date or dates as provided under the terms of the predecessor Performance Award that would have applied had a Change in Control not occurred; *provided* that upon the occurrence of a Termination of Service of a Participant by the Company without Cause or a Termination of Service by such Participant for Good Reason within 24 months following the Change in Control, any service vesting requirements applicable to any such converted Award shall be deemed to have been met and such converted Award shall be immediately paid or settled upon such Termination of Service.

For purposes of subsections (i) and (ii) above, no Option, SAR, Restricted Stock or RSU (including Performance Awards denominated in any of the foregoing forms) shall be treated as "continued or converted" on a basis consistent with the requirements of subsection (i)(A) or (ii)(A), as applicable, unless the stock underlying such award after such continuation or conversion consists of securities of a class that is widely held and publicly traded on a U.S. national securities exchange.

(b) In addition, in the event of a Change in Control and to the extent not less favorable to a Participant than the provisions of Section 13(a) above or the applicable Award Document, the Committee, and on such terms and conditions as it deems appropriate, either by the terms of the Award or by action taken prior to the occurrence of such Change in Control, may take any one or more of the following actions whenever the Committee determines that such action is appropriate or desirable

in order to prevent the dilution or enlargement of the benefits intended to be made available under the Plan or to facilitate the Change in Control transaction:

(i) to terminate or cancel any outstanding Award in exchange for a cash payment (and, for the avoidance of doubt, if as of the date of the Change in Control, the Committee determines that no amount would have been realized upon the exercise of the Award or other realization of the Participant's rights, then the Award may be cancelled by the Company without payment of consideration);

(ii) to provide for the assumption, substitution, replacement or continuation of any Award by the successor or surviving corporation (or a parent or subsidiary thereof) with cash, securities, rights or other property to be paid or issued, as the case may be, by the successor or surviving corporation (or a parent or subsidiary thereof), and to provide for appropriate adjustments with respect to the number and type of securities (or other consideration) of the successor or surviving corporation (or a parent or subsidiary thereof), subject to any replacement awards, the terms and conditions of the replacement awards (including, without limitation, any applicable performance targets or criteria with respect thereto) and the grant, exercise or purchase price per share for the replacement awards;

(iii) to make any other adjustments in the number and type of securities (or other consideration) subject to outstanding Awards and in the terms and conditions of outstanding Awards (including the grant or exercise price and performance criteria with respect thereto) and Awards that may be granted in the future; and

(iv) to provide that any Award shall be accelerated and become exercisable, payable and/or fully vested with respect to all Shares covered thereby, notwithstanding anything to the contrary in the Plan or the applicable Award Document.

Section 14. General Provisions Applicable to Awards.

(a) Awards shall be granted for no cash consideration or for such minimal cash consideration as may be required by applicable law.

(b) Awards may, in the discretion of the Committee, be granted either alone or in addition to or in tandem with any other Award or any award granted under any other plan of the Company. Awards granted in addition to or in tandem with other Awards, or in addition to or in tandem with awards granted under any other plan of the Company, may be granted either at the same time as or at a different time from the grant of such other Awards or awards.

(c) Subject to the terms of the Plan, payments or transfers to be made by the Company upon the grant, exercise or settlement of an Award may be made in the form of cash, Shares, other Awards, other property, net settlement, or any combination thereof, as determined by the Committee in its discretion, and may be made in a single payment or transfer, in installments or on a deferred basis, in each case in accordance with rules and procedures established by the Committee. Such rules and procedures may include provisions for the payment or crediting of reasonable interest on installment or deferred payments or the grant or crediting of dividend equivalents in respect of installment or deferred payments.

(d) Except pursuant to Section 14(e) or the laws of descent, no Award and no right under any Award may be voluntarily or involuntarily assigned, alienated, sold or transferred, including as between spouses or pursuant to a domestic relations order in connection with dissolution of marriage, or by operation of law. An Award, and any rights under an Award, shall be exercisable only by the Participant during the Participant's lifetime unless a court of competent jurisdiction determines that the Participant lacks the capacity to handle his or her own affairs, in which case an Award or any rights under an Award may be exercised by the person to whom such court has expressly granted authority to exercise such Award or the rights under such Award on the Participant's behalf. After the Participant's lifetime, an Award and any rights under an Award shall be exercisable only by the designated Beneficiary, by the person who obtains an interest pursuant to laws of descent or by the Participant's estate. In the event a person who so obtains an interest in an Award is determined by a court of competent jurisdiction to lack the capacity to handle his or her own affairs, an Award or any rights under an Award may be exercised by the person to whom such court has expressly granted authority to exercise such Award or the rights under such Award on the person's behalf. The Plan shall not recognize any grant of authority to exercise an Award or any rights under an Award except as set forth in this Section 14(d). The provisions of this Section 14(d) shall not apply to any Award that has been fully exercised or settled, as the case may be, and shall not preclude forfeiture of an Award in accordance with the terms thereof or of the Plan.

(e) Notwithstanding any other provision of the Plan, the Committee may determine at any time and in its sole discretion to delay any amounts payable with respect to any Award, provided that such Award is payable no later than December 31 of the year following the end of the applicable Performance Period.

(f) A Participant may designate a Beneficiary or change a previous Beneficiary designation at such times prescribed by the Committee by using forms and following procedures approved or accepted by the Committee for that purpose.

(g) Any Awards granted under the Plan (including any amounts or benefits arising from such Awards) shall be subject to any clawback or recoupment policies the Company has in place from time to time.

(h) Subject to the requirements of Section 409A of the Code, if the Company or any Subsidiary has any unpaid claim against a Participant arising out of or in connection with the Participant's employment or service with the Company or any Subsidiary, prior to settlement of an Award, such claim may be offset against Awards under this Plan (up to \$5,000 per year) and at the time of vesting or settlement of any Award, such claim may be offset in total. Such claims may include, but are not limited to, unpaid taxes or corporate business credit card charges.

Section 15. Amendments and Termination.

(a) Except to the extent prohibited by applicable law and unless otherwise expressly provided in an Award Document or in the Plan, the Board may amend, alter, suspend, discontinue or terminate the Plan or any portion thereof at any time; *provided, however*, that no such amendment, alteration, suspension, discontinuance or termination shall be made without (i) stockholder approval if such approval is required by applicable law or the rules of the stock market or exchange, if any, on which the Shares are principally quoted or traded, or (ii) the consent of the affected Participant, if such action would materially adversely affect the rights of such Participant under any outstanding Award, except (A) to the extent any such amendment, alteration, suspension, discontinuance or termination is made to cause the Plan to comply with applicable law, stock market or exchange rules and regulations or accounting or tax rules and regulations, (B) to impose any clawback or recoupment provisions with respect to any Awards (including any amounts or benefits arising from such Awards) adopted by the Company from time to time, or (C) as the Board determines in good faith to be in the best interests of the Participants affected thereby; *provided further*, that the Committee's authority under this Section 15(a) is limited in the case of Awards subject to Section 9(b), as provided in Section 9(b). Notwithstanding anything to the contrary in the Plan, the Committee may amend the Plan, or create sub-plans, in such manner as may be necessary to enable the Plan to achieve its stated purposes in any jurisdiction in a tax-efficient manner and in compliance with local rules and regulations to the extent that such action would not require shareholder approval. The Committee may correct any defect, supply any omission or reconcile any inconsistency in the Plan or any Award in the manner and to the extent it shall deem desirable to carry the Plan into effect.

(b) The Committee may waive any conditions or rights under, amend any terms of, or amend, alter, suspend, discontinue or terminate any provision of the Plan or any Award theretofore granted, prospectively or retroactively, without the consent of any relevant Participant or holder or Beneficiary of an Award; *provided, however*, that no such action shall materially adversely affect the rights of any affected Participant or holder or Beneficiary under any Award theretofore granted under the Plan, except (i) to the extent any such action is made to cause the Plan to comply with applicable law, stock market or exchange rules and regulations or accounting or tax rules and regulations, (ii) to impose any clawback or recoupment provisions with respect to any Awards (including any amounts or benefits arising from such Awards) adopted by the Company from time to time, or (iii) as the Committee determines in good faith to be in the best interests of the Participants affected thereby; and *provided further*, that the Committee's authority under this Section 15(b) is limited in the case of Awards subject to Section 9(b), as provided in Section 9(b).

(c) The Committee may specify in an Award Document that the Participant's rights, payments and benefits with respect to an Award shall be subject to reduction, cancellation, forfeiture or recoupment upon the occurrence of certain specified events, in addition to the conditions set forth in Section 11 and any otherwise applicable vesting or performance conditions of an Award. Such events may include (without limitation) a Termination of Service with or without Cause (and, in the case of any Cause that is resulting from an indictment or other non-final determination, the Committee may provide for such Award to be held in escrow or abeyance until a final resolution of the matters related to such event occurs, at which time the Award shall either be reduced, cancelled or forfeited (as provided in such Award Document) or remain in effect, depending on the outcome), violation of material policies, breach of noncompetition, confidentiality or other restrictive covenants that may apply to the Participant, or other conduct by the Participant that is determined in the sole discretion of the Committee to be detrimental to the business or reputation of the Company and/or its Subsidiaries.

(d) Notwithstanding the foregoing, except as provided in Section 5(c), without approval of the Company's stockholders, (i) no action shall directly or indirectly, through cancellation and regrant, through voluntary surrender and regrant, or any other method, reduce, or have the effect of reducing, the exercise price of any Option or SAR established at the time of grant thereof, and (ii) no Option or SAR may be cancelled in exchange for cash or other securities at any time when the exercise price for such Option or SAR is greater than the Fair Market Value of the Shares underlying such Option or SAR.

Section 16. Miscellaneous.

(a) No employee, consultant, advisor, Participant or other person shall have any claim to be granted any Award under the Plan, and there is no obligation for uniformity of treatment of employees, consultants, advisors, Participants or holders or

Beneficiaries of Awards under the Plan. The terms and conditions of Awards need not be the same with respect to each recipient. Any Award granted under the Plan shall be a one-time Award that does not constitute a promise of future grants. The Committee maintains the right to make available future grants under the Plan.

(b) The grant of an Award shall not be construed as giving a Participant the right to be retained in the employ of, or to continue to provide services to, the Company or any Subsidiary. Further, the Company or the applicable Subsidiary may at any time dismiss a Participant free from any liability or any claim under the Plan, unless otherwise expressly provided in the Plan or in any Award Document or in any other agreement binding the parties. The receipt of any Award under the Plan is not intended to confer any rights on the receiving Participant except as set forth in the applicable Award Document.

(c) Nothing contained in the Plan shall prevent the Committee or the Company from adopting or continuing in effect other or additional compensation arrangements (including Share-based arrangements), and such arrangements may be either generally applicable or applicable only in specific cases.

(d) The Company (or any Subsidiary) shall be authorized to withhold from any Award granted or any payment due or transfer made under any Award or under the Plan or from any compensation or other amount owing to a Participant the amount (in cash, Shares, other Awards, other property, net settlement, or any combination thereof) of applicable withholding taxes due in respect of an Award, its exercise or settlement or any payment or transfer under such Award or under the Plan and to take such other action (including providing for elective payment of such amounts in cash or Shares by the Participant) as may be necessary in the opinion of the Company (or the Subsidiary) to satisfy all obligations for the payment of such taxes.

(e) If any provision of the Plan or any Award Document is or becomes or is deemed to be invalid, illegal or unenforceable in any jurisdiction, or as to any person or Award, or would disqualify the Plan or any Award under any law deemed applicable by the Committee, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the sole determination of the Committee, materially altering the intent of the Plan or the Award Document, such provision shall be stricken as to such jurisdiction, person or Award, and the remainder of the Plan and any such Award Document shall remain in full force and effect.

(f) Neither the Plan nor any Award shall create or be construed to create a trust or separate fund of any kind or a fiduciary relationship between the Company and a Participant or any other person. To the extent that any person acquires a right to receive payments from the Company pursuant to an Award, such right shall be no greater than the right of any unsecured general creditor of the Company.

(g) No fractional Shares shall be issued or delivered pursuant to the Plan or any Award, and the Committee shall determine whether cash or other securities shall be paid or transferred in lieu of any fractional Shares, or whether such fractional Shares or any rights thereto shall be cancelled, terminated or otherwise eliminated.

(h) Awards may be granted to Participants who are non-United States nationals or employed or providing services outside the United States, or both, on such terms and conditions different from those applicable to Awards to Participants who are employed or providing services in the United States as may, in the judgment of the Committee, be necessary or desirable to recognize differences in local law, tax policy or custom. The Committee also may impose conditions on the exercise or vesting of Awards in order to minimize the Company's obligation with respect to tax equalization for Participants on assignments outside their home country.

(i) Neither the establishment of the Plan, nor any Award under the Plan, nor an individual's participation in the Plan, is intended to form part of a Participant's remuneration for the purposes of determining payments in lieu of notice of termination of employment, severance payments, leave entitlements, or any other compensation payable to a Participant, and no Award, payment, or other right or benefit, under the Plan will be taken into account in determining any benefits under any pension, retirement, savings, profit-sharing, group insurance, welfare or benefit plan of the Company or any Subsidiary.

Section 17. *Effective Date of the Plan.* The Plan shall be effective as of the Effective Date, subject to stockholder approval.

Section 18. *Term of the Plan.* No Award shall be granted under the Plan after the earliest to occur of (a) the tenth anniversary of the Effective Date, (b) the maximum number of Shares available for issuance under the Plan have been issued, or (c) the Board terminates the Plan in accordance with Section 15(a). However, unless otherwise expressly provided in the Plan or in an applicable Award Document, any Award theretofore granted may extend beyond such date, and the authority of the Committee to amend, alter, adjust, suspend, discontinue or terminate any such Award, or to waive any conditions or rights under any such Award, and the authority of the Board to amend the Plan, shall extend beyond such date.

Section 19. Section 409A of the Code. With respect to Awards subject to Section 409A of the Code, the Plan is intended to comply with the requirements of Section 409A of the Code, and the provisions of the Plan and any Award Document shall be interpreted in a manner that satisfies the requirements of Section 409A of the Code, and the Plan shall be operated accordingly. If any provision of the Plan or any term or condition of any Award would otherwise frustrate or conflict with this intent, the provision, term or condition will be interpreted and, to the extent necessary, deemed amended so as to avoid this conflict. If an amount payable under an Award as a result of the Participant's Termination of Service (other than due to death) occurring while the Participant is a "specified employee" under Section 409A of the Code constitutes a deferral of compensation subject to Section 409A of the Code, then payment of such amount shall not occur until six months and one day after the date of the Participant's Termination of Service, except as permitted under Section 409A of the Code. To the extent any amount that is "nonqualified deferred compensation" for purposes of Section 409A of the Code becomes payable upon a Termination of Service, such Termination of Service shall not be deemed to have occurred any earlier than a "separation from service" would occur under Section 409A of the Code, and related regulations and guidance thereunder. Notwithstanding any of the foregoing, the Company makes no representations or warranty and shall have no liability to the Participant or any other person if any provisions or payments, compensation or other benefits under the Plan are determined to constitute nonqualified deferred compensation subject to Section 409A of the Code but do not satisfy the provisions thereof.

Section 20. Data Protection. By participating in the Plan, the Participant consents to the holding and processing of personal information provided by the Participant to the Company or any Subsidiary, trustee or third party service provider, for all purposes relating to the operation of the Plan. These include, but are not limited to:

- (a) administering and maintaining Participant records;
- (b) providing information to the Company, Subsidiaries, trustees of any employee benefit trust, registrars, brokers or third party administrators of the Plan;
- (c) providing information to future purchasers or merger partners of the Company or any Subsidiary, or the business in which the Participant works; and
- (d) transferring information about the Participant to any country or territory that may not provide the same protection for the information as the Participant's home country.

Section 21. Governing Law. The Plan and each Award Document shall be governed by the laws of the State of Delaware, without application of the conflicts of law principles thereof.
